Economic Overview

Pakistan's economy demonstrated resilience on back of declining global oil prices, which started towards the end of 2014, and steady implementation of institutional reforms as set out under IMF's program. The sudden drop in global oil prices has brought real income shifts and a distinct set of opportunities for oil importing nations including Pakistan.

Growth in Large Scale Manufacturing (LSM) remained 2.2% between Jul'14 and Jan'15; going forward, the sector would steadily gain momentum as lagged impact of monetary easing begins to trickle down. The major downside hindering the growth is persistent energy crises.

Foreign exchange reserves continued to improve during the first quarter of 2015 with end-March reserves reaching US\$16,194 million; supported by favorable impact of fall in global oil prices, disbursements program of international multilateral agencies and privatization proceeds. As a result, Pakistan Rupee exchange parity with US\$ remained stable during the quarter under review.

External current account deficit remained at a manageable level of around 0.8% of GDP during Jul'14 - Feb'15 as compared to 1.5% during corresponding period mainly due to receipt of Coalition Support Fund (CSF) of US\$ 717 million and healthy remittances inflow of US\$ 13,327 million during Jul'14 - Mar'15 which were 15% higher than the corresponding period.

Broad Money (M2) growth remained 2% during the quarter under review. The sluggish expansion in M2 translated in modest growth in overall banking sector deposits, posting similar modest growth of 2% to reach Rs. 8,508 Billion (Dec'14: Rs. 8,342 Billion). Due to lack of private sector credit appetite the banking sector advances contracted from Dec'14 level of Rs. 4,458 Billion to reach Rs. 4,431 Billion at end-Mar'15.

With limited credit expansion opportunities, bulk of the surplus liquidity continues to be diverted towards Investments with volumetric growth primarily in government securities. Investments at end-March 2015 reached Rs. 5,704 Billion, approximately 12% higher than December 2014 level of Rs. 5,108 Billion.

Decline in international oil and other commodity prices continued to ease inflationary pressures with YoY inflation reaching 2.5% at end - March 2015 as compared to 8.5% in the corresponding period of last year. With inflation being consistently under FY-15 initial target of 8% (revised target of 4.5%-5.5%) SBP reduced policy rate by 100 basis points in January 2015 to 8.5%. The economic indicators which continued to improve during Q1 2015 prompted SBP to further ease the policy rate by 50 basis points to 8.0% in March 2015.

The positive economic indicators were recognized internationally as well with Moody's Investors Service revising the outlook on Pakistan's rating to 'positive' from 'stable'.

Financial Review

Your Bank remains cognizant of the positive economic indicators and duly capitalized on available opportunities by consistently following up strategy of steady growth through further augmenting risk management framework, enhancing the service delivery efficiency while continuously focusing on strengthening information technology platform and building up quality earning assets portfolio to increase profitability during the quarter.

Profit Before Tax of Your Bank increased by 42.3% to reach Rs. 6,473 million during the first quarter ended March 31, 2015 as compared to Rs.4,550 million in the corresponding period of previous year. Profit after tax also registered impressive growth of 30% reaching Rs. 4,210 million as compared to Rs. 3,240 million in corresponding quarter of 2014. As a result EPS of Your Bank increased to Rs. 3.68 per share in March 2015 compared to Rs. 2.83 per share (diluted) in March 2014. Similarly, ROE and ROA of Your Bank improved to 26.74% and 1.97% respectively as compared to 23.78% and 1.75% in the corresponding period.

The Net Mark-up income increased by Rs. 2,718 million or 47.2% and aggregated to Rs. 8,477 million during the quarter ended March 31, 2015 as compared to Rs. 5,759 million during the corresponding period in 2014. The positive variance mainly emanated from higher average volumes and change in earning assets mix.

Net provision charge for the quarter ended March 31, 2015 was Rs. 729 million as compared to net reversal of Rs. 37 million in the corresponding period of last year mainly on account of Rs. 685 million provision against exposure in BYCO Petroleum Pakistan Limited. Your Bank is following a prudent approach and has now provided 75% of total exposure in BYCO despite an exemption available from the SBP till June 2015.

Your Bank's non mark-up/ interest income increased to Rs. 3,054 million during the quarter ended March 31, 2015 as compared to Rs. 2,793 million during the corresponding period in last year, depicting an increase of Rs. 262 million or 9.4%. The increase is attributable mainly to higher FX and fee income by Rs. 371 million and Rs. 169 million respectively offsetting the impact of lower capital gain and dividend income which reduced by Rs. 297 million.

Despite network expansion from 952 branches in March 2014 to 1,000 branches in March 2015, overall administrative expenses increased by 6.7% over the same period last year.

Your Bank's total deposits as at March 31, 2015 remained stable to close at Rs. 665,619 million compared to Rs. 667,878 million as at December 31, 2014. Net advances decreased by Rs. 8,051 million to close at Rs. 297,964 million compared to December 2014 level of Rs. 306,014 mainly on account of repayments in seasonal financing. Investments on the other hand increased by Rs. 26,195 million or 6.1% to reach Rs. 454,986 million as compared to the December 2014 level of Rs. 428,791 million.

Directors' Review

Non-performing loans decreased by Rs. 275 million to Rs. 22,647 million as at March 31, 2015, compared to December 31, 2014. Infection ratio marginally increased to 7.1 % as at March 31, 2015 from 7.0% in Dec 2014, mainly due to reduction in advances portfolio. Meanwhile, the loan loss coverage increased to 90.6% as at March 31, 2015 from 86.4% as at December 31, 2014. No FSV benefit has been taken while determining the provision against Non-Performing Advances as allowed under BSD Circular No. 02 of 2010 dated June 03, 2010.

Total assets of Your Bank stood at Rs. 865,844 million as at March 31, 2015 while the Equity of the Bank as at March 31, 2015 stood at Rs. 85,093 million.

Future Outlook

The positive economic indicators in the form of lower than expected inflationary pressure emanating from drop in international oil prices, steady build up of reserves and manageable external account deficit have improved the future outlook of the country's economy. Going forward, the key challenges remain the resolution of the energy crisis and improving the law and order situation. Easing of inflation due to fall in international oil and other commodity prices has provided an opportunity to further reduce distortions in the energy sector, while allowing for some downward adjustments in consumer tariffs.

Major future developments in the banking sector shall be adjusting to falling interest rates scenario, which has already witnessed 150 bps drop in policy rate during the first quarter of 2015, minimum capital requirements especially for smaller banks which may raise opportunities for consolidation within the industry and compliance with any future regulatory requirements.

Your Bank remains conscious of changing economic and operational environment; Strategic priorities towards steady growth in performance would be driven by optimum utilization of multiple delivery channels through use of latest technology platforms and augmented risk management framework continuously improving the quality of assets. The Bank remains committed towards diversifying revenue streams through focusing on gradual growth in Islamic Banking, Branchless banking and fee based income opportunities to contribute in sustainable profitability, going forward.

Entity & TFC Ratings

Allied Bank has long-term and short-term entity ratings of AA+(Double A plus) and A1+ (A One Plus), respectively, assigned by The Pakistan Credit Rating Agency (PACRA). The ratings represent very high credit quality. The rating of TFC Issue of Rs. 3,000 million (Issue Date: August 28, 2009) by PACRA is AA (Double A). The ratings denote very low expectation of credit risk emanating from a very strong capacity for timely payment of financial commitments.

The management is confident that these appeals will be decided in favor of the Bank; therefore, no provision has been made against the said demand of Rs. 1,218 million (December 31, 2014: 1,218 million).

Tax authorities have also issued orders under Federal Excise Act, 2005/Sales Tax Act/Sindh Sales Tax on Services Act 2011 for the year 2008 to 2014 thereby creating arbitrary aggregate demand of Rs. 621 million (December 31, 2014: 573 million). The Bank's appeals before CIR(A)/Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that aforesaid demand will be deleted by appellate authorities and therefore no provision has been made against the said demand of Rs. 621 million (December 31, 2014: 573 million).

- 12.12.1 There is no change in the status of contingencies, set out in note 22.12 to the consolidated financial statements of the Bank for the year ended December 31, 2014, except for the contingencies as mentioned below:
- 12.12.2 The income tax assessments of the Bank have been finalized upto and including tax year 2014 for local and Azad Kashmir operations. While finalizing income tax assessments upto tax year 2014, income tax authorities made certain add backs with aggregate tax impact of Rs. 20,804 million (December 31, 2014: 19,048 million). As a result of appeals filed by the Bank before appellate authorities, most of the add backs have been deleted. However, the Bank and Tax Department are in appeals/references before higher forums against unfavorable decisions. Pending finalization of appeals/references no provision has been made by the Bank on aggregate sum of Rs. 20,804 million (December 31, 2014: 19,048 million). The management is confident that the outcome of these appeals/references will be in favor of the Bank.

Tax Authorities have conducted proceedings of withholding tax audit under section 161/205 of Income Tax Ordinance, 2001 for tax year 2005, 2006 and tax year 2008 to 2014 and created an arbitrary demand of Rs. 1,226 million (December 31, 2014: 1,226 million). The Bank's appeals before CIR(A)/ Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that these appeals will be decided in favor of the Bank; therefore, no provision has been made against the said demand of Rs. 1,226 million (December 31, 2014: 1,226 million).

Tax authorities have also issued orders under Federal Excise Act, 2005/Sales Tax Act/Sindh Sales Tax on Services Act 2011 for the year 2008 to 2014 thereby creating arbitrary aggregate demand of Rs. 621 million (December 31, 2014: 573 million). The Bank's appeals before CIR(A)/Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that aforesaid demand will be deleted by appellate authorities and therefore no provision has been made against the said demand of Rs. 621 million (December 31, 2014: 573 million).

The Finance Act 2008 introduced an amendment to the Workers' Welfare Fund Ordinance 1971 whereby it is alleged that Collective Investment Schemes (CISs)/Mutual Funds whose income exceeds Rs. 0.5 million in a tax year are liable to pay WWF. A writ petition has been filed in Sindh High Court to challenge the applicability of WWF. ABL AMC has undertaken to bear an amount of Rs. 27.38 million, if applicable, in respect of CISs managed by it. Therefore, no provision is made in these financial statements for said amount of RS. 27.38 million because the management is confident that based on MUFAP's legal Council opinion dated December 12, 2011, the matter will be decided favourably in due course.
