Chairman's Message

2016 marked another challenging year for the world economy with stagnant global trade, subdued investment and heightened policy uncertainty.

According to IMF, global growth estimated at just 3.1% for 2016, is expected to slightly rebound to 3.4% in 2017.

Domestic demand in UK held up better than expected in the aftermath of the Brexit and activity rebounded strongly in the United States after a weak first half.

However, uncertainty surrounding the policy stance of the new U.S. administration may result in divergent possible outcomes around the aforementioned projections.

Significant realignments particularly in emerging and developing economies including rebalancing in China along with macroeconomic and operational fallout of volatile commodity markets led to a persistent decline in trade volumes. Depressed investment flows and changing regulatory/policy frameworks remain key challenges towards significant growth stimulus.

After witnessing significant dip with a low of US\$ 23 per barrel, oil prices recovered to US\$ 50-55 per barrel during 2016. OPEC and 11 Non-OPEC nations' decision to cut oil production by 1.2 million barrels a day partially assisted in reversing the prevailing global supply glut sentiments. Though proving to be a challenge for oil

exporting countries, depressed oil prices favored oil importing countries including Pakistan in the balance of payment as well as ingraining fiscal discipline.

Domestic challenges pertaining to socio-economic and business environment persisted during 2016; particularly relating to viable energy provision constraints, delicate security situation, rise in undocumented economy and broadening of tax base. Country needs to stay on course of macro-economic and structural reforms, which are critical for fiscal and economic sustainability and investment growth.

Despite these significant challenges, external factors driven primarily by lower global oil prices, Pakistan's macroeconomic indicators depicted positive trend with subdued inflation, strengthened foreign exchange reserves and slight boost in Foreign Direct Investment (FDI) primarily stemming from CPEC related projects and uptick in merger and acquisition activity in power, food and home appliances sectors. After a docile 2015 with just 2% growth, Pakistan Stock Exchange outperformed regional markets to increase by 46%; reaching all time high of 47,807 points during 2016 and subsequently crossing the 50,000 mark in early 2017. As Pakistan's entry in to MSCI's Emerging Market index in May 2017 draws nearer, capital markets depict a favorable short term outlook. Lack of growth in exports since FY 2013-14, remains major area of concern; while Pak Rupee's growing disparity between open market and inter-bank rates against US\$ is also depicting an ominous situation.

Although State Bank of Pakistan (SBP) maintained its accommodative monetary policy stance during the year, credit appetite broadly remained passive during the year, but displayed signs of recovery at end-December 2016. With unbanked population estimated at 87%, Pakistan ranks amongst the lowest in terms of Private Sector Credit to GDP ratio in the region which stands at meager 15% highlighting the major gap that exists between Banks – the financial intermediaries and the general public. The enormous size of undocumented economy in the country forces undocumented firms to rely on trade credits/loan sharks, which charge interest at unviable rates ranging between 36%-50%; significantly curtailing their growth potential. Despite numerous amnesty schemes, unwillingness by the businesses to register for tax purposes remains the key reason driving public away from banks for utilization of banking facilities.

Furthermore, withholding tax imposed on banking sector transactions has also aggravated the problem, with lack of broad based growth in private sector credit appetite amidst historically low benchmark rates.

With resultant pressure on mobilization of low / no cost deposits, banking sector margins continues to shrink accordingly; simultaneously affecting the sector's bottom line while reducing contribution towards the national exchequer. The continuation of the aforementioned taxation regime is becoming a challenge for the implementation for the National Financial Inclusion Strategy adopted by the government in 2015; envisaging formal financial access to 50% of the population by 2020.

Rising costs of doing business, maturity of high yielding government bonds and continuation of Super tax, also pose significant threat to industry profitability in the short term. In an effort to overcome the aforementioned challenges, Your Bank

Chairman's Message (Contd.)

adopted a cautious approach for deriving stable performance while keeping in view long term strategic vision.

With continuous focus towards retention of 'Preferred Choice Bank' for valued customers, Your Bank undertook various ongoing strategic initiatives including gradual introduction of digital banking products/services suite, technology driven trade portal solutions, enhanced information security measures for products/services, upgrade of core-banking system, focused expansion in delivery channels, enhanced automation and centralization of workflows along with continuous induction and development of highly skilled human capital for the fast approaching digital age.

During 2016, Your Bank entered in to an agreement with the country's largest Telecommunication company for the launch of mobile wallet services; thereby initiating to facilitate financial inclusion.

Strategic partnership with MasterCard was also established by signing Memorandum of Understanding during the year; under this collaboration premium cards, digital payment and remittance products shall be introduced for the customers. Pakistan's low ranking in Global Connectivity Index 2016 highlights the vast potential in Digital Banking, while at the same time reflects the immense challenges towards transformation from infancy to pioneer stage.

Your Bank's superior asset quality, depicted by highest coverage ratio and one of the lowest infection ratio in the industry, diverse revenue streams and robust equity base contributed towards maintaining a strong Balance Sheet with stable profitability despite facing numerous challenges.

During the year, overall Balance Sheet and total Equity size of the Bank crossed the significant milestone of Rs.1,000 billion and Rs.100 billion mark respectively.

The drive to implement expansion in outreach was maintained during the year.

Your Bank added 100 new branches to expand its vast network across Pakistan to 1,150 branches with emphasis on maintaining mix of urban and rural branches.

In addition, by augmenting alternate delivery channels Your Bank achieved 1:1 coverage ratio with respect to its ATMs and branch network.

Deployment of 208 off-site ATMs at strategic locations keeping in view customers' convenience has enhanced the Bank's presence and brand image.

Globally, Islamic Banking continues to grow rapidly with steady strides in the domestic market as well. In order to cater to the needs of growing Islamic Banking segment, Your Bank has successfully expanded its network to dedicated 77 Islamic Banking branches across Pakistan in a span of approximately two years.

International footprint of Your Bank maintained its steady performance during the year with focus on augmenting trade and remittance based businesses.

During 2016, Your Bank achieved major milestone in its endeavors for international expansion when State Bank of Pakistan (SBP) and China Banking Regulatory Commission (CBRC) granted license for opening of Representative Office in China.

This will assist in harnessing the benefits from potential bilateral trade and business opportunities arising from CPEC.

Developing a highly skilled and capable workforce with upcoming Digital Age in perspective remains one of the key objectives of Your Bank.

Specialized in-house and external training programs were conducted to equip and reinforce the existing and

new workforce with modern banking and soft skills concepts; with emphasis on technology awareness. In an environment increasingly challenged by digital disruptions, persistent efforts are being made to develop a dynamic and progressive work force competent to deliver in the twenty first century.

In this regard, international training programs from the world's leading universities were also arranged for senior and middle management further enhancing knowledge base of the Bank.

With the aim to play its positive role as a responsible corporate citizen, Your Bank generously contributed towards Corporate Social Responsibility (CSR) programs through active assistance in reputable healthcare, educational and environment protection initiatives; proactively supporting various charitable organizations in their endeavors.

Acknowledging the sound business and governance performance, Pakistan Credit Rating Agency (PACRA) maintained the long-term rating of Allied Bank at "AA+" and short term rating at "A1+". During 2016, JCR-VIS Credit Rating Company Limited upgraded Your Bank's Corporate Governance rating to "CGR-9+" indicating very high level of corporate governance.

Future Outlook

Pakistan's economic growth outlook is expected to remain on track, crossing 5% in FY2016-17 driven by rising infrastructure spending, low commodity prices and gradually improving security situation boosting investor confidence. While sustained efforts have been made with relative success to accomplish economic reforms planning including Vision 2025, actual implementation is imperative for broad based economic growth. Considering the gravity of the situation especially with reference to the fiscal challenges, Your Bank intends to actively assist in the tax reforms agenda of the Government of Pakistan through

regular interaction with the relevant policy makers and submission of long term actionable points being mindful of the ground realities.

Legislative/fiscal reforms, provision of viable energy solutions and competitiveness of the private sector along with manpower development at the international level, remain the key areas where the focus of the reforms agenda needs to be maintained. The country's population is expected to double by 2050, major investment in population especially youth needs to be undertaken. Health, education, social awareness, women empowerment and nutrition are key areas where investment can augment future growth prospects. Provision of cost efficient and green sources of energy, water and security are entwined factors of production necessary for enhancing the country's overall competitiveness.

Pakistan's economy can harness the positive potential of Chinese flows resulting from China Pakistan Economic Corridor (CPEC), multi-billion infrastructure development projects focusing on uplift of power sector, industrial parks and economic zones; to raise living standards and share prosperity while mitigating the associated risks and challenges being posed to the protection of domestic industry.

In a business environment increasingly impacted by digital disruptions; information and communication technologies are gaining enhanced significance as new digital technologies persistently challenge conventional business models. Amidst these evolving customer needs, gaining competitive advantage over the peers requires innovative diversification of products, services, business processes and human

resource competencies to gradually realize the immense opportunities of digital technologies. Accordingly, the Omni channel business model being adopted by global banks is enabling seamless customer experience across conventional and digital channels. A new genre of industry is developing; facilitating diverse range of financial transactions while utilizing latest technology platforms. This combination of Finance and Technology (FinTech) is set to transform business of banking in years to come.

Your Bank's strategy envisions the rapid changes to the operating environment going forward. Investment in latest technology driven innovations facilitating deepening of relationships and higher share of customer wallet, pre-emptive risk management to mitigate evolving risks and transparent corporate governance are expected to facilitate in achieving the desired goals. Enhancing outreach remains a cornerstone of our strategy. While the Brick and Mortar branch model is being replaced by concept of "Smart Branches" globally, Pakistan's vast unbanked population still justifies conventional branch expansion plans; duly embedded in Bank's strategy. Your Bank shall further augment the unique initiative for provision of Bank managed warehouses to mitigate inherent risk associated with the pledge financing. Growth of Digital banking shall require enhancing the financial literacy of both the bankers and the banked population in Pakistan; the banking sector with its vast outreach and customer base can be the key facilitator in delivering this mindset change. Accordingly, in order to facilitate imparting of modern concepts, broadly covering areas of management structures, leadership, business strategies and technological

innovations, to Bank's employees as well as Obligors through a dedicated Management Development Complex shall be a major endeavor which Your Bank intends to undertake in future.

The financial inclusion gap remains extensive in Pakistan and only through wholeheartedly embracing technological advancements and innovation; much needed change can be accomplished.

Your Bank shall also be achieving a significant milestone of 75th anniversary during 2017. Growing exponentially since re-capitalization in 2004; strong emphasis needs to be maintained for capitalizing on successes of past years while pro-actively taking on the multi-faceted challenges ahead.

Lastly, I would like to express gratitude to all our stakeholders including Board of Directors for providing invaluable foresight, Securities and Exchange Commission of Pakistan and State Bank of Pakistan for continued support and guidance.

Director's Report

Dear Shareholders,

On behalf of the Board, I am pleased to present the Annual Report of Your Bank for the year ended December 31, 2016. The operating results and appropriations, as recommended by the Board are included in the appended table:

The Board of Directors has proposed a final cash dividend of Rs.1.75 per share (aggregate cash dividend of Rs.7.25 per share including interim dividends). This, together with the interim dividends declared during 2016, will be approved in the forthcoming Annual General Meeting.

Macroeconomic Developments

Gradual consumption driven resurgence bolstered economic growth during FY 2015-16; with GDP growth recorded at 4.7% (FY 2014-15: 4.2%) being the highest in previous eight years. However, significant challenges including volatile security situation, stagnant energy shortages, tough regulatory environment, continuous pressure on exports and falling home remittances, low tax and private sector credit to GDP ratios, soaring budget deficit, persistently low foreign direct investment (FDI) prevailed during the period under review; ultimately hindering the Government's desired growth target of 5.5%. External operating environment on the contrary became favorable for the economy as the dip in international oil prices pushed inflation to 47-years' low of 2.9% during FY 2015-16. Amidst, contained balance of payment deficit, foreign exchange reserves reached all-time high of US\$24.1 billion during 2016. Sustained broad based growth remains contingent upon consolidating structural reforms along with focused approach towards enhanced competitiveness in the private sector in

sync with the rapidly changing economic and social landscape.

Despite the positive growth in overall GDP, the challenging operating environment for the banking sector continued during 2016; emanating from historically low benchmark interest rates coupled with low private sector credit appetite, resulted in further erosion in the interest rate spread to an all-time low of 5.02% as at end-December 2016. Depressed commodity prices along with sustained demand slump in key export markets; along with maturity of Rs 1,425 billion of high yielding government securities augmented the pressure on the yield on earning assets. Simultaneously aggressive withholding tax regime continued to concurrently impact the mobilization of low cost funding while remaining a major hindrance in financial inclusion of the unbanked population.

Financial Performance

Your Bank's multi-faceted strategy of diversifying the business mix and sustained focus on deepening our low-cost deposit base enabled steady performance despite the aforementioned challenges. The Bank's core retail business continues to grow steadily, supported by an expanding network of 1,150 online branches and ATMs. The investments in relevant technologies geared towards enhancing our customer-centric approach, robust risk management framework and the right talent enabled sustained profitability during 2016. Focus on gradual introduction of Digital Banking products and services remain a key growth driver for future.

Despite the pressure on net spreads in an increasingly competitive market, volumetric growth of average earning assets along with increase in non-markup income enabled Your Bank in posting Profit after Tax of Rs.14,427 million as compared to Rs. 15,120 million in 2015. The promulgation of one-off super tax in Finance Act 2015 at the rate of 4%

of previous year's taxable income was unexpectedly maintained during the year, leading to additional prior year tax charge of Rs.950 million. Resultantly, effective tax rate stood at 39.5%. Excluding the impact of prior year tax charge, Profit after tax amounts to Rs. 15,377 million. The EPS of Your Bank stood at Rs.12.60 per share as compared to Rs.13.20 per share in 2015. Excluding the impact of prior year tax charge, the Bank's EPS improves to Rs.13.43 per share. During 2016, Return on Assets (ROA) and Return on Equity (ROE) stood at 1.4% and 20.3% respectively; excluding prior year tax charge, the ROA and ROE improves to 1.5% and 21.6% respectively. The Bank's ROA and ROE remained well-above September 2016 industry's average of 1.3% and 14.2% respectively.

Quality credit opportunities still remain elusive amidst intense competition due to relatively stagnant private sector credit appetite. Your Bank's Gross Advances accordingly grew by Rs.8,245 million to close at Rs.349,015 million. Surplus net resources were diverted towards investments which increased to Rs.589,865 million.

Despite the intense competition for low/no cost deposits and the sectorial challenges due to withholding tax regime for non-income tax return filers, the Bank posted healthy growth in deposits of 10% which reached Rs.805,111 million at end-December 2016 while at the same time improving the CASA percentage to 78% as at December 31, 2016 as compared to 73% as at December 31, 2015.

The overall Balance Sheet size of Your Bank surpassed Rs.1,000 billion mark and reached Rs.1,070 billion – an increase of 8% against 2015. Total Equity of the Bank also crossed the Rs.100 billion milestone and increased by 13% to close at Rs.100,674 million as compared to Rs.89,256 million as at December 31, 2015. Despite perpetual pressure on interest rate spreads and significant maturities in high yielding government bonds,

the net mark-up income stood at Rs.33,261 million. The focused approach towards expansion in low/no cost deposit base contributed significantly towards stemming the possible higher deterioration in Net Interest Margin.

Your Bank's non-interest income increased by 15% in 2016 to close at Rs.11,210 million. Fee based income increased by 12% to reach Rs.4,014 million. The Bank's blue-chip equity portfolio continue to yield significant revenue streams with the dividend income increasing by 7% to reach Rs.3,776 million. Further capitalizing from Bank's "Primary Dealer" status, capital gains of Rs.2,598 million were realized from active interbank trading in government securities during 2016; as compared to Rs.769 million realized in 2015. The healthy growth in fee income and capital gains also compensated for lower income from dealing in foreign currency due to relatively stable Swap curve and lower other income due to booking of compensation for delayed tax refund of Rs.820 million in 2015 respectively.

Your Bank's continuous investment towards expansion of outreach, innovative technologies, Digital Banking platforms and Alternate Delivery Channels

along with related human resources costs resulted in administrative expenses to close the year at Rs. 20,309 million.

Utilizing the technology driven robust Risk Management Framework, Your Bank secured reversal in provision against advances of Rs. 335 million during 2016 as compared to reversal of Rs. 288 million in 2015. No benefit of FSV was taken while determining the provision against NPLs as allowed under BSD Circular No. 01 of 2011 dated October 21, 2011. The Loan Loss Coverage ratio of the Bank improved from 87.5% as at December 2015 to 91.9% as at December 31, 2016 while the infection ratio also reduced from 6.4% as at December 2015 to 5.9% as at December 2016. The asset quality ratios of the Bank remain one of the best within industry and well above the September 2016 average industry coverage ratio of 82.7% and infection ratio of 11.3% respectively. Net provision charge against investments amounted to Rs. 75 million as against Rs. 1,812 million last year; which was mainly on account of impairment against oil stocks.

Your Bank's Capital Adequacy Ratio (CAR) remains well above the requirements stipulated by State Bank of Pakistan. CAR under Basel III convention on standalone and consolidated basis stood at 20.84%

and 20.88% respectively, against requirement of 10.65%. The Bank's well capitalized position is reflected by strong Common Equity Tier ratio (CET) and Tier 1 ratio (CET1) which stood at 16.36% against requirement of 6.0% and 7.5% respectively.

Sponsor Shareholding

During the year under review the shareholding of the sponsors comprising of 84.35% in Allied Bank Limited have been transferred to M/s Ibrahim Holdings (Private) Limited to form a group (the Group) under the Group Companies Registration Regulations, 2008 (the Regulations); accordingly Allied Bank Limited has become a subsidiary of M/s Ibrahim Holdings (Private) Limited. On February 2, 2017 the Bank and its subsidiary ABL Asset Management Company Limited were registered under the Regulations as Group with M/s Ibrahim Holdings (Private) Limited being the Holding Company.

Statement under Code of Corporate Governance

The Board of Directors is aware of its responsibilities under the Code of Corporate Governance and is pleased to report that:

Chief Executive Officer's Review

The Board of Directors fully endorses the Chief Executive Officer's Review on the Bank's operational performance for the year ended December 31, 2016.

Statement of Internal Controls

The Board is pleased to endorse the statement made by management relating to internal controls including management's evaluation of ICFR. The Management's Statement on Internal Control is included in the Annual Report.

Corporate Sustainability

The Board is pleased to endorse the Corporate Sustainability initiatives taken by Your Bank, as disclosed separately in the Annual Report.

Risk Management Framework

Your Bank manages risk through a framework of sound risk principles which includes an optimum organizational structure, risk assessment and monitoring processes. The Risk Management (RM) is mandated to implement this framework as a function independent of commercial lines of business, working under the guidance of Board's Risk Management Committee (BRMC). RM took several steps in 2016 to further strengthen the risk management framework, for example:

- Upgraded the loan origination module of Risk Assessment and Management System (RAMS) by automating credit approval workflows for agriculture financing products. With implementation of these modules, the Bank has achieved automation of its entire credit portfolio.
- Strengthened credit risk assessment through implementation of the facility risk rating model in RAMS. The model is embedded in the loan origination module and assigns risk rating to facilities, based on their inherent features and duly adjusts the same on the basis of the nature of offered collaterals.
- Integrated the technical plant visit assessment results with the Bank's Obligor Risk Rating (ORR) model, which ensures that due weightage of technical evaluation conducted by the technical appraisal team is seamlessly incorporated in the latest ORR of obligors.
- Developed an automated workflow for issuance of disbursement authorization certificates in RAMS. Through this initiative RM endeavors to make the credit disbursement process further transparent and efficient.
- Continued the trend of engaging with the obligors to provide them with latest insight on business management and strategies and accordingly, during 2016 organized 3 interactive seminars for corporate, commercial and SME obligors on the following topics:
 - Evolution of corporate governance and growth
 - Corporate governance and macroeconomic challenges for growth

Your Bank devotes considerable resources in managing the risks to which it is exposed. The momentum attained thus far will be continued in the future through significant investments in human resources, technology and training.

Entity Ratings

The Pakistan Credit Rating Agency Limited (PACRA) has maintained the long-term rating of Allied Bank at “AA+” (Double A Plus). The short term rating of the Bank remained at “A1+” (A One Plus).

Corporate Governance Rating

JCR-VIS Credit Rating Company Limited has upgraded the Corporate Governance Rating of Allied Bank Limited as ‘CGR 9+’ from the previous rating of ‘CGR-9’. The upgraded rating denotes ‘very high level of corporate governance’. The rating is based on the continued commitment of the Board and management of Your Bank towards a sound governance framework.

Board of Directors

As more fully explained in the Director profiles, five members of the Board of Directors are ‘Certified Directors’ from Pakistan Institute of Corporate Governance / Institute of Chartered Accountants of Pakistan, remaining three Directors are exempted from directors’ training program pursuant to clause xi of CCG due to having prescribed education / experience.

The Board of Directors would like to place on record its sincere appreciation to the outgoing CEO Mr. Tariq Mahmood for his invaluable services. The Board of Directors also welcomes the incoming CEO Mr. Tahir Hassan Qureshi, having vast professional experience and prolonged association with the Bank.

Performance evaluation Mechanism for the Board

Board of Directors (BOD), while ensuring regulatory compliance, is also vested with the fiduciary responsibility on behalf of the shareholders for protecting Bank’s interests, providing strategic direction and monitoring the achievement of strategic objectives. The Companies Ordinance 1984, Banking Companies Ordinance 1962 and SBP’s Prudential Regulations describes the role of the

Board along with Code of Corporate Governance (The Code) in which responsibilities and functions of the Board are well defined. As required under the Code, the Board, in 2014, put in place an effective mechanism for monitoring its performance.

In the year 2016, SBP vide BPRD Circular No. 11 dated August 22, 2016, issued detailed Guidelines regarding Performance Evaluation of Board of Directors. According to these Guidelines, Board of Directors was required to carry out its own performance evaluation, besides, the performance evaluation of different categories of the Board Members and the Board Committees.

As required under the above referred SBP circular, the Board reviewed Bank’s existing mechanism and decided to opt for in-house approach with quantitative technique. Accordingly, the Board Members evaluated performance of overall Board, Board Committees and Individual Board Members as per the following categories:

- i. Chairman.
- ii. Sponsor Directors.
- iii. Independent Directors.
- iv. Individual Directors (other than Chairman, Sponsors, Independent Directors and CEO).
- v. Chief Executive Officer.

Responses/Feedback from the directors on each of the categories (except Chairman) were compiled and submitted to the Chairman. The Chairman discussed the results/findings with each Individual Board Member. The authorized independent director communicated the feedback in respect of the Chairman for incorporation in consolidated Performance Report.

The said Report comprising of consolidated evaluation results and the Action Plan forwarded by the Chairman of the Board submitted to the Board of Directors for its consideration.

Auditors

The present auditors Messrs. KPMG Taseer Hadi & Co., Chartered Accountants retire and being eligible offer themselves for re-appointment.

The Board of Directors on the recommendation of the Audit Committee, has recommended Messrs. KPMG Taseer Hadi & Co., Chartered Accountants, as statutory auditors for the next term.

Events after the Balance Sheet date

There have not been any material events that occurred subsequent to the date of the Statement of Financial Position that require adjustments to the enclosed financial statements, except those which have already been made or disclosed.

Acknowledgments

On behalf of the Board and the Management, I would like to place on record my appreciation to our valuable customers and shareholders for their belief in Allied Bank, Securities and Exchange Commission of Pakistan, State Bank of Pakistan and other regulatory bodies for their guidance and support. I would also like to express my deep gratitude for the dedicated services and input made by the staff members in the continuous advancement and progression of the Bank.

For and on behalf of the Board of Directors,

Tahir Hassan Qureshi
Chief Executive Officer

تک پہنچ گیا۔

ٹیکنالوجی سے مزین، مضبوط رسک مینجمنٹ کے ڈھانچے کے استعمال کی وجہ سے آپ کے بینک نے قرضہ جات کیلئے مختص شدہ اخراجات کی مد میں سال 2016 کے دوران 335 ملین روپے کی تنسیخ پربنسٹ سال 2015 کے جب اس تنسیخ کا تعلق 288 ملین روپے تھا۔ 21 اکتوبر، 2011 کے جاری کردہ پی ایس ڈی سرکلر 01 کے مطابق غیر فعال قرضوں کیلئے متعین شدہ جبری قیمت فروخت (FSV) کے فوائد نہیں لیے گئے۔ قرضہ جات کی مد میں نقصان کی کوریج کا تناسب دسمبر 2015 کے 87.5 فیصد کی نسبت 31 دسمبر، 2016 پر اضافہ کے ساتھ 91.9 فیصد ہے۔ جبکہ انٹیلیجنس کا تناسب دسمبر 2015 کی 6.4 فیصد کی شرح سے کمی کے ساتھ دسمبر 2016 میں 5.9 فیصد رہا ہے۔ بینک کے اثاثہ جات کے معیار کا تناسب پوری صنعت میں بہترین ہے اور ستمبر، 2016 تک صنعت کے اوسط کوریج اور انٹیلیجنس کے تناسب سے جو کہ بالترتیب 82.7 فیصد اور 11.3 فیصد ہیں کہیں بہتر ہے۔ سرمایہ کاری کی مد میں تنسیخ اخراجات کا تعلق 75 ملین روپے رہا جبکہ پچھلے سال اس مد میں 1,812 ملین روپے مختص کئے گئے تھے جس کی بڑی وجہ تیل کے حصص کے نقصان کا اندراج تھا۔

آپ کے بینک کی CAR سٹیٹ بینک آف پاکستان کے مقررہ کردہ معیار سے بہت بلند ہے۔ Basel - III کے معاہدہ کے تحت CAR کی انفرادی اور اجتماعی بنیاد پر 10.65 فیصد کی مطلوبہ شرح کی نسبت یہ بالترتیب 20.84 فیصد اور 20.88 فیصد ہیں۔ بینک کی اس خوب مستحکم حالت کا مظہر اس کا مضبوط Common Equity Tier کا تناسب اور CET-1 کا تناسب ہے جس کی شرح 16.36 فیصد رہی جبکہ مطلوبہ شرح بالترتیب 6.0 فیصد اور 7.5 فیصد تھی۔

ضامن حصہ داری:

زیر نظر عرصہ کے دوران الائیڈ بینک لمیٹڈ کے ضامن حصص کو جن کی شرح 84.35 فیصد ہے، میسرز ابراہیم ہولڈنگز (پرائیویٹ) لمیٹڈ کو منتقل کر دیا گیا تاکہ گروپ کمپنیز رجسٹریشن ریگولیشنز 2008 کے تحت ایک گروپ کی تشکیل کی جاسکے۔ چنانچہ الائیڈ بینک لمیٹڈ اب میسرز ابراہیم ہولڈنگز (پرائیویٹ) لمیٹڈ کی ایک ذیلی کمپنی کی حیثیت اختیار کر گیا ہے۔ 2 فروری، 2017 کو بینک اور اس کی ایک ذیلی کمپنی اے بی ایل ایسٹ مینجمنٹ کمپنی لمیٹڈ گروپ قوانین کے تحت میسرز ابراہیم ہولڈنگز (پرائیویٹ) لمیٹڈ کے بطور ہولڈنگ کمپنی کے تحت رجسٹر ہوئے۔

ڈائریکٹرز جائزہ رپورٹ:

محترم حصص مالکان!

بورڈ آف ڈائریکٹرز کی جانب سے میں آپ کے بینک کے 31 دسمبر 2016 کو اختتام پذیر ہونے والے سال کی سالانہ رپورٹ پیش کرتے ہوئے مسرت محسوس کر رہا ہوں۔ بورڈ کی طرف سے سفارش کردہ کاروباری نتائج اور تخصیص مندرجہ ذیل ہیں:

امرا کا اظہار تاریخ کے کم ترین مارک اپ ریٹ اور اس کے ساتھ نجی شعبہ کی قرضہ جات میں کمی کی وجہ سے مارک اپ ریٹ میں مزید انحطاط سے ہوتا ہے جو دسمبر 2016 میں 5.02 فیصد کی کم ترین سطح تک جا پہنچا ہے۔

کساد بازاری سے متاثرہ اشیاء کی قیمتیں اور اہم برآمدات کی منڈی میں جاری زوال پذیر طلب اور اس کے ساتھ 1,425 بلین روپے کی زیادہ نفع کی حامل حکومتی سیکورٹیز کی میچورٹی کے باعث پیداواری اثاثہ جات کی آمدنی دباؤ کا شکار رہی۔ علاوہ ازیں دوہولڈنگ ٹیکس کے جارحانہ نظام کی بدولت کم لاگت کے سرمایہ کے حصول میں درپیش اثرات جاری رہے جو کہ غیر بینکاری آبادی کی مالیاتی شمولیت میں رکاوٹ کا باعث بھی بننا ہے۔

مالیاتی کارکردگی:

آپ کے بینک نے مندرجہ بالا چیلنجز کے باوجود اپنی کثیر الجہتی حکمت

میں کمزور شرائط، بڑھتا ہوا بجٹ خسارہ، متواتر انحطاط پذیر غیر ملکی براہ راست سرمایہ کاری شامل ہیں، جن کے باعث حکومت کو اپنے معین کردہ 5.5 فیصد کے معاشی ہدف کو حاصل کرنے میں دشواری ہوئی۔ اس کے برعکس بیرونی عملی ماحول معیشت کیلئے سازگار رہا اور تیل کی گرتی ہوئی قیمتوں کے باعث مالی سال 2015-16 میں افراط زر کی شرح 47 سال کی کم ترین سطح 2.9 فیصد پر رہی۔ ادائیگیوں کے توازن میں خسارہ پر قابو کی وجہ سے زرمبادلہ کے ذخائر سال 2016 میں 24.1 بلین امریکی ڈالر کی بلند ترین سطح پر رہے۔ وسیع الہیاد نشوونما کا تسلسل اب بھی مجموعی ڈھانچے میں اصلاحات کا متقاضی ہے بشمول تیزی سے بدلتے ہوئے معاشی اور سماجی حالات میں نجی شعبہ میں مقابلہ کی مسابقت میں اضافہ کرنا۔

جی ڈی پی میں مجموعی طور پر مثبت نمو کے باوجود بینکنگ کے شعبہ کے عملی ماحول میں چیلنجز سال 2016 میں بھی برقرار رہے۔ اس

بورڈ آف ڈائریکٹرز نے 1.75 روپے فی حصص کا حتمی کیشن ڈیویڈنڈ تجویز کیا ہے۔ (مجموعی کیشن ڈیویڈنڈ 7.25 روپے فی حصص بشمول عبوری ڈیویڈنڈ)۔ اس تجویز اور سال 2016 کے دیگر مجوزہ ڈیویڈنڈ کی منظوری آنے والی سالانہ جنرل میٹنگ (عام اجلاس) میں دی جائے گی۔

میکرو اکنامکس ارتقاء:

مالی سال 2015-16 میں بتدریج مصارف کی ترقی سے معاشی ترقی کو تقویت ملی، جی ڈی پی (GDP) کی نمو 4.7 فیصد ریکارڈ کی گئی (مالی سال 2014-15: 4.2 فیصد) جو پچھلے آٹھ سالوں میں بلند ترین ہے۔ تاہم اس زیر نظر عرصہ میں بے شمار چیلنجز محیط رہے جن میں ملک کی نازک سیکورٹی کی صورتحال، توانائی کی کمی کا مجبوراً انضباطی ماحول، برآمدات پر مسلسل دباؤ اور گرتی ہوئی ترسیلات زر، ٹیکس اور نجی شعبہ سے منسلک قرضہ جات کی شرح نمو

تسلیم و تحسین

بورڈ اور بینجمنٹ کی جانب سے میں اپنے قابل قدر صارفین اور حصص مالکان کے الائیڈ بینک لیٹنڈ پر اعتماد کو سراہتا ہوں، سیکورٹی اینڈ ایگزیکٹو کمیشن آف پاکستان، اسٹیٹ بینک آف پاکستان اور دیگر انتظامی اداروں کا، ان کی رہنمائی اور تعاون پر مشکور ہوں۔ میں اپنے سٹاف ممبرز کی انتھک خدمات اور تعاون پر انکا نہایت شکر گزار ہوں جن کی بدولت بینک مسلسل ترقی اور بلند پروازی کی جانب گامزن ہے۔

چیف ایگزیکٹو آفیسر کا جائزہ:

بورڈ آف ڈائریکٹرز چیف ایگزیکٹو کے بینک کی کارکردگی پر جائزہ برائے سال بہ اختتام 31 دسمبر، 2016ء کی توثیق کرتے ہیں۔

اندرونی کنٹرول کا بیانیہ:

بورڈ منجمنٹ کی طرف سے تیار شدہ اندرونی کنٹرول کے بیانیہ بشمول منجمنٹ کے ICFR کے جانچ کی توثیق کرتا ہے۔ منجمنٹ کی اندرونی کنٹرول کا بیان سالانہ رپورٹ میں شامل ہے۔

کارپوریٹ پائیداری:

بورڈ آپ کے بینک کے کارپوریٹ پائیداری کے لئے اٹھائے گئے اقدامات کی توثیق کرتا ہے۔ جو کہ سالانہ رپورٹ میں الگ طور پر مذکور کئے گئے ہیں۔

رسک منجمنٹ ڈھانچہ:

بینک رسک کا نظریہ و نسق ایک مربوط ڈھانچے کے ذریعے کرتا ہے جس کی بنیاد مضبوط رسک کے ضوابط پر ہے جن میں بہترین تنظیمی ڈھانچہ، رسک کا تعین اور نگرانی کے عمل شامل ہیں۔

رسک منجمنٹ کو اختیار حاصل ہے کہ اس ڈھانچے کو ایک آزاد جز کے طور پر لاگو کیا جائے جو کہ کاروباری کرشل حدود سے بہت کر بورڈ کی رسک منجمنٹ کمیٹی (BRMC) کی زیر نگرانی کام کرے۔ RM

نے سال 2016 میں رسک منجمنٹ کے نظام کو موثر بنانے کیلئے کئی اقدام اٹھائے جیسا کہ:

- LOS (RAMS) میں بہتری لائی گئی تاکہ زرعی قرضہ جات سے متعلق پروڈیکٹس کی خود کار منظوری کو قائم کیا جاسکے ان موڈیولز کے اطلاق سے بینک کے قرضہ جات کا تمام نظام خود کار ہو گیا ہے۔

- RAMS میں سہولت کے رسک کی درجہ بندی کے ماڈل کو شامل کرنے کی وجہ سے قرضہ جات کے رسک کا تعین کا عمل مضبوط ہوا ہے۔ یہ ماڈل قرضہ کے اجراء

کا موڈل میں بھی شامل ہے اور اس میں موجود خصوصیات کی بناء پر یہ ہر سہولت کی درجہ بندی اس کے لیے پیش کردہ ذرا کفالت کی نوعیت کی بنیاد پر کرتا ہے۔

- تکنیکی پلانٹ کے دورے کے نتائج کو بینک کے ORR ماڈل سے مربوط کیا گیا۔ جس کے باعث اب کسی بھی تکنیکی تخمینہ مقرر کر کے نینوائی ٹیم کی تمام تکنیکی تفصیلات کو پوری قدر کے ساتھ اور بغیر کسی کاٹ چھانٹ کے Obligor کی تازہ ترین ORR میں شامل کیا جاتا ہے۔

- RAMS میں قرض کے اجراء کے سرٹیفکیٹ کو جاری کرنے کیلئے ایک خود کار نظام وضع کیا گیا۔ اس اقدام کی بدولت RM نے قرض کے اجراء کے نظام میں مزید شفافیت اور اسپنڈیری پیدا کی ہے۔

- بینک کے Obligor کو کاروباری انتظام اور حکمت عملی کے جدید تقاضوں سے ہم آہنگ رکھنے کیلئے مسلسل رابطہ کا رجحان رکھا گیا۔ چنانچہ سال 2016 میں 3 سینما روں کا انعقاد کیا گیا جن میں کارپوریٹ، کمرشل اور ایس ایم ای Obligor کو مندرجہ ذیل موضوعات پر آگاہی دی گئی۔

- کارپوریٹ گورننس کا ارتقاء اور ترقی

- کارپوریٹ گورننس اور شو کوڈر پیش میکر و اکٹا مک چیلنجز

بینک نے قابل ذکر ذرائع اور وسائل خود کو درپیش خدشات کا انتظام کرنے کیلئے وقفہ کئے ہیں اب تک حاصل کردہ متحرک معیار کو مستقبل میں برقرار رکھنے کیلئے افرادی وسائل، ٹیکنالوجی اور ٹریننگ میں نمایاں سرمایہ کاری متوقع ہے۔

CEO's Review

Economic Review

The global economy has now entered its sixth year of stagnation with just 3.1% growth as per IMF; with 2017 outlook depicting a similar trend. Projected stabilization in energy and commodity prices may provide a small tailwind for resource rich economies but medium-term trend continues to be dominated by weaker growth in investment along with ongoing political, policy and economic uncertainties around the world. Growth in emerging economies particularly in Asia continued to outperform advanced economies, primarily backed by China's relatively healthier consumption amidst uptick in industrial activity and services sector. International oil prices after experiencing low of US\$ 23 per barrel at the start of 2016 rebounded during the year between the range of US\$ 50 to US\$ 55 per barrel; supplemented by production cut by OPEC and Non-OPEC members to stem the oil supply glut thereby slightly relieving the pressure on oil exporting countries.

Pakistan's accelerated growth of 4.7%, highest in previous eight years, during FY 2015-16 was accomplished on account of cumulative impact of the government's macroeconomic and structural reform program, lower oil prices, relative improvement in country's overall security profile, inflation at 47 years'

low, strengthened foreign exchange reserves, stable home remittances and shrinking budget deficit. Supporting the stable outlook of the economy, Standard & Poor upgraded the long-term sovereign credit rating to 'B' in view of structural reforms and investor confidence. While Moody's Investor Service also maintained Pakistan's banking system rating at 'B3' level. Accordingly, there is a gradual yet visible improvement in market sentiments as depicted by pick up in mergers and acquisition activity in the country by foreign investors; along with significant growth in the country's capital markets which surpassed all-time high of 50,000 points in January 2017; depicting robust market sentiments while also factoring in PSX's inclusion in MSCI's emerging market index in May 2017.

Current account deficit as a proportion of GDP at 1.2% of GDP during FY 2015-16; further escalated to 2.5% of GDP during first seven months of FY 2016-17. Amidst falling exports, higher balance of trade deficit by US\$1,066 million during FY 2015-16 and reduction in receipts pertaining to Coalition Support Fund (CSF) remained key contributors. In view of downwards pressure on remittances from Middle East, remittances are expected to remain subdued in FY 2016-17; decreasing by 2.4% in first half of FY 2016-17 to reach US\$ 9,459 million against US\$19.9 billion in FY 2015-16. However, Foreign Direct Investment (FDI) inflows remained resilient and stood at US\$ 1.9 billion in FY 2015-16 as compared to US\$ 900 million in FY

2014-15 supplemented by China Pakistan Economic Corridor (CPEC) related projects, contributing approximately 32.9% of overall FDI. Accordingly, overall foreign exchange reserves reached US\$23.2 billion at end-December 2016.

During FY 2015-16 total debt stood at 72.5 % of GDP and increased by 3.7% from FY 2014-15. Domestic debt which constituted 63.5% of overall debt increased by 11.8% whereas, external debt (33.9% of total debt) and Public Sector Entities domestic debt (2.6% of total debt) increased by 16% and 24% respectively.

Tax-to-GDP ratio rose to 12.4% in FY 2015-16 from 11% in corresponding period of last year. Tax collections were recorded at Rs.3,112 billion against the target of Rs.3,104 billion. Despite achieving the tax collection target the number of filers of Income Tax returns declined during the period. Overall fiscal deficit stood at 4.3% of GDP during FY 2015-16 as against 5.2% in FY 2014-15 on account of aforementioned increase in revenues and reduction in expenditures/subsidy.

Large Scale Manufacturing (LSM) remained subdued with overall growth of just 3.2% during FY 2015-16 against the set target of 6%. Targeted at 5.9% for FY 2016-17, the outlook remains challenging in the backdrop of low half year growth of 3.90% in FY 2016-17, despite encouraging outlook for automobile sector under the revised automobile policy, sugar, pharmaceuticals and construction-related sectors respectively.

Headline CPI inflation was recorded at 3.7% on year-on-year basis in December 2016; remaining significantly lower than the SBP's FY2016-17 target of 6%. External factors emanating especially from low oil prices contributed significantly towards these low inflation levels. Accordingly, State Bank of Pakistan maintained its accommodative monetary policy stance, with further reduction in policy rate by 25 bps to 5.75% during 2016. However, YoY comparative analysis with 2015 shows that the average discount rate has reduced by 117 bps. Consequently, average 6-months Karachi Interbank Borrowing Rate (KIBOR) also reduced by 116 bps during the year under review. Due to continued existence of fundamental impediments, broad based growth in private sector credit was not accomplished as envisioned. Non-Performing Loans (NPLs) in banking sector increased to Rs.646 billion at end-September 2016 in comparison to Rs.620 billion at end-December 2015 with agricultural and SME sectors being the main contributors to NPLs growth.

CEO's Review (Contd.)

The banking sector investments were recorded at Rs.7,233 billion at end-December 2016 as compared to Rs. 6,725 billion at end-December 2015. During the year, maturity of high yielding government bonds of approximately Rs. 1,400 billion resulted in re-profiling of investments from long term PIB's to short term Treasury Bills at the industry level.

The peril of undocumented economy augmented during the year with substantial growth in Currency in Circulation, which increased by 18% to reach Rs.3,412 billion at end-December 2016. Increase in currency in circulation, monetary easing leading to fall in minimum saving rate, continuation of withholding tax regime on banking transactions led to preference of depositors towards unofficial banking channels, which had detrimental effect on financial inclusion while supplementing cash based economy; resulting in constrained growth in average core deposit mobilization. While Government and PSE deposits grew by 26.0% and 29.5% respectively, private sector and individual deposits depicted a growth of just 13.9% and 11.2% respectively. The overall industry deposits spiked towards the end of the year, with Rs.539 billion increase during the last week of December 2016, reflecting 15.8% growth to reach Rs.11,203 billion. The withholding tax regime continues to pose

critical challenge to the execution of the National Financial Inclusion Strategy adopted by the government in 2015; aimed at provision of formal financial access to more than half the population by 2020.

In continuance of last year's policy, the Government re-imposed a Super Tax of 4% on previous year's income aimed at enhancing tax revenues for support of ongoing efforts towards improving law and order situation. Besides, rising cost to income ratio has also affected banks' overall profitability. The cost to income ratio increased to 52.2% at end September 2016 as compared to 46.9% last year; major reason being the banking sector's expansion in outreach, investment in IT infrastructure and growth in human resources employed.

Business Performance

Pakistan's banking sector is passing through a phase that is both challenging and exciting. While challenges emanate from low interest rate scenario, maturity of high yielding government securities, rising cost of doing business, lack of broad based growth in private sector credit appetite, rising undocumented economy with high unbanked population and changing regulatory framework. Concurrently, there are robust growth opportunities in the retail segment across

the country including rural areas and in the continuing opportunities for digital transformation led by technology and telephony services.

Your Bank remaining fully cognizant of the immense opportunities, circumvented the aforementioned challenges through adoption of a strategy, focused towards Balance Sheet growth without compromising on asset quality duly supplemented by further enriched risk management platform, sustainable core deposit growth in low/no costs segment, diversification of revenue stream and continuous incremental investment in cutting-edge technology driven innovative products and services catering to evolving customer needs and broad based expansion in conventional and alternate delivery channels.

The Bank crossed the significant milestones of Rs.1,000 billion and Rs.100 billion in terms of Balance Sheet size and Total Equity respectively; driven by successful implementation of envisioned long term multi-faceted strategies. The growth in Balance Sheet was accompanied with ample liquidity and robust capital levels while keeping the current and future growth prospects in consideration.

Your Bank's risk culture promotes informed decision-making by integrating enhanced understanding of risk appetite across the Bank and effective technology driven communication including prompt escalation of important risk issues. The overall focus during 2016 was on maintaining Bank's risk profile, strengthening capital base and supporting strategic initiatives geared towards balance sheet optimization. Accordingly, Risk Management and Assessment System (RAMS) was further reinforced during the year through upgradation of in-house developed Loan Origination System (LOS) by automating workflows in agriculture sector; accordingly, the entire credit portfolio of the Bank is now automated through LOS. While mitigating risks, associated with pledge financing, the Bank maintained

focus on optimal utilization of four (4) self-managed warehouses. While construction / renovation of two new warehouses in Mandi Faizabad, and Multan was also initiated during 2016. The tangible performance of proactive risk management is visible in constantly improving NPLs ratio, coverage ratio and net reversal against previously held provisions.

Your Bank remained active participant in Fixed Income securities trading business and achieved significant progress in this segment. While realizing sizeable capital gains through trading, Your Bank was recognized for market coverage and ranked amongst Top 3 Primary Dealers by State Bank of Pakistan.

During 2016, in order to optimally manage the ever-expanding geographical footprint of Your Bank, Commercial and Retail groups were bifurcated on the basis of geographical segmentation to have a holistic and focused approach towards customer service across the country; results of this change have been very encouraging towards broad based growth in all business lines of the segment.

Expansion in footprint to assist financial inclusion of unbanked population remained key area of focus of Your Bank. During 2016, the Bank expanded its vast branch network by 100 new branches including 50 conventional and 50 Islamic Banking branches. With the addition of these branches in urban and rural areas, the overall network of Your Bank reached 1,150; including 1,072 Conventional and 77 Islamic branches across Pakistan and a Wholesale Banking Unit in Bahrain. Concurrent focus was also made in enhancing Alternate Delivery Channels with the addition of 139 new ATMs to reach 1,150 ATMs in total; enabling Your Bank to achieve milestone of 1:1 with respect to branches and ATMs stipulated by SBP. These include 942 on-site and 208 off-site ATMs deployed across Pakistan. In an effort to further augment this outreach through off-site ATMs, Your Bank entered into agreements

with Pakistan State Oil Company Limited and Shell Pakistan Limited to facilitate deployment of ABL ATMs at 50 and 64 strategically located service stations nationwide respectively. The agreements promise to be a mutually beneficial partnership translating into enhanced convenience for the Bank's customers as well as public at large. Your Bank has now established 313 Branches and deployed 459 ATMs in last 5 years, reflecting a cumulative growth of 37% and 91% respectively; reflecting the significance of Your Bank's continued investment towards broadening of service channels for our valued customers.

The strength of vast ATM network was also reflected in 9% growth in ATM transactions count and 13% growth in amount handled through the Bank's ATMs accompanied by significant increase in Visa Debit Card related fees during the

year. In addition to the growth in business handled, Your Bank maintained focus on ensuring industry-leading ATM up-time and remained 2nd highest transaction acquirer in the industry during the year under review.

Pakistan's financial sector landscape is gradually transforming into digital age. State Bank of Pakistan has issued various regulations to promote payment avenues. In this regard, 1link being the country leading shared ATM network, has acquired Payment Service Provider (PSP) and Payment Systems Operator (PSO) license to launch Pakistan's First Domestic Payment Scheme called 'PayPak'. The advent of PayPak brings along not only cost-effective domestic settlement services but will also save country's FX outflows; thereby providing tough competition in the domestic market to international payment schemes.

CEO's Review (Contd.)

Gearing up to follow a long-term strategy to provide digital banking platform to domestic banks, various other initiatives are under development process to further augment outreach and transaction types across the country; through an integrated ADCs of various member banks.

While Your Bank is accordingly investing in state of the art innovative technologies, visualizing the promising momentum towards the adoption of digital channels by urban community and corporates; thereby aligning all our distribution channels including branches, ATMs, telephone, internet and mobile banking channels, duly integrated with our products and services to deliver a seamless and convenient banking experience. During the year, Your Bank established a dedicated group under the name of Digital Banking Group (DBG), to continuously design, develop and offer new innovative products.

Although banks are extending their branch network to reach out to new geographies and customers; the financial inclusion especially penetration in rural areas remain low in the country. The emergence of branchless banking and mobile wallets will help accelerate financial inclusion by making the access more cost effective and expanding the reach of banking to the unbanked. Considering the importance, the Bank entered into an agreement with Mobilink – country's largest Mobile Network Operator for gradually enabling JazzCash domestic remittance services and Your Bank also entered into a strategic partnership by signing a memorandum of understanding with MasterCard, a leading technology company in the global payments industry. Under this partnership, both Allied Bank and MasterCard will collaborate and launch MasterCard Premium Cards, Digital Payment and Remittance products. During 2016, Allied Bank achieved key milestone of being fully compliant on EMV (Europay, MasterCard & VISA) standards for issuance of chip enabled Debit Cards and accepting chip based transaction on ATMs; becoming one of the first bank

in the industry to have EMV capability on both Debit Cards issuance and ATM acquiring side of business. During the year, Your Bank also pioneered launch of debit cards under PayPak – domestic Payment Scheme owned and operated by 1LINK Guarantee Ltd; enabling customers to carry out ATM transactions along with execution of retail/purchase transactions across Pakistan.

Acquiring and utilizing latest technology platforms remained at the core of Your Bank's strategy. During 2016, the Bank initiated upgrade of Temenos T-24 Core Banking system to latest R-16 version; which shall enable real time monitoring and enhanced MIS for timely decision making. During the year, Your Bank in order to enhance the security features embedded within account opening and related procedures, acquired verification capabilities through biometric authentication system of NADRA.

Various business process re-engineering initiatives were carried out during 2016 including centralization of guarantees business and issuance of term deposits.

Keeping in view the importance and the bank wide scope of 'Service Quality', the Bank established a separate group under the name of "Service Excellence Group" (SEG). The group's capacity in terms of human resources and automation is given top priority to gather feedback, evaluate customer experiences to ensure smooth and improved services by taking timely remedial measures. During the year, an enhanced Customer Relationship Management platform and state of the art telephony system were deployed at Allied Phone Banking, facilitating and enhancing "customer first" culture; Allied Phone Banking handled 1.2 million enquiries relating to debit cards, general and product information etc.

Since launching Islamic Banking (IB) operations in 2014 the Bank has expanded its IB network to 77 branches across the country. Focus remained on developing sound systems to complement the wide range of products and services on offer to facilitate gradual growth in this niche segment.

In line with strategic objectives of the Bank, focused induction of efficient workforce to support ever expanding branch network, development of existing and new capabilities through conducive learning platform and provision of rewarding career growth for consistent performers through enabling work environment remained a key strategic objective. Improvements in existing HR processes by utilizing technology driven scientific methodologies for employee development were also undertaken during the year. Aimed at identifying suitable resources for leadership roles, scientific tools like personality traits assessments and aptitude test were introduced including use of Psychometric analysis center. During the year recruitment of more than 1,300 employees including specialized Management Trainee batches and lateral hiring in specialized functions were undertaken. Continuing with its aim for gender equality Your Bank maintained female employment ratio at 15% during 2016. In consideration to have enhanced focus on the development of Your Bank's human capital, General Services function with in Human Resource Group was segregated to form a dedicated "General Services and Security Group". This strategic remodeling will enable both functions to have a dedicated focus towards respective milestones going forward.

Your Bank continued to maintain paramount focus on sound compliance culture within the Bank. As part of this objective, implementation of Compliance Risk Management Solution (Risk Nucleus) was undertaken to automate and further enhance monitoring levels within the compliance function.

Recognizing the need for utilizing energy resources in an efficient manner, Your Bank increased number of branches operating on fully solar powered systems to 50 branches thereby contributing to cleaner environment while realizing financial savings. Furthermore, inverter based energy solutions were also implemented at 449 branches.

The endeavor for international expansion received a significant stride during the year when State Bank of Pakistan and China Banking Regulatory Commission granted Your Bank license to establish Representative Office in China. Going forward, this initiative shall further strengthen Bank's position to avail the CPEC related business opportunities. Similarly, international presence in Bahrain (Wholesale Banking Branch) and Dubai (Representative Office) continued to expand operations in the Gulf region; with higher emphasis on establishing new relationships with correspondent banks and remittance companies to augment funding lines and remittance business respectively. The strength of Investment Banking business continues to be a source of competitive advantage for the Bank duly acknowledged locally and internationally through various awards including: "Best Corporate & Institutional Bank – Domestic, 2016" and "Best Loan House – Pakistan, 2016" from The Asset Magazine, Hong Kong. Additionally, ABL also received the Runner-Up award for "Corporate Finance House of the Year 2015 – Fixed Income" from CFA Society of Pakistan.

Continuing with Bank's unique initiative of engaging with the obligors to inculcate latest insight and strategies in managing businesses; 3 interactive seminars were organized for Corporate, Commercial, SME and Islamic obligors on the topics "Evolution of Corporate Governance and Growth", "Corporate Governance and Macroeconomic Challenges for Growth" and "Concept of Islamic Banking" during 2016 in Multan, Faisalabad and Gujranwala respectively. Detailed update on key business segments and support functions with outlook for 2017 is appended to this review.

Financial Analysis

Balance Sheet Growth Mix

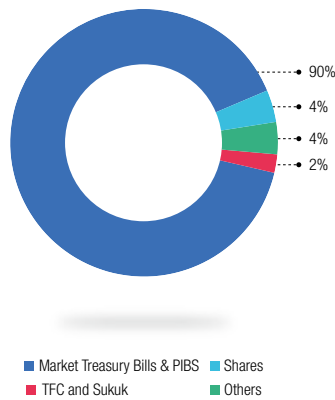

2016 was marked by a weak global economic environment, volatile commodity prices, gradual domestic economic recovery along with challenges emanating from changing policy and regulatory framework. Nevertheless, Your Bank continued to maintain and enhance the strength of the Balance Sheet through utilization of robust risk management framework, optimal capital levels and enhanced suite of technology driven products and services geared towards customer centric banking solutions. The evolving needs of Your Bank's diverse customer base remains at the forefront of our strategy formulation. Amidst this challenging business environment vigilant focus through a multi-faceted strategy is enabling Your Bank to deliver sustainable and broad based long term growth.

CEO's Review (Contd.)

Average Deposit Composition

Investments (Cost)

Segmental Advances – Performing (Net)

Your Bank's total assets base increased by 8% to surpass the milestone of Rs.1,000 billion to reach Rs.1,070 billion as at December 31, 2016. The Total Equity base of Your Bank also witnessed sound growth of 13% to surpass the milestone of Rs.100 billion to close at Rs.101 billion as at December 31, 2016; clearly reflecting strong financial strength and growth prospects. The Capital Adequacy Ratio (CAR) of the Bank stood at 20.8% as at December 31, 2016, remaining well above the regulatory requirement and industry average of 10.65% and 16.8% (Sep'16) respectively.

The deposits base of Your Bank was increased by 10% to reach Rs.805,111 million; with continued focus towards improving low cost/core deposits mix of the Bank. Overall growth in domestic deposits remained stifled for private sector banks due to intense competition, public sector deposit growth and rising undocumented economy amidst continuation of the withholding tax regime. In a perpetually low interest rates scenario, accumulation of low cost deposits remained of paramount importance at the industry level. Accordingly, Your Bank, achieved CASA growth of 17% and improved the overall CASA share to 78% from 73% as at December 31, 2015.

In the wake of limited quality lending opportunities, surplus liquidity was

diverted towards Investments which increased by 8% to close at Rs.589,865 million. The industry level maturity of high yielding government bonds coupled with low interest rates and possible increase in inflation outlook has resulted in change of incremental investment mix tilted towards shorter tenor Treasury Bills.

In line with Your Bank's strategy of maintaining high asset quality, Your Bank's gross advances grew by Rs.8,245 million to reach Rs.349,015 million; whereas average advances grew by 6.3%. Major growth was witnessed in long-term loans, commodity operations and working capital loans. Proactive monitoring and utilization of robust Risk Management Framework resulted in overall Non-Performing Loans (NPLs) reduction by 7% to close at Rs.20,432 million as at December 31, 2016. The Bank's infection and coverage ratio as at December 31, 2016 improved to 5.9% and 92% respectively; significantly outperforming the September 2016 industry average of 11.3% and 82.7% respectively. No FSV benefit has been taken while determining the provision against Non-Performing Advances as allowed under BSD Circular No.1 dated October 21, 2011. The Bank's ADR as at December 31, 2016 stood at 43%; partially due to significant deposit growth towards the end of 2016. With strong capital adequacy and risk management parameters in place the Bank remains

poised to capitalize on any uptick in credit appetite.

Profitability

The historically low interest rates with cumulative drop of 117 bps in average benchmark Discount rates as compared to 2015 coupled with the maturity of high yielding government bonds and shrinking advances yields continued to squeeze banking sector spreads and exerted pressure on Net Interest Margins (NIM). Nonetheless, 8% growth in average earning assets, improved CASA as a percentage of total deposits and overall curtailment in cost of funding assisted in partially off-setting the drop in NIM, which aggregated to Rs. 33,261 million for the year ended December 31, 2016.

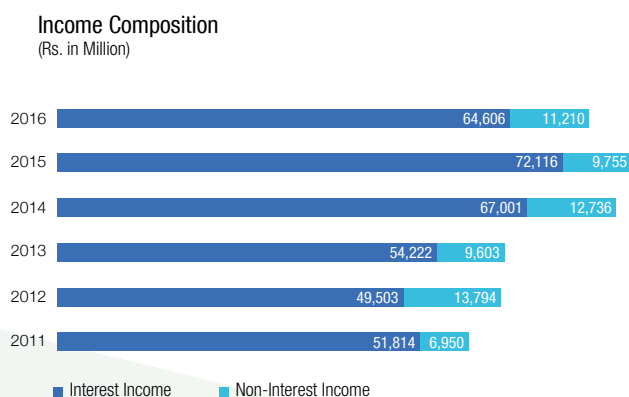

Continuous focus to augment fee based income yielded encouraging results and income pertaining to alternative delivery channels along with trade related fee income showed positive trends. Your Bank's Fee based income increased by 12% to reach Rs.4,014 million as against Rs. 3,570 million in 2015. Augmenting its status as Primary Dealer, Your Bank, realized capital gains of Rs.2,535 million from trading in government bonds, primarily to offset settlement risk in the wake of industry wide maturity of Rs. 1,400 billion during the year; which has also impacted NIM as noted above. Your Bank continued with its strategy of deriving stable dividend income from

high yielding blue chip listed shares portfolio despite having un-realized gains of Rs. 21,713 million as at December 31, 2016. Dividend income for the year under review increased to Rs. 3,776 million as against Rs. 3,528 million in 2015, reflecting a growth of 7%. The aforementioned growth compensated for lower income from dealing in foreign currency which reduced due to relatively stable swap curve during the year and lower Other Income on account of absence of one-off compensation for delayed tax refund, valuing Rs 820 million, booked during 2015. Accordingly, overall non-interest income increased by 15% to reach Rs.11,210 million as compared to Rs. 9,755 million in 2015.

The decade ahead will foresee a gradual yet radical transformation from traditional banking practices to highly tech-driven digital banking services, thus necessitating the need for continuous investment to thrive in the ever-changing landscape. During 2016, Your Bank, maintained its hybrid model; strategically investing towards expansion in outreach through conventional and ADC platforms, IT infrastructure and human capital development. Accordingly, the overall administrative expenditure increased by 11.7% during 2016 to reach Rs.20,309 million.

Robust risk management platform together with strong recovery efforts continue to yield positive results; the net reversal in provisioning against advances increased to Rs. 335.4 million from Rs. 288.1 million in 2015. Impairment against investment was recorded at just Rs. 74.9 million against significant impairment charge of Rs. 1,812 million booked in 2015; pertaining to oil stocks due to decline in oil prices during 2015. As at December 31, 2016 the oil stocks against which impairment was booked have rebounded and depict an overall revaluation surplus of Rs.986 million against the original costs supporting the Bank's decision to hold the shares.

Despite the manifold challenges emanating from low interest rates

scenario, tough operating environment, changing regulatory environment and rising cost of doing business, Profit Before Tax of Your Bank aggregated to Rs.23,831 million. The one-off super tax of 4% on previous year's income promulgated in 2015 was maintained during 2016. As a result, additional tax charge of Rs.950 million was made during the year under review. Nevertheless, Your Bank's earned Profit After Tax aggregating to Rs.14,427

million. Your Bank's EPS as at December 31, 2016 stood at Rs.12.60 per share while Return on Assets and Return on Equity stood at 1.4% and 20.3% respectively; well above the September 2016 industry average of 1.3% and 14.2% respectively. Excluding the impact of super tax, Profit After Tax amounts to Rs. 15,377 million and EPS increases to Rs. 13.42 per share for the year ended December 31, 2016.

CEO's Review (Contd.)

During the year under review Supreme Court of Pakistan vide its order dated November 10, 2016 held that amendments made in the law introduced by the Federal Government for the levy of Workers Welfare Fund (WWF) were not lawful. Subsequently Federal Board of Revenue has filed review petitions against this order which are currently pending. Based on the legal advice obtained on the matter; the judgment may not currently be treated as conclusive. Therefore, Your Bank maintained its provision in respect of WWF with the concurrence of the external auditors and shall revisit the position on periodic basis.

Analysis delineating actual performance against Key Performance Indicators (KPIs) is also appended in the Annual Report.

Ratings

Entity Rating

The Pakistan Credit Rating Agency (PACRA) has maintained long term and short term entity ratings of Allied Bank Limited at "AA+" (Double A Plus) and highest possible "A1+" (A One Plus), respectively. The ratings denote a very low expectation of credit risk emanating from a very strong capacity for timely payment of financial commitments, which strongly reflect efficacy of ABL's robust strategy aimed at ensuring consistent profitability without compromising quality of other key variables. Moody's Investors Service maintained Your Banks' deposit rating at B3 / Not Prime level while changing the outlook from "Negative" to "Stable"; the ratings are at par with Tier-I banks in Pakistan.

Corporate Governance Rating

During 2016, JCR-VIS Credit Rating Company Limited (JCR-VIS) upgraded the corporate governance rating of Allied Bank Limited (ABL) from "CGR-9" to "CGR-9+". This rating is based on a scale ranging from CGR-1 (lowest) to CGR-10 (highest). The ratings assigned to ABL reflects very high level

of corporate governance practices instituted in the bank underpinned by sound internal control environment, financial transparency and regulatory compliance.

Future Outlook

Global growth patterns are expected to remain uncertain, with an overall subdued growth forecasted at 3.4% for 2017 by IMF; primarily driven by emerging and developing economies despite the downward risks associated with possible shift toward inward-looking policy platforms and protectionism.

Pakistan's economic outlook is projected to maintain the upwards trajectory with expected growth rate rising above 5% in FY 2016-17 despite being engulfed with major challenges on the domestic and international front. Subject to timely implementation, CPEC has the capacity to reinvigorate broad based economic progression through planned expansion and restoration in infrastructure development, setting up of new economic zones and industrial parks, reduction in persistent energy shortages along with creation of new employment opportunities for the burgeoning population across the country. However, long term sustainable economic growth cannot remain dependent upon CPEC only. Strategic long term planning and its proper implementation is the need of the hour for provision of economically viable energy generation, structural reforms with a defined privatization program for loss making public sector entities, widening of tax base for desired expansion in public revenues along with reduction in fiscal deficit and rising undocumented economy, surmounting the debt trap and further improvement in security situation are essential pre-requisites for accomplishing robust and sustainable macroeconomic growth. Reinvigoration of the business environment cannot be accomplished unless the National Financial Inclusion Strategy adopted by the government in 2015 is implemented in spirit. With 87%

population being unbanked, obstacle of undocumented economy remains the key challenge hampering the inclusive growth and wellbeing across the country; duly reflected in the country's low investment to GDP and private sector credit to GDP ratios.

Current account deficit in conjunction with trade deficit, remittances and FDI shall remain key challenges in FY 2016-17 and remain critical in maintaining stable balance of payment position. Pressure on foreign exchange reserves may be witnessed with the conclusion of IMF's EFF program and falling exports. Projected increases in economic activity and possible upward adjustment in global oil prices are expected to push up domestic prices. Upward trend in CPI inflation may prompt gradual monetary tightening from the current bottomed out levels.

Banking sector is expected to face medium term prospects of profitability adjustments amidst volumetric growth; broadly driven by lack of broad based expansion in quality private sector credit appetite, thin spreads along with bottom line pressure instigated by rising cost of doing business and high taxation levels.

In order to navigate the multifarious challenges overwhelming the domestic

economic and banking environment along with changing global market dynamics, Your Bank has adopted a multi-pronged strategy encompassing utilization of superior technology platform, robust risk management framework, extended outreach through expanding footprint in both conventional and alternate delivery channels, diversification in revenue streams while further enhancing the superior asset quality of the Bank. Going forward, Your Bank's gradual penetration in Digital Banking will also create enhanced opportunities for provision of technology driven products and services to provide seamless banking experience to our existing and previously untapped customers. The investment in new state of the art technologies shall further facilitate enhanced customer service experience through reduced turnaround times as well as expansion in Bank's customer centric products' suite with emphasis on deriving fee based income from various initiatives including expansion in Off-site ATMs, Cash Deposit Machines, Mobile ATMs, Interactive Teller Machines, online payment hub and trade portal solutions, Mobile Wallets, gradual strengthening of Bank's selective consumer banking product suite and penetration in BANCA insurance business. Remaining fully cognizant of changing security threats,

adoption of stringent information security standards shall also remain imperative part of Your Bank's strategy; while enhanced use of biometric verification technology shall further facilitate in accomplishing higher levels of customer protection and improving TATs.

Going forward, Your Bank also intends to further strengthen Islamic Banking (IB) operations, with enhanced focus in delivering Sharia Compliant products and services while expanding IB's outreach. International expansion through development of Representative Office in China shall be the key target for 2017 while maintaining focus on enhancing the growing business presence in Bahrain and UAE.

As the Bank embarks on a milestone of achieving 75th anniversary the focus shall remain on continuously investing in the induction and development of Human Resources with impetus towards Bank's progress in the fast-approaching digital age. Cognizant of the diverse economic challenges and competitive business environment, Your Bank aspires towards attaining sustainable growth levels by further enrichment of Bank's core competencies.

As we look ahead to 2017, Pakistan's economy is poised to build on the growth momentum of 2016. Keeping CPEC in perspective, Your Bank, is well-positioned to surmount the challenges and capitalize on the opportunities that will arise out of Pakistan's overall growth and transformation.

Acknowledgment

I would like to recognize the hard work of our Board of Directors; their knowledge, business acumen and leadership is integral to the Bank's success. I would also like to take this opportunity to acknowledge Mr. Tariq Mahmood, who retired as CEO in December 2016 and express profound thanks from ABL family for his valuable contributions towards the Bank's growth.

On behalf of Allied Bank Limited I would like to extend my sincere appreciation to State Bank of Pakistan, Securities & Exchange Commission of Pakistan and other regulatory authorities for their continued support and guidance for achieving excellence.

Lastly, I am thankful to more than 11,000 team members who are focused on creating and sustaining long term relationships with our valued customers while always putting customers' interests first. I look forward to their continued support to enable the Bank to seize the future opportunities and scale new heights.

Group's Review

Digital Banking

In a business environment beset with disruptions and evolving customer needs, Banks' traditional markets are being depleted; more so in advanced economies. Accordingly, enhanced focus is being given to adopt innovative technologies to flourish in Digital Banking Age; the pace varying according to ground realities in each market.

Digital Banking inculcates a highly personalized and seamless customer experience; duly facilitating 'banking on the go' for both the banked and unbanked segments. Mobile telephony is therefore delineating most aspects of modern banking products and services. Money transfers, bill payments, mobile top-ups and broad range of transactions are being replicated by technologically enabled processes and mobile apps; significantly overcoming the limitations of time, access and locations.

Keeping in perspective the evolution of digital banking, Your Bank being fully cognizant, is gradually embracing the related modernization and digitalization of banking. While digital banking strategy is fully integrated in the overall long term strategy of Your Bank; a dedicated new "Digital Banking Group" (DBG) was formalized during 2016, providing enhanced vigor to the targeted objectives.

DBG commenced various initiatives during the year under review to gradually penetrate in the growing digital landscape of the country. Significant milestones included launch of PayPak Debit Cards, which eliminates dependency on the international payment companies for domestic transactions while duly promoting Financial Inclusion. PayPak cards are being offered to both regular and Asaan Account holders.

Further during the year under review, a memorandum of understanding was signed with country's leading telecom operator, to initiate domestic remittances through ABL and their agents network; strengthening ABL's presence in this niche branchless banking segment upon full-fledged launch. DBG also entered into a strategic partnership with MasterCard, a leading technology company in the global payments industry. Under this partnership, Your Bank would be offering MasterCard Premium Cards, Digital Payment and Remittance products. Under the ambit of DBG, Your Bank also introduced a 'Payment Hub' solution for processing of bulk payments; the response from the corporate and commercial customers including public sector entities/initiatives and educational institutions is very encouraging in the pilot phase.

Allied Bank also accomplished a key milestone of being fully compliant on EMV (Europay, MasterCard & VISA) standards for issuance of chip enabled Debit Cards

and accepting chip based transaction on its ATMs. With this advancement, Allied Bank has become one of the pioneer banks in the industry to have EMV capability on both ends i.e. Debit Cards Issuing and ATM Acquiring. As at end-December 2016 700 ATMs have been made fully compliant on EMV standards.

With a vast network of 1,150 ATMs including 942 on-site and 208 off-site ATMs, Your Bank remained 2nd highest acquirer of transactions in industry and with superior connectivity achieved highest ATM up time of 97.10% during 2016. Agreements with leading oil marketing companies including PSO and Shell for placing off-site ATMs at their strategically located service stations is expected to further augment the coverage of ATM based services.

Your Bank also revamped its Corporate Website (www.abl.com) to make it device-responsive with integrations of Branch/ATM locators, social media, currency conversion calculator and a

broad range of value-added features like responsive-voice, weather/date, bilingual layout, and easy navigation. On Facebook, ABL retained its place among the top 5 financial institutions with over 500,000/- "Likes", while on Twitter, Allied Bank continues to be most followed account in the country's financial sector.

Going Forward, Digital Banking Group shall remain the focal point of developing, implementing and ensuring utilization of latest technology enabled products and services; leading Bank's transformation towards the digital age.

Commercial and Retail Banking

The vast geographical outreach of the Bank necessitated a re-alignment of operating structures; as a result, Commercial and Retail Banking Group was bifurcated along geographical lines with the formation of CRBG-North and CRBG-South. The geographical functions shall independently undertake all facets of assets and liability businesses while serving local customer needs with higher focus and improved TATs.

Commercial and Retail Banking Group (CRBG) is mandated with focusing on expanding Bank's deposit base along with reaching out to SME and Agro based Obligor in line with the Bank's risk appetite. While overall macroeconomic indicators have shown signs of improvements the private sector hitherto facing various constraints including energy shortage in achieving sustainable growth momentum. CRBG, under the circumstances, efficiently channeled opportunities demonstrating viable growth prospects. Despite volatile commodity prices, the segment maintained its focus on gradually building capacities for steady and cautious expansion in the target market.

Considering the consistently growing pressure on NIMs during the year, CRBG's focus towards enhancing CASA growth was maintained to reduce the overall funding costs. Concerted efforts towards further improving service level and

continuously enhancing staff's product knowledge base remained the key areas to ensure deepening of existing relationships and bringing new to the bank customers, including small ticket Asaan Account holders. Capitalizing upon the network of 1,066 strategically located branches spread across the country and reliable alternate delivery channels, the Bank crossed Rs.800 billion deposit mark at end-December 2016 serving more than 3 million account holders.

The immensely successful launch of Allied Asaan Account in 2015 was further enriched during 2016; focusing on bringing low-income segment into the fold of mainstream banking. CRBG also launched Khanum Asaan Account during 2016 catering to the niche female clientele, which historically have remained the least banked segment. This product has received encouraging response from its target segment and immense enthusiasm has been witnessed during promotional events.

Despite multiple challenges emanating from operating environment, CRBG maintained strong focus on improving low/no cost deposits along with improving overall deposit mix. The sustained focus translated in to material success as witnessed in the improvement of CASA as a percentage of total deposits to 78% at end-December 2016 by achieving 14% growth in current deposits; resulting in reduction in cost of deposits as well.

Supporting the Corporate Social Responsibility Program (CSR) of the Bank, CRBG in collaboration with other business groups conducted Road Shows and awareness sessions at Hyderabad, Sialkot and Multan while also participating in awareness sessions and SME Mela organized by SBP in different cities of the country.

Your Bank continues to offer innovative digital banking products. CRBG augmented the process by enhanced provision of e-Banking initiatives to our valued customers including online banking, e-statement of accounts and Pay Anyone services; which is Bank's branchless payment solution.

Going forward, CRBG together with DBG, intends to play key role in successful roll-out of mobile wallet service as agreed with Mobilink. While remaining cognizant towards expansion of core deposits including low cost deposit base of the Bank, cautious penetration in the consumer banking by offering certain products to selective customers and BANCA products shall also remain a key focus area in 2017.

Treasury

Financial markets remained steady throughout 2016 after witnessing significant volatility in 2015. Commodity prices, particularly oil and industrial metals, rebounded in the second half of the year. This, along with slight

Group's Review (Contd.)

improvement in domestic growth prospects, strengthened the sentiments regarding stability in domestic interest rates. Consequently, Treasury pursued a cautious approach in managing the duration of bond portfolio and realized healthy capital gains from fixed income trading while efficiently re-profiling the investment mix to remain well diversified across the maturity ladder.

A major initiative by Treasury in 2015 was to attain the Primary Dealer (PD) status from SBP and reinvigorate the fixed income trading; resultant trading activity yielded capital gains amounting to Rs. 2,661 million during 2016 as against Rs. 830.1 million last year. During the year, Treasury's active participation and trading volumes was recognized by State Bank of Pakistan (SBP) and the Bank was ranked amongst the Top Three PDs; a significant accomplishment considering the relatively new PD status.

Treasury also remained active player in both FX Spot and Swaps. However, the currency market remained stable throughout the year and lack of volatility in the FX market impacted growth in FX income. However, Treasury's effective strategy enabled in provision of competitive FX pricing to our valued customers, resulting in stable FX business flows. Treasury's competitive FX pricing also assisted in enhanced penetration of Bank's Home remittances business and expanding non-oil trade business.

Focus on attracting best talent pool continues to yield positive results. Treasury intends to further strengthen the human resource pool in order to ensure service quality standards surpassing the industry levels.

Going forward, focus will be on harnessing technology for enhancing Treasury's capabilities and service offering. Furthermore, Treasury shall continue to closely monitor the changing economic landscape and assist ALCO in managing the assets and liability mismatch and interest rate risks, while capitalizing on opportunities to provide

sustainable contribution towards Bank's bottom line.

Corporate and Investment Banking

During 2016, Corporate and Investment Banking Group (CIBG) maintained its position as one of the leading wholesale banking provider in Pakistan; with in-depth understanding of business relationships and provision of structured financial solutions while ensuring optimum level of service excellence. CIBG offers comprehensive suite of products and services covering all facets of funding, trade facilities, cash management, remittance business and customized investment banking solutions. CIBG also maintains a well-diversified capital markets portfolio with exposure in premier blue-chip stocks; with a strategy to earn healthy dividend stream for Your Bank. CIBG also persisted with ongoing cross sell activities with other groups to facilitate deepening of strong relationships with all major corporate clientele within the country.

During the year, banking sector encountered major challenges including persistently low interest rates and surplus liquidity resulting in aggressive competition amongst banks. Despite challenging macroeconomic conditions, CIBG maintained its robust performance trajectory while adhering to Bank's strategy; deepening of relationships with top tier conglomerates and business groups with strong focus on exploiting non-funded and ancillary business opportunities.

Corporate Banking (CB) working rationale remains towards developing long term relationship with the primary objective of meeting all business requirements of corporate and institutional customers while offering tailored and cost effective credit solutions with personalized services to corporate obligors while exiting from or reducing exposure to weak obligors; giving significant weightage to early warning signals.

Investment Banking (IB) offers a wide range of investment banking products and solutions; enabling culmination of enhanced growth and strategic objectives for our valued clientele. Debt Syndication, project financing and Advisory units within IB remained proactive during 2016, advising and financing broad range of transactions covering diversified sectors including power generation, gas distribution, chemicals, fertilizers, cement and financial institutions. The IB strength was externally recognized as well; during the year and was recognized as "Best Corporate & Institutional Bank – Domestic, 2016" and "Best Loan House – Pakistan, 2016" by The Asset Magazine, Hong Kong. Additionally, the Bank also received Runner-Up award for "Corporate Finance House of the Year 2015 – Fixed Income" from CFA Society of Pakistan.

The Financial Institutions, International & Cash Management (FI&CM) Division continued to expand its domestic and international capabilities. FI nurtured global institutional banking relationship with leading and highly reputed financial institutions worldwide, including partnerships with International Finance

Corporation (IFC), Asian Development Bank (ADB) and Islamic Development Bank (IDB); duly facilitating growth in international trade, foreign exchange and payments.

Operations in Bahrain (Wholesale Banking Branch) and Dubai (Representative Office) were strengthened to further penetrate remittance and trade related opportunities in the Gulf region. During 2016, ABL was also granted a Representative Office License in Beijing, People's Republic of China.

Cash Management Division expanded its horizons with ongoing addition of new clientele, product development and marketing efforts.

Capital Markets continued to follow strategy of steady growth and a stable revenue stream from diversified investment portfolio. Dividend income for the year from the equity portfolio investment was recorded at Rs. 3,776 million while un-realized capital gains on equity portfolio amounted to Rs. 21,714 million.

Home Remittance Division enhanced correspondent partners across the globe for the overseas Pakistanis to remit funds effectively and efficiently through the Bank's extensive network of 1,150 branches; with strong growth in related Allied Express accounts. New tie-ups were added with correspondents from USA, UK, Australia, Saudi Arabia, UAE, Qatar, Canada, Oman, Kuwait and Bahrain. Business arrangements were signed with renowned exchange companies. UAE based Pakistani expats are now also being offered "NRP - Non Resident Pakistani Account".

Going forward, CIBG's focus shall remain on top-tier/blue chip corporate relationships; with provision of customer centric product offerings including corporate internet banking portal while continually adding high quality assets in loan portfolio and maximize earnings through comprehensive relationship coverage. Furthermore, CIBG to explore bankable avenues in mid-tier corporate/

commercial segments to diversify and generate sustainable revenue streams while fully availing potential CPEC related opportunities through domestic and Chinese Rep offices respectively.

Islamic Banking:

Sharia complaint financial assets are estimated at US\$ 2,000 billion globally. In Pakistan, Islamic Banking industry has shown stable progress; as its share in overall industry's assets continues to grow steadily to approximately reach 11.8% at end-September 2016.

Since commencement of Islamic Banking Group (IBG) operations in 2014 the Bank has expanded its outreach to 77 dedicated Islamic branches geared towards fulfilling the needs of Islamic Banking customers. IB's total assets base as at end-December 2016 stood

at Rs.9,122 million. Overall deposits also increased significantly to reach Rs.8,554 million during 2016. In view of the continuous expansion in network and associated set up costs along with and limited shariah compliant deployment avenues, IBG's profitability shall remain under pressure in short term.

IBG continued to introduce new asset products including Istisna Finance, Business Musharakah and Bai-muajjal Securities. Likewise new liabilities products included Allied Islamic Institutions accounts, Allied Islamic Premium Account, Allied Islamic Notice period certificate and Allied Islamic Express Account. Independent Shariah Board ensures that the product development is in line with the highest levels of Shariah compliance.

Group's Review (Contd.)

During the year, focused approach remained towards enhancing the human resource capabilities. In this regard, IBG partnered with Center for Islamic Finance of Lahore University of Management Sciences (LUMS) and International Islamic University Islamabad (IIUI) through Memorandum of Understanding (MoU) to jointly promote Islamic Financing in Pakistan.

Going forward, IBG shall focus towards enhancing market share while providing innovative and customer centric Shariah compliant products and services to our valued customers.

Risk Management

Your Bank's diverse business operations necessitate identification, assessment, measurement and management of overall risks and to efficiently allocate Bank's capital among the various businesses. Risk and capital are managed through a framework of principles, organizational structures and technology driven monitoring processes that are closely aligned with the Bank's strategy.

Primary functions of Risk Management Group (RMG) include Corporate & Financial Institution Risk, Commercial, SME & Consumer Risk, Credit Administration & Monitoring, Technical Appraisal, Information Security & Governance and Enterprise Risk; working diligently to persistently enhance the risk monitoring and assessment architecture, improve asset quality while managing the risk appetite of the Bank.

During 2016, RMG continued to enhance and transform its risk management practices, utilizing cutting edge technologies to accomplish following key initiatives:

- Upgraded the Loan Origination Module of Risk Assessment & Management System (RAMS) by automating credit approval workflows for agriculture financing products including revolving credit, tractor, poultry and dairy financing thereby achieving automation of the entire credit portfolio.

- Integrated the technical plant visit assessment results with the Bank's Obligor Risk Rating (ORR) model, ensuring seamless incorporation and due weightage of technical evaluation conducted by technical appraisal team in the latest ORR of obligors.
- Implemented Facility Risk Rating (FRR) model in RAMS. The model embedded in Loan Origination System assigns risk rating to facilities, based on inherent features and duly adjusts the same on the basis of the nature of offered collaterals. The model calculates weighted average FRR for the overall exposure being approved for an obligor.
- Developed an automated workflow for issuance of disbursement authorization certificates in RAMS. Through this initiative RMG endeavors to make the credit disbursement process further transparent and efficient.
- During 2016, Bank's initiative of launching managed warehouses for pledge financing in selected locations received further impetus, as construction/renovation of two new warehouses in Mandi Faizabad, and Multan was initiated. Currently, the Bank operates four warehouses in Kamoke, Gakkhar Mandi, Multan and Athara Hazari Jhang. This unique initiative enables obligors

to access free of cost warehousing space along modern lines.

- In continuance of Bank's distinctive initiative of engaging with the obligors to provide them with latest insight on business management & strategies; 3 interactive seminars for corporate, commercial & SME obligors on the topics "Evolution of Corporate Governance and Growth" and "Corporate Governance and Macroeconomic Challenges for Growth" were organized during 2016.
- As a CSR initiative, RMG also distributed complimentary "Harvard Business Review" book sets to key personnel of major corporate obligors.

Going forward, with the objective of implementing innovative new technologies, RMG is implementing Oracle Risk Management solutions; while continuously upgrading RAMS with significant investments in technology and human resources; to maintain a robust risk management framework across the Bank.

Human Resource

In pursuit of organizational objective to remain one of the best-managed banks in the country, Human Resource Group (HRG) remained focused on induction of an efficient workforce to support expanding branch network, nurture talent through conducive learning platform and

provide career growth for consistent performers through an enabling work environment. Technology driven HR processes and employee development methodologies are being adopted to further augment HR function.

Your Bank's strategic imperative towards induction of right talent was continued during the year; branch Management Trainee Officers (MTOs) along with specialized batches of Management Trainee Auditors (MTAs), Risk Management Trainee Associates (RMTAs), Management Trainee IT (MTIT), Management Trainee-HR (MTHR), and Management Trainee-Compliance were inducted after imparting customized trainings based on class room and On-the-Job training methodologies. Accordingly, approximately 1,300 employees including Business Development Officers (BDOs), Tellers and lateral hiring in specialized functions were recruited across the country in diverse roles.

During the year, a key HRG accomplishment was to initiate a process of identifying most eligible resources for future leadership roles. The comprehensive selection process included personality traits assessments, aptitude tests and Psychometric analysis which assisted in substantiating employee profiling and core competencies for key positions. In this regard, HRG engaged a well reputed consulting firm accredited and certified from British Psychological Society, EFPA & CIPD UK ably supported by full-time bank employed organizational psychologist. HRG also played pivotal role in establishing an in-house assessment center named 'ABL CARE' to assess the personality traits, attitude and leadership potential through psychometrics; determining the psychological fitness and suitability of candidates for employment and promotion. Your Bank is amongst the very few organizations in the country having its own assessment center.

Further under the Allied Leadership Development Program (ALDP), senior management personnel were also

imparted training from world's leading institutions on leadership and strategy.

HRG proactively undertook preparation of formal group charters of new functional groups established during the year including Digital Banking Group, Service Excellence Group and Real Estate & Infrastructure Development Group while charters of existing groups were revisited/revised in order to augment existing structure and fulfill regulatory requirements.

In order to provide better healthcare facilities, 09 hospitals were added in the approved list of hospitals available to employees across the country. In addition, in-house seminars on Health Care were conducted to raise awareness

with reference to health related issues. Continued focus on Training and Development of staff, being one of the primary HRG initiatives. Revised training content design, rolling out leadership development initiatives, strengthening regulatory compliance awareness and collaboration with premiere local and international universities remained the key focal points in this area. Further redesigned courses and instructional materials were aligned with digital banking and modern trends for all Management Trainee programs. New specialization modules on trade, credits and Islamic banking were also introduced; duly assisting in building enhanced knowledge base to support Bank's future business goals and expansion strategy.

Group's Review (Contd.)

Further in-house certification programs including teller certification, Islamic banking certification and banking officer certification were introduced to augment the Bank's operations. A mandatory online new employee orientation program was also launched covering all new employees joining the Bank during the year.

During the year, 2,541 tellers got certified through in-house designed and developed 'Certified Tellers Training Program'. Overall 1,622 days were spent on training, where 9,586 participants attended functional, management development and leadership training programs.

HRG also collaborated with IBG and entered into strategic partnership with Center for Islamic Finance of Lahore University of Management Sciences (LUMS) and International Islamic University Islamabad (IIUI) to jointly promote Islamic Financing in Pakistan through development and launch of specialized trainings and development programs for senior managers in the field of Islamic Finance.

During 2016 another key initiative by HRG was establishing partnership with Institute of Chartered Accountants of Pakistan (ICAP), whereby ABL became the first Bank in the country to be accredited as 'Training Organization Outside Practice – TooP'. Under the agreement, ICAP students will earn credit towards completion of mandatory articleship while working at Allied Bank.

Going forward, HRG intends to undertake various key initiatives including introduction of technology driven services for managing employee record and attendance, revision of key policies and procedures and introduction of new application for Human Resource Management. Apart from these initiatives ongoing focus shall be maintained on developing, nurturing and attracting industry's best talent to assist in Your Bank's transition into the Digital Banking Age.

Information Technology

2016 was the year when 'disruption' became tangible; clearly depicting that we are living in a fast-changing global society. With new technologies allowing previously unimaginable service levels and established technologies like artificial intelligence and robotic process automation witnessing resurgence; global banks are positioning to offer a highly personalized and unique banking experiences for each customer. Accordingly, Information technology has become the 'nucleus' in the banking industry. However, the immense opportunities simultaneously create new challenges with reference to information security and reliability of information. Moreover, emerging FinTech companies are increasingly targeting traditional banking landscape with potential for creating immense disruption. In order to overcome the aforementioned challenges, Banks need to focus on developing customer centric products suite; along with automating business processes for improving efficiencies and reducing turnaround times. The high implementation costs for cutting edge technologies is a major challenge for banks in the short term, yet the long term future of the sector remains hinged on constant transformation amidst an evolving eco-system.

Being conversant with the evolving requirements of the customers, Your Bank has formed a hybrid strategy of equipping the traditional brick and mortar branches with the emerging technologies. Entire branch network of Your Bank operates on an online network; connected with Tier+ datacenters and links to support uninterrupted banking experience. Temenos, the Switzerland based core banking system provider, has duly acknowledged the implementation at ABL as the largest implementation in terms of number of branches connected with T24 System. T-24 release upgrade during 2017, shall further strengthen the efficiency of core banking system.

Your Bank in order to further augment digital delivery channels has established effective real time monitoring mechanism to handle any outages proactively and enhance the customer experience.

During 2016, Information Technology (ITG) upgraded the Bank's internal portal; enabling the employees to efficiently use electronic workflows.

During 2016, ITG made major strides in successfully implementing the Corporate Internet Banking solution; the system is expected to revolutionize the way of doing business with corporate customers.

ITG continues to ensure that effective business continuity and disaster recovery planning and implementation significantly mitigates the risk of service disruption. In line with the Bank's strategic goals, customer's data security remains one of the top priorities. Accordingly, ITG was involved with DBG in the launch of Chip-based cards shielding customers from the risk of card skimming/cloning.

During the year, major progress was to enhance biometric verification capabilities of the Bank, in collaboration with NADRA. ITG also initiated upgrading of Your Bank's Business Intelligence Solution in a phased manner; which is expected to greatly support the future business growth within the Bank.

Going forward, ITG aims to play key role in enhancing the technology driven initiatives within the Bank. Upgradation of core banking system and Customer Relationship Management system, refining Business Intelligence capabilities while keeping the associated costs at manageable level shall remain the key initiatives in 2017.

Information Technology (IT) Governance

IT Governance framework ensures that Your Bank's significant investment in IT infrastructure is duly aligned with the long-term strategies and objectives of the Bank; while ensuring conformity

with industry's best practices. The IT Governance of the Bank comprises monitoring by:

e-Vision Committee of Board supervises the IT Governance in the Bank and provides strategic direction for adoption/upgrading of evolving technologies. The Committee extends assistance to the Board with insights regarding evolving technologies in the field of e-banking and digital platforms. It also oversees performance of Information Technology Group of Your Bank.

Management Committee (MANCO) of the Bank is inter-alia entrusted to provide strategic guidance for IT related initiatives, prioritize projects for their implementation along with recommendation for required infrastructure and monitor their performance. MANCO is also entrusted with the review of Operational and rolling Strategic plans including IT and its recommendation to Board's e-Vision Committee/ Board of Directors.

Information Technology Group (ITG)

is headed by Chief ITG, reporting to Chief Executive Officer of the Bank. ITG is responsible for development and delivery of all technology driven services in line with directions of the Board and its committees along with effective implementation of IT Security Controls and Risk Mitigation measures in line with Bank's approved Information Security Policies and Procedures. ITG of the Bank is strengthened by the following functions:

- Software Delivery
- IT Systems & Infrastructure
- IT Operations
- Software Quality Assurance & IT Compliance

Information Security & Governance

function under the umbrella of Risk Management Group is primarily responsible to develop and implement information security guidelines through a set of policies, procedures and frameworks. It ensures that periodic information security assessments are conducted to evaluate the adequacy and effectiveness of information security

arrangements against cyber threats. The function also manages the information security awareness campaign across the Bank.

Technology Compliance

under Compliance Group performs technology compliance review of Information Security Policies and Procedures to ensure that they are compliant with SBP guidelines/regulations. Furthermore, it also ensures compliance against the recommendations of SBP inspection report, external auditors' management letter and internal audit report of Audit and Risk Review Group (A&RRG).

Information System Audit

function under A&RRG is entrusted to perform systems audit across the Bank; testing desired functionality and integrity while providing recommendations where necessary.

Key Performance Indicators

Long Term Objectives	Key Performance Indicators	Analysis	Significance Going Forward
Maintain profitability trend enabling continuous recognition among the top tier profitable banks of the country	Overall Earnings	<p>Despite the significant fall in average benchmark rates, maturity of high yielding government bonds, pressure on advances pricing spreads, challenges in core deposit mobilization due to increasing trend witnessed in currency in circulation and rising cost of doing business; Profit before taxation for the year ended Dec 31, 2016 stood at Rs.23,831 million. Risk & Opportunity Report

Allied Bank Limited (the Bank) has a comprehensive risk management system covering entire spectrum of business operations while ensuring full compliance with regulatory requirements. Furthermore, the management of risks and opportunities forms an integral part of the Bank's strategic planning process. The risk management system is based on risk appetite forming part of the overall business strategies and approved by the Board of Directors. Efficient management and technology driven risk mitigating control tools are used in all areas of risk; which are upgraded and modified according to the evolving landscape.

Risks and opportunities and the related mitigating factors are summarized below.

Risk Type	Description	Plans and Strategies for Mitigating Risks
Capital adequacy risk	The risk that the Bank has insufficient capital to support its growth or is not able to meet the statutory defined capital requirements.	Bank's Tier-1 to total risk weighted assets ratio which comes to 16.36% against requirement of 10.65% for 2016; reflecting Bank's strength to avail all future opportunities.
Liquidity risk	The risk that the Bank is unable to meet its financial liabilities as they fall due.	The Bank's stable base of rising customer deposits supplemented by Bank's strong capital base enabled strong liquidity position during the year. Bank also has a substantial portfolio of marketable securities that can be realized in the event of any liquidity stress. The liquidity levels are being monitored regularly under well-defined ALM triggers, limit exposures, gap analysis, stress testing scenarios on standalone and systemic market stress conditions. Bank's liquidity coverage ratio and net stable funding ratio are also well above the Basel prescribed limits.
Credit risk	The risk that the Bank will incur losses owing to the failure of an obligor or counterparty to meet its obligation to settle outstanding amounts.	Bank's credit risk function operates within an integrated framework of credit policies, guidelines and processes; duly identifying, measuring, managing and mitigating credit risk. The strong technology driven risk management platform extensively covers both pre-disbursement controls and post disbursement monitoring. The Bank has a well-diversified lending portfolio along with one of the lowest infection ratio and highest coverage ratio in the industry.
Market risk	The risk arising from fluctuations in interest rates, foreign currency, credit spreads, equity prices, commodity prices and risk related factors such as market volatilities.	The Bank has adopted a balanced approach towards market risk; coupled with robust risk management architecture ensures that the exposures are within the defined risk appetite. A number of metrics like VaR methodologies complemented by sensitivity measures, notional limits, loss triggers at a detailed portfolio level and extensive stress testing on an ongoing basis, enables comprehensive monitoring and control over the multi-dimensional aspects of market risk.
Operational risk	The risk of loss resulting from inadequate or failed processes, people, systems or from external events.	In accordance with the BOD approved operational risk framework, Bank maintains a system of internal controls designed to keep operational risk at appropriate levels. These internal controls are periodically updated to conform to industry best practice. Bank has also developed a business continuity plan applicable to all its functional areas.

Risk & Opportunity Report (Contd.)

Risk Type	Description	Plans and Strategies for Mitigating Risks
Reputational Risk	The risk of possible damage to Bank's brand and reputation, and the associated risk to earnings, capital or liquidity arising from any association, action or inaction which could be perceived by stakeholders to be inappropriate, unethical or inconsistent with the Bank's values and beliefs.	Reputational risk management is inextricably linked with overall risk management framework. Effective identification and management of risk identifies major threats to reputation and entity level controls ensure they are reduced to an acceptable level.
Regulatory risk	The risk arising from non-compliance with regulatory requirements, regulatory change or regulators' expectations.	Management of regulatory risk entails early identification and effective management of changes in legislative and regulatory requirements that may affect the Bank. A dedicated compliance group is working diligently to assist in accomplishment of this important task.

Factors that can affect the share price of Allied Bank Limited are:

Regularly recurring matters (such as financial results and dividends):

Announcement of financial result and expected dividends have a temporary impact on the share price.

Discount rate / Monetary Policy:

Reduction in discount rate impact the profitability of the Bank's earning. Tight monetary policy tend to curb inflation by reducing the money supply. Changes in discount rate can directly impact on net interest income and consequent effect on the bottom line of the Bank. Any impact to profitability may have a direct impact on share prices.

Cost of Deposit:

Any upward or downward shift in Discount Rate and Minimum Rate of Return on Deposits affect the cost of deposit. This shall effect the profitability of the bank, which shall depict in market share price.

Political and Security Environment:

Political instability and adverse law and order may negatively impact the equity market and share prices of traded stocks.

Inflation:

Inflation is considered as key determinant for policy rate change. Change in inflation and resultant movement in discount rate, will have impact on the share price.

Further, in order to facilitate convenience, special purpose temporary Offsite ATMs were installed at two cattle markets in Lahore during Eid-ul-Adha. Your Bank further strengthened customer relations through the following initiatives:

Customer Awareness Seminars

Continuing with Bank's unique initiative of engaging with the obligors to inculcate latest insight and strategies in managing businesses; 5 interactive seminars were organized for Corporate, Commercial, SME and Islamic obligors on the topics "Evolution of Corporate Governance and Growth", "Islamic Banking and Finance", "Farmers Financial Literacy Program", "Corporate Governance and Macroeconomic Challenges for Growth" and "Concept of Islamic Banking" during 2016 in Multan, Faisalabad, Vehari, and Sialkot respectively. Five Hundred & Eighty-Seven (587) obligors attended these highly informative seminars.

Customer protection and quality assurance

We have a passion for excellence and we take pride in our ability to solve customers' problems, focusing on delivering innovative solutions in a timely manner. Based on customers' complaints, Your Bank continuously strives for improvement in processes to avoid the recurrence of such instances. During the year under review, Your Bank introduced more efficient Escalation Matrix in accordance with Consumer Grievance Handling Mechanism which would further strengthen the compliant handling mechanism and reduce the resolution timelines. Customer Relationship Management System (CRM) has also been upgraded to provide one

window solution to manage customers' complaints / queries in efficient and transparent manner.

During the year 2016, 6,455 complaints were received and Your Bank taking appropriate measures promptly achieved 98.73% resolution rate with average Turnaround Time (TAT) of 5.25 days. Your Bank uses various channels to analyze and improve the quality of its customer services. During the year, Your Bank undertook the Mystery Shopping exercise to identify and improve any such shortcomings towards customer services. An amount of Rs. 1.64 Million was spent for this exercise.

Providing a unique banking experience, through its products and services, is the central theme of the customer focused approach. Your Bank aims to understand the needs and priorities of its customers and provide them superior service quality. For this purpose, Your Bank has further invested Rs. 10.86 Million in the upgradation of Customer Relationship Management System and Phone Banking

Applications to provide 24/7 personalized customer services through its dedicated Call Centers.

Contribution towards development of rural areas

During the year, Your Bank further opened 19 rural branches to increase the total number to 226 rural branches; primarily driven to achieve its strategic goal of financial inclusion by enhancing knowledge and understanding of banking among rural population of the country.

Your Bank is also involved in agricultural financing across the country and offers vast ranges of agricultural finance facilities through Agri designated branches.

Digital Innovation

The Bank's customers are gradually adopting enhanced usage of technology in their daily lives. Your Bank is keeping pace with the ever evolving customer needs and behavior. The focus is on using innovation in digital technologies across

On Twitter, Your Bank continues to maintain its dominance in the country's financial sector in terms of number of followers. Your Bank is continuously exploring new avenues to reach out to its customers.

WORKPLACE

Your Bank's strong emphasis on healthy work environment is duly reflected in its strive to establish a workplace which promotes balanced work life along with provision of health care facilities; provide equal employment opportunities while encouraging employment of special persons; maintain high ethical standards and support social interaction among employees.

Equal opportunity employer and employment of special persons

Over the years, ABL has generated direct and indirect employment for a large number of people, with current workforce exceeding 11,000 employed from diverse areas of Pakistan; thereby positively impacting the broad based economy and society at large. ABL being equal opportunity employer, encourages employment of special persons. The Bank currently employs 57 special persons who are honorably earning their

livelihood while contributing towards the growth of Your Bank. Simultaneously 1,569 females, representing 15% of total permanent staff members are diligently performing their duties.

Occupational Health and Safety

Health and safety of the employees is of paramount importance to the Bank. During the year 2016, Your Bank spent Rs.111.15 million through Bank's medical expense policy and over all 1,867 staff members availed medical facility. Heart diseases are the leading cause of death in both men and women, however, timely diagnosis can significantly reduce the chances of complications. In order to raise the awareness among ABL employees, Your Bank in collaboration with the Ittefaq Hospital, Lahore arranged the awareness session on this subject.

Adhering to responsibility towards eligible ex-employees, Your Bank provided medical facility to them as well, as per respective entitlement. During the year,

from the platform of “Post-retirement Medical Fund” Your Bank contributed Rs.138.28 million towards the health of its 839 ex-employees.

ABL ensures that maximum safety standards are met at all premises and encourages employees to promote the safety of their fellow team members. Provision of emergency lights, fire and smoke detection equipment, alarm system, portable fire extinguishers, periodic evacuation drills and emergency exit doors are some of the measures that have been taken by the Bank. During the year, Your Bank incurred Rs. 4.91 Million on account of the provision of the Fire Extinguishers at various branches and offices.

The Bank also believes in providing opportunities of social interaction and healthy activities to the staff members and their families. Hence, Rs.5.47 million was spent on staff cricket tournaments held at Lahore, Karachi, Islamabad and Multan.

Education and wellbeing of the staff

Employees are driving force of the organization. Therefore, investment in staff is vital for future growth of any entity. Recognizing the importance of education, Your Bank has spent Rs.35.55 million towards employee’s education during the year 2016, comprising of education allowance for clerical and non-clerical staff members and education subsidy for executive employees. Apart from providing financial assistance to employees for formal education programs, Your Bank has also invested in the employees by way of arranging their participation in both In house and External Trainings courses. During the year, Your Bank spent Rs. 87.33 Million on Trainings expenses; including foreign trainings as well.

Clerical and non-clerical staff members having humble financial backgrounds are also recognized for their services. Your Bank provides a helping hand to such staff members, in their hour of need, whether it is a time of festivity

or sorrow. During the year through the platform of “Staff Welfare Fund” Your Bank has spent Rs.39.84 million to assist 96 employees by financially enabling them in important social events like marriage ceremony of their daughters or to meet the burial expense of their departed loved ones. Keeping in view the religious sentiments of our employees, Your Bank sponsored its clerical, non-clerical and executive staff totaling 28 to perform Hajj by spending Rs.13.14 million.

Business ethics and anti-corruption measures

Your Bank nurtures a culture of excellence, good governance, transparency, integrity and accountability. Controls and Compliance being an integral function, encourages high business ethics while promoting positive compliance culture. Your Bank is committed to best industry practices for compliance with all regulatory frameworks including anti-

Corporate Sustainability (Contd.)

money laundering practices, so that the interests of all stakeholders are protected. Code of Ethics and Conduct signed by all employees acts as a guide for them in discharging their duties and sets out the standards of good practice. Central Administration Action Committee (CAAC) takes action on any violation of policies and procedures, act of fraud and forgery, breach of discipline, code of conduct, ethics and business practices. Appeal of the staff against whom CAAC has already taken disciplinary action is reviewed by Human Resource Committee.

ENVIRONMENT

In order to contribute positively to a better and healthy environment, we aim to promote paperless culture, renewable energy sources, reduction of carbon emissions and increasing plantation.

Energy conservation and environment protection

Considering the persistent energy crisis and as a responsible citizen, Your Bank is keen to conserving energy. During the year, Your Bank contributed toward energy saving solutions by investing Rs.17.08 million towards installation of solar panels at 6 branches, thus increasing the total number of solar installation sites to 50. Your Bank further invested Rs.161.41 million towards installation of 205 invertors during the year 2016, with total installation reaching 467, which replaced generators at offline times thus reducing carbon emissions and use of fossil fuel. Various administrative measures including timely closure of branches and proper maintenance of electrical equipment carried out during the year resulted in reduced consumption in electricity and fossil fuel.

COMMUNITY

Your Bank endeavors to establish its presence not only by business interactions but also by contributing towards critical social causes especially during the times of adversities and natural calamities.

Education

Lower literacy is another critical area within the country, which has not attracted the attention that it merits. Recognizing its importance in Nation building, Your Bank is supporting leading educational institutions which play pivotal role in the enlightenment of our future generations.

Your Bank is also playing active role to promote Islamic Financing and for the development of related skillset within the country. Your Bank has collaborated with the leading institutions of the country including Lahore University of Management Sciences and International Islamic University Islamabad to launch specialized trainings and development programs .

During the period, Your Bank donated Rs.20.60 million and spent Rs. 1.24 Million on sponsorships to various educational institutions as detailed in the appended table:

Health

Limited Healthcare access is another area of concern within the country. During the year, Your Bank contributed Rs.11.38 million in the shape of direct donations and sponsorships, towards various health care institutions thereby playing its role in easing the

predicament of underprivileged patients. Detail of the beneficiaries is given in the appended table;

By Order of the Board

Muhammad Raffat
Company Secretary

Statements under Section 160 (1) (b) of the Companies Ordinance, 1984

Item No. 5: To consider and approve transmission of Annual Audited Accounts through CD/DVD/USB instead of transmitting the said accounts in hard copies in accordance with SECP SRO 470 dated May 31, 2016.

SECP vide its SRO 470(I)/2016 dated May 31, 2016 had allowed companies to circulate the annual balance sheet and profit and loss account, auditor's report and directors report etc. ("Annual Audited Accounts") to its members through CD/DVD/USB at their registered addresses subject to compliance with the following conditions:

- (i) Consent of shareholders shall be obtained in Annual General Meeting or Extra Ordinary General Meeting, as the case may be, for transmission of the annual audited accounts through CD/DVD/USB instead of transmitting the said account in hard copies;
- (ii) The requirement of filing the prescribed number of hard copies of annual audited accounts with the Commission and the Stock Exchange by post shall be fulfilled;
- (iii) The listed companies shall supply the hard copies of the annual audited accounts to the shareholders, on demand, at their registered addresses, free of cost, within one week of such demand.
- (iv) For the convenience of its members, the company shall place on its website a Standard Request Form, to communicate their need of hard copies of the annual audited accounts instead of sending the same through CD/DVD/US, along with postal and e-mail address of Company Secretary/ Share Registrar to whom such requests shall be sent.

Printed copy of annual accounts will be provided to such members who opt for having hard copy on the Request Form which would be available on the website of the Company i.e. www.abl.com, without any cost within one week of the receipt of the Request Form.

Based on the above and with a view to facilitate the members, the Bank has decided to obtain consent of the shareholders for transmission of the annual audited accounts through CD/DVD/USB instead of transmitting the said account in hard copies.

In this respect, following Ordinary Resolution is proposed to be adopted by the shareholders:

"Resolved that the Bank be and is hereby authorized to transmit the annual audited accounts through CD/DVD/USB instead of transmitting the said accounts in hard copies to shareholders; however, the bank would provide hard copies of the Annual Audited Accounts to shareholders on their demand at their registered addresses, free of cost, within one week of such demand.

Further Resolved that the Bank will also place a Standard Request Form on its website for convenience of the shareholders enabling them to communicate their need of hard copies of annual audited accounts."

Lahore Pakistan

We have reviewed the enclosed Statement of Compliance with the best practices contained in the Code of Corporate Governance (the Code) prepared by the Board of Directors of Allied Bank Limited for the year ended 31 December 2016 to comply with the requirements of Rulebook of Pakistan Stock Exchange Limited .

The responsibility for compliance with the Code is that of the Board of Directors of the Bank. Our responsibility is to review, to the extent where such compliance can be objectively verified, whether the Statement of Compliance reflects the status of the Bank's compliance with the provisions of the Code and report if it does not and to highlight any non-compliance with the requirements of the Code. A review is limited primarily to inquiries of the Bank's personnel and review of various documents prepared by the Bank to comply with the Code.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Bank's corporate governance procedures and risks.

The Code requires the Bank to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval its related party transactions distinguishing between transactions carried out on terms equivalent to those that prevail in arm's length transactions and transactions which are not executed at arm's length price and recording proper justification for using such alternate pricing mechanism. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee. We have not carried out any procedures to determine whether the related party transactions were undertaken at arm's length price or not.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Bank's compliance, in all material respects, with the best practices contained in the Code as applicable to the Bank for the year ended 31 December 2016.

Statement of Ethics and Business Practices

Code of Ethics

All employees of Allied Bank Limited, hereafter called ABL, are required to follow a Code of Ethics and Business Practices in all areas of professional conduct. They must abide by the following:

Laws and Rules

- All the employees are required to comply with all the laws, rules and regulations governing ABL, including the Bank's policies, procedures and standards, the State Bank of Pakistan and the Security and Exchange Commission of Pakistan's regulations applicable to the Bank.
- All employees must function with integrity within the scope of their authorities and follow directives given by the person(s) under whose jurisdiction they are deputed with complete honesty.
- Core value of 'Integrity' must be promoted by upholding fairness, equality and respect for all team members. Discrimination, harassment of all types, intimidation and other negative practices are strictly prohibited.
- Harassment includes any unwanted, immoral act or attitude, including abuse of authority, creating a hostile environment and retaliation to non-compliance with unethical demands, which is demeaning or detrimental to work performance or the career of any employee in any capacity.
- Adherence to designated time schedules is imperative. The Bank is entitled to take disciplinary action in case of unauthorized absences.
- Employees in workmen cadre (clerical / non-clerical) are not authorized to indulge into unfair labour practices.
- Employees are not authorized to use Bank's facilities to promote trade union or officer's association activities, or carry weapons into Bank premises unless so authorized. They must not carry on above mentioned activities during office hours.
- No employee shall indulge in any political activity, including forming or joining a political, ethnic or linguistic association; get elected to a legislative body, in Pakistan or elsewhere, or indulge in any activity detrimental to the ideology of Pakistan.
- All full-time employees must devote their entire business day to their work; avoid any outside activity that interferes with their judgment in the best interest of the Bank and its clients. The Human Resource Group must be informed in case an employee:
 - Holds an outside directorship; carries on business activity outside; holds majority shares / interest in a public or private business; takes direct advantage of securities of a public listed company, or serves as a client's personal representative.
 - No employee shall bring political or other outside pressure / influence to bear on the authorities / superior officers or use the media with intent to induce them to act in a manner inconsistent with rules in any matter relating to the Bank.
 - Employees are prohibited from any engagement outside the Bank without prior approval from the Human Resource Group. Employees with financial or other interest in any family business must declare in advance by writing and seek no objection.
 - Employees shall not borrow from or lend personal funds or property to any Client or Vendor who has a relationship with the Bank except on market terms and conditions from financial institutions. Borrowing or lending in personal capacity within the Bank is prohibited.
 - Employees shall be alert and vigilant with respect to frauds, thefts or significant illegal activity committed within the office, reporting them immediately in writing to higher authority for appropriate action to be taken. Employment or Internship Certificates can only be issued by the Human Resource Group. Receipts of funds can only be issued on prescribed forms.
 - Disciplinary action may be taken in case of misconduct or unsatisfactory performance including breach of above mentioned rules; willful insubordination; breach of confidential material; use of drugs or alcohol; falsification of documents; violation of safety/health rules; insider trading; parallel banking; money laundering and any act detrimental to the Bank's business.

Workplace Environment

- The Bank is committed to creating and maintaining a working, learning and customer care environment, which is free from violence and has zero tolerance for violence against any employee or its property.
- Employees are not allowed to play practical jokes or pranks on each other, indulge in horseplay, or share immoral jokes with other employees, or the outside world, through Allied Bank email server or computer, or cell phones.
- Employees are prohibited to use, exchange, or sell intoxicants or drugs in the work place or come to work under their influence. Smoking is allowed only in designated areas.
- Employees are required to maintain proper dress code, appear well groomed and presentable at all the time. Livery staff should be in their proper uniform. High standards of behavior and tidy work areas are to be maintained at all times.

Responsibilities towards Employer (ABL)

- Employees must raise concerns and suspicions, in confidence, about any actual or potential illegal activity or misconduct according to the process in Whistle Blowing

Policy and the Anti-Harassment Policy. Failure to do so will result in employee being deemed a party to the irregularity.

- Guidance must be sought from relevant Group in case any employee receives any demand or request for information from outside party including law enforcement agencies.
- Every employee must protect the Bank's assets, physical and intellectual, and adhere to its Email and Internet Usage Policy and Acceptable Use Policy.
- Employees must maintain all records accurately and are prohibited from making any false or misleading entries, forging or tampering with signatures to compromise integrity of Bank's record.
- Employees are required to identify all conflicts of interest and declare them immediately, including all matters expected to interfere with their duty to the Bank or ability to make unbiased and objective recommendations.

Information Management

- All employees shall regard as strictly confidential any information concerning the business of the Bank which is not intended to be made public unless required to do so under the law, consulting the Human Resource Group in case of ambiguity about a required disclosure. Confidential information must only be shared with employees on a need to know basis consistent with their job assignments as set out in Information Security and Governance Policies.
- All customers' related information should be kept secret, used for intended purpose only and any further use should be allowed only after prior consent of the concerned customer.
- Employees should protect the privacy and confidentiality of personnel records, not sharing them inside or outside the Bank except after approval by Human Resource Group.
- Employees should not use Bank's facilities to access, download or distribute personal or social information, including any material that may pose reputational risk to the Bank. Secrecy of passwords must be maintained to prevent unauthorized access to Bank's systems. Personal use of internet and email is deemed inappropriate in the workplace. Private telephone conversations must be kept at a minimum during office hours.
- Only officially designated spokesperson, as provided under the Bank's Media Policy, may provide comments about the Bank to the media.
- Treasury Dealers should not relay any information which they know to be false and should take great care when discussing unsubstantiated information which they suspect to be inaccurate and refrain from passing on any information which they know to be untrue.

Relationship with and Responsibilities to Customers, Prospects and other External Constituencies

- Employees must always act fairly, equitably and objectively with all customers, prospects, suppliers and other external constituencies. Highest degree of integrity, honesty, proprietary and loyalty, towards the interest of the Bank, its customers and regulators is a must.
- Employees are not authorized to accept or agree to accept any gifts or conveyance of anything beyond prescribed value from any current or prospective Allied Bank customers or vendors or any person who has a business relationship with the Bank with exception of the following:
 - Gifts that relate to commonly recognized events or occasions such as a promotion, new job, wedding, retirement etc. provided those gifts are of reasonable value.
 - Gifts from a person who has a business relationship with the Bank, provided the acceptance is based on relationship existing independent of the business of the Bank and reported to the Human Resource Group.
 - Benefits available to the general public e.g. advertising or promotional materials, and discount or rebates on merchandise or services.
 - Civic, charitable, educational or religious organizational awards for recognition of service or accomplishment.
- Gambling / Betting between market participants is prohibited.
- Employees of Treasury are strongly cautioned against making frivolous quotes which they have no intention of honoring and which are designed merely to mislead market participants.

Other Key Legal / Compliance Rules and Issues

- Employees are strictly prohibited to engage in insider trading, buying or selling company common stocks or otherwise benefitting from sharing inside information, whether obtained through workplace or outside sources.
- ABL fully supports the intended drive against serious crime and is committed to assisting the authorities to identify money laundering transactions and where appropriate to confiscate the proceeds of crime. Employees must follow the Anti-Money Laundering Policy and Procedures.
- Violation of any of the clauses of this 'Code of Ethics' by any employee, may lead to disciplinary proceedings culminating in punishment as per merits of the case.

Statement of Internal Controls

The Management of the Bank is responsible for establishing the Internal Control System with the main objectives of ensuring effectiveness and efficiency of operations, reliability of financial reporting, safeguarding of assets and compliance with applicable laws and regulations. The Internal Control System is being constantly evolved and continuously reviewed, refined and improved on an ongoing basis to minimize risks which are inherent in banking business and operations.

Audit and Risk Review (ARR), works under direct supervision of Audit Committee of the Board (ACOB). ARR assists ACOB and Board of Directors in discharge of their responsibility in respect of Internal Control System i.e. ARR reviews, assesses adequacy and monitors the ongoing effectiveness of control systems. All significant and material findings of the auditors, both internal and external, are reported to the ACOB. ACOB actively monitors implementations to ensure that identified risks are mitigated to safeguard the interest of the Bank. The Board, acting through ACOB, provides supervision and overall guidance in improving the effectiveness of the Internal Control System.

The Compliance function of the Bank is entrusted with the responsibility to minimize compliance risk and oversees rectification of irregularities and control lapses in branches and controlling offices pointed out through various audit reviews. Compliance status of all irregularities identified during such audits is reported to ACOB. Concerted efforts are made by all functions of the Bank to improve the Control Environment at grass root level by continuous review and streamlining of procedures to prevent and rectify control lapses.

The Bank's Internal Control System has been designed to provide reasonable assurance to the Bank's Management and Board of Directors. While the Internal Control System is effectively implemented and monitored, there are inherent limitations in the effectiveness of any system, including the possibility of human error or system failure and circumvention or overriding of controls. In addition, projections of effective evaluation pertaining to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate. However, control activities are an ongoing process that includes continuous identification, evaluation and management of significant risks faced by the Bank.

As part of Internal Control Framework relating to financial reporting, the Bank has documented and mapped As-Is processes and controls, identified gaps and requisite recommendations, developed remediation initiatives and management testing plans. In addition, the Bank is formulating guidelines for adherence to Integrated Framework on Internal Controls issued by the Committee of Sponsoring Organizations (COSO) of the Treadway Commission on continuing basis. In view of SBP directives in OSED Circular No.1 of 2014 dated February 07, 2014 Long Form Report for the year ended December 31, 2015 has been submitted to SBP. The few deficiencies identified in LFR 2015 have been duly rectified subsequently.

Based upon the results derived through ongoing testing of financial reporting controls and internal audits carried out during the year, the Management considers that the Bank's existing Internal Control System is adequate and has been effectively implemented and monitored. However, the Management would be continuously evaluating processes to enhance and further strengthen the Internal Control System.

Based on the above, the Board of Directors has duly endorsed the Management's evaluation of internal controls including ICFR in the attached Director's report.

Whistle Blowing Policy

Preamble

The purpose of this Policy is to create a channel at Allied Bank Limited (the Bank) where the Bank's staff is encouraged to report, without any fear, any malicious activity or conduct of employees, which may cause financial or reputational loss to the Bank. Whistle Blowing Policy of the Bank provides assurance to the Whistle blowers about secrecy and protection of their legitimate personal interests. It also provides incentives for the Whistle blowers on reporting of suspicious activities.

Objectives

The intended objectives of this policy are:

- To develop a culture of openness, accountability and integrity;
- To provide an environment whereby employees of the Bank blow whistle where they know or suspect any immoral, unethical, fraudulent act of any current or former employees, vendors, contractors, service providers and customers which may cause financial or reputational risk to the Bank;
- To create awareness amongst employees and stakeholders regarding the Whistle Blowing Function; and
- To enable Management to be informed at an early stage about aforementioned activities or misconduct and take appropriate actions.

Scope

The scope of this policy includes, without limitation all types of unlawful acts / orders, fraud, corruption, misconduct, collusive practices or any other activity which undermines the Bank's operations, financial position, reputation and mission.

Independence of Whistle Blowing Unit

An operationally independent Whistle Blowing Unit has been established under supervision of ACOB, for handling and monitoring allegations, complaints and concerns raised by the complainant / whistleblower under Whistle Blowing Policy.

Protection of Whistleblowers

All matters will be dealt with confidentially and the identification of the Whistleblower will not be disclosed except for inevitable situations, where disclosure of identity of the Whistleblower is essential. The Bank stands committed to protect Whistle blowers for Whistle Blowing and any subsequent harassment or victimization of the Whistleblower will not be tolerated. If the Whistleblower feels that at his / her existing place of posting, he / she might be subjected to victimization or harassment by the alleged officials after blowing the Whistle, the management may consider transferring him / her to another suitable place on his / her request.

Incentives for Whistle Blowing

On the recommendation of the ACOB, the Whistle blower will be suitably awarded according to the significance of the information he / she had provided and impact of losses averted as a result.

Process of Whistle Blowing

The Bank has established the following communication channels for whistle blowing complaints:

- A dedicated e-mail address for whistle blowing (whistle.blowing@abl.com) accessible by the Chairman ACOB.
- Whistle blowing forms available on the Bank's corporate website.
- Post / courier addressed to Chairman ACOB, Allied Bank Limited, Head Office, 3-4 Tipu Block, New Garden Town, Lahore.

Number of instances reported to ACOB

Number of whistle blowing incidences reported to ACOB in Year 2016: Five (05).

Report of the Audit Committee

Unconsolidated Financial Statements

ALLIED BANK LIMITED

for the year ended December 31, 2016

Auditors' Report to the Members

We have audited the annexed unconsolidated statement of financial position of Allied Bank Limited ("the Bank") as at 31 December 2016 and the related unconsolidated profit and loss account, unconsolidated statement of comprehensive income, unconsolidated statement of cash flow and unconsolidated statement of changes in equity, together with the notes forming part thereof (here-in-after referred to as the "financial statements") for the year then ended, in which are incorporated the unaudited certified returns from the branches except for twenty eight branches, which have been audited by us and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of our audit.

It is the responsibility of the Bank's Board of Directors to establish and maintain a system of internal control, and prepare and present the financial statements in conformity with the approved accounting standards and the requirements of the Banking Companies Ordinance, 1962 (LVII of 1962), and the Companies Ordinance, 1984 (XLVII of 1984). Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the International Standards on Auditing as applicable in Pakistan. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of any material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting policies and significant estimates made by management, as well as, evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion and, after due verification, which in the case of loans and advances covered more than sixty percent of the total loans and advances of the Bank, we report that:

- a) in our opinion, proper books of accounts have been kept by the Bank as required by the Companies Ordinance, 1984 (XLVII of 1984), and the returns referred to above received from the branches have been found adequate for the purposes of our audit;
- b) in our opinion:
 - i) the unconsolidated statement of financial position and unconsolidated profit and loss account together with the notes thereon have been drawn up in conformity with the Banking Companies Ordinance, 1962 (LVII of 1962), and the Companies Ordinance, 1984 (XLVII of 1984), and are in agreement with the books of

accounts and are further in accordance with the accounting policies consistently applied, except for the changes referred to in note 5.1 to the financial statements, with which we concur;

- ii) the expenditure incurred during the year was for the purpose of the Bank's business; and
 - iii) the business conducted, investments made and the expenditure incurred during the year were in accordance with the objects of the Bank and the transactions of the Bank which have come to our notice have been within the powers of the Bank:
- c) in our opinion and to the best of our information and according to the explanations given to us, the unconsolidated statement of financial position, unconsolidated profit and loss account, unconsolidated statement of comprehensive income, unconsolidated statement of cash flow and unconsolidated statement of changes in equity together with the notes forming part thereof conform with approved accounting standards as applicable in Pakistan, and give the information required by the Banking Companies Ordinance, 1962 (LVII of 1962), and the Companies Ordinance, 1984 (XLVII of 1984), in the manner so required and give a true and fair view of the state of the Bank's affairs as at 31 December 2016 and its true balance of profit, its cash flows and its changes in equity for the year then ended; and
- d) in our opinion Zakat deductible at source, under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980), was deducted by the Bank and deposited in the Central Zakat Fund established under section 7 of that Ordinance.

The registered office of the Bank is situated at 3 - Tipu Block, Main Boulevard, New Garden Town, Lahore.

2. a) BASIS OF PRESENTATION

These unconsolidated financial statements represent separate financial statements of the Bank. The consolidated financial statements of the Bank are being issued separately.

In accordance with the directives of the Federal Government regarding the shifting of the banking system to Islamic modes, the State Bank of Pakistan (SBP) has issued various circulars from time to time. Permissible forms of trade-related modes of financing include purchase of goods by banks from their customers and immediate resale to them at appropriate mark-up in price on deferred payment basis. The purchases and sales arising under these arrangements are not reflected in these unconsolidated financial statements as such but are restricted to the amount of facility actually utilized and the appropriate portion of mark-up thereon.

The financial results of the Islamic Banking branches have been consolidated in these financial statements for reporting purposes, after eliminating inter-branch transactions / balances. Key financial figures of the Islamic Banking branches are disclosed in Annexure III to these financial statements.

These unconsolidated financial statements have been presented in Pakistan Rupees (PKR), which is the currency of the primary economic environment in which the Bank operates and functional currency of the Bank as well. The amounts are rounded to nearest thousand.

The US Dollar amounts reported in the statement of financial position, profit and loss account, statement of comprehensive income and statement of cash flow are stated as additional information, solely for the convenience of the users of financial statements. For the purpose of translation to US Dollar, spot rate of Rs 104.5985 per US Dollar has been used for 2016 and 2015, as it was the prevalent rate on reporting date.

b) BASIS OF MEASUREMENT

These unconsolidated financial statements have been prepared under the historical cost convention except for the following which are stated at revalued amounts / fair values / present values:

- Non-banking assets acquired in satisfaction of claims (Note 5.1)
- Investments (Note 5.4);
- Certain operating fixed assets (Note 5.6);
- Staff retirement and other benefits (Note 5.8); and
- Derivative financial instruments (Note 5.14.2).

3. STATEMENT OF COMPLIANCE

3.1 These unconsolidated financial statements have been prepared in accordance with approved accounting standards as applicable in Pakistan. Approved Accounting Standards comprise of such International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board (IASB) and Islamic Financial Accounting Standards (IFASs) issued by The Institute of Chartered Accountants of Pakistan (ICAP) as are notified under the Companies Ordinance, 1984, provisions of and directives issued under the Banking Companies Ordinance, 1962 and the directives issued by State Bank of Pakistan (SBP) & Securities and Exchange Commission of Pakistan (SECP). In case requirements of provisions and directives issued under the Banking Companies Ordinance, 1962, Companies Ordinance, 1984 and the directives issued by SBP and SECP differ from requirements of IFRSs and IFASs, the provisions of and directives issued under the Banking Companies Ordinance, 1962, the Companies Ordinance, 1984 and the directives issued by SBP and SECP shall prevail.

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2016

3.2 The SBP, vide BSD Circular No. 10, dated August 26, 2002 has deferred the applicability of International Accounting Standard 39, Financial Instruments: Recognition and Measurement (IAS 39) and International Accounting Standard 40, Investment Property (IAS 40) for banking companies till further instructions. Further, according to a notification of Securities and Exchange Commission of Pakistan (SECP) dated April 28, 2008, International Financial Reporting Standard (IFRS) 7 'Financial Instruments Disclosure', has not been made applicable for banks. Accordingly, the requirements of these standards have not been considered in the preparation of these unconsolidated financial statements. However, investments have been classified and disclosed in accordance with the requirements prescribed by SBP through various circulars.

3.3 IFRS 8 'Operating Segments' is effective for the Bank's accounting period beginning on or after January 1, 2009. All banking companies in Pakistan are required to prepare their annual financial statements in line with the format prescribed under BSD Circular No. 4 dated February 17, 2006, 'Revised Forms of Annual Financial Statements', effective from the accounting year ended December 31, 2006. The management of the Bank believes that as the SBP has defined the segment categorisation in the above mentioned circular, the SBP requirements prevail over the requirements specified in IFRS 8. Accordingly, segment information disclosed in these unconsolidated financial statements is based on the requirements laid down by SBP.

3.4 The Securities and Exchange Commission of Pakistan (SECP) vide SRO 56 (1) / 2016 dated January 28, 2016, has notified that the requirements of IFRS10 (Consolidated Financial Statements) and section 237 of the Companies Ordinance 1984 will not be applicable with respect to the investment in mutual funds established under Trust structure.

3.5 The State Bank of Pakistan through BPRD Circular No. 04 of 2015 dated February 25, 2015 has deferred applicability of Islamic Financial Accounting Standard-3 for Profit & Loss Sharing on Deposits (IFAS-3) issued by The Institute of Chartered Accountants of Pakistan and notified by the Securities & Exchange Commission of Pakistan (SECP), vide their SRO No. 571 of 2013 dated June 12, 2013 for Institutions offering Islamic Financial Services (IIFS). The standard will result in certain new disclosures in the financial statements of the Bank.

3.6 New and amended standards and interpretations became effective during the year

During the year, certain amendments to standards, interpretations and improvements to accounting standards became effective, however, the amendments, interpretations and improvements did not have any material effect on the unconsolidated financial statements of the Bank.

3.7 Standards, Interpretations and Amendments to Published Approved Accounting Standards that are not yet effective

The following standards, amendments and interpretations of approved accounting standards will be effective for accounting periods beginning on or after January 01, 2017.

- Amendments to IAS 12 'Income Taxes' are effective for annual periods beginning on or after January 01, 2017. The amendments clarify that the existence of a deductible temporary difference depends solely on a comparison of the carrying amount of an asset and its tax base at the end of the reporting period, and is not affected by possible future changes in the carrying amount or expected manner of recovery of the asset. The amendments further clarify that when calculating deferred tax asset in respect of insufficient taxable temporary differences, the future taxable profit excludes tax deductions resulting from the reversal of those deductible temporary differences. The amendments are not likely to have an impact on the Bank's financial statements.
- Amendments to IAS 7 'Statement of Cash Flows' are part of IASB's broader disclosure initiative and are effective for annual periods beginning on or after January 01, 2017. The amendments require disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flow and non-cash changes. The change would result in disclosures regarding change in balances of liabilities arising from financing activities.
- Amendments to IFRS 2 - 'Share-based Payment' clarify the accounting for certain types of arrangements and are effective for annual periods beginning on or after January 01, 2018. The amendments cover three accounting areas (a) measurement of cash-settled share-based payments; (b) classification of share-based payments settled net of tax withholdings; and (c) accounting for a modification of a share-based payment from cash-settled to equity-settled. The new requirements could affect the classification and/or measurement of these arrangements and potentially the timing and amount of expense recognized for new and outstanding awards. The amendments are not likely to have an impact on the Bank's financial statements.

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2016

- Transfers of Investment Property (Amendments to IAS 40 'Investment Property' - effective for annual periods beginning on or after January 01, 2018) clarifies that an entity shall transfer a property to, or from, investment property when, and only when there is a change in use. A change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. In isolation, a change in management's intentions for the use of a property does not provide evidence of a change in use. The amendments are not likely to have an impact on the Bank's financial statements.

Annual improvements to IFRS standards 2014-2016 cycle. The new cycle of improvements addresses improvements to following approved accounting standards and are not likely to have material impact on the financial statements of the Bank:

- Amendments to IFRS 12 'Disclosure of Interests in Other Entities' (effective for annual periods beginning on or after January 01, 2017) clarify that the requirements of IFRS 12 apply to an entity's interests that are classified as held for sale or discontinued operations in accordance with IFRS 5 'Non-current Assets Held for Sale and Discontinued Operations'.
- Amendments to IAS 28 'Investments in Associates and Joint Ventures' (effective for annual periods beginning on or after January 01, 2018) clarifies that a venture capital organization and other similar entities may elect to measure investments in associates and joint ventures at fair value through profit or loss, for each associate or joint venture separately at the time of initial recognition of investment. Furthermore, similar election is available to non-investment entity that has an interest in an associate or joint venture that is an investment entity, when applying the equity method, to retain the fair value measurement applied by that investment entity associate or joint venture to the investment entity associate's or joint venture's interests in subsidiaries. This election is made separately for each investment entity associate or joint venture.
- IFRIC 22 'Foreign Currency Transactions and Advance Consideration' (effective for annual periods beginning on or after January 01, 2018) clarifies which date should be used for translation when a foreign currency transaction involves payment or receipt in advance of the item it relates to. The related item is translated using the exchange rate on the date the advance foreign currency is received or paid and the prepayment or deferred income is recognized. The date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income (or part of it) would remain the date on which receipt of payment from advance consideration was recognized. If there are multiple payments or receipts in advance, the entity shall determine a date of the transaction for each payment or receipt of advance consideration.

4. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

The preparation of these financial statements in conformity with the approved accounting standards requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses. It also requires the management to exercise its judgment in the process of applying the Bank's accounting policies. Estimates, underlying assumptions and judgments are continually evaluated and are based on historical experience, including expectations of future events that are believed to be reasonable under the circumstances. The areas where various assumptions and estimates are significant to the Bank's financial statements or where judgment was exercised in application of accounting policies are as follows:

i) Classification of investments

- In classifying investments as 'held-for-trading' the Bank has determined securities which are acquired with the intention to trade by taking advantage of short term market / interest rate movements and are to be sold within 90 days.
- In classifying investments as 'held-to-maturity' the Bank follows the guidance provided in SBP circulars on classifying non-derivative financial assets with fixed or determinable payments and fixed maturity. In making this judgment, the Bank evaluates its intention and ability to hold such investments to maturity.
- The investments, other than those in subsidiary, which are not classified as 'held-for-trading' or 'held-to-maturity' are classified as 'available-for-sale'.

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2016

ii) **Provision against non-performing loans and advances and debt securities classified as investments**

The Bank reviews its loan portfolio and debt securities classified as investments to assess amount of non-performing loans and advances and debt securities and provision required there-against. While assessing this requirement various factors including the delinquency in the account, financial position of the borrower and the requirements of the Prudential Regulations are considered. The amount of general provision is determined in accordance with the requirements set out in Prudential Regulations.

iii) **Valuation and impairment of 'available-for-sale' equity investments**

The Bank determines that 'available-for-sale' equity investments are impaired when there has been a significant or prolonged decline in the fair value below its cost. This determination of what is significant or prolonged requires judgment. In making this judgment, the Bank evaluates among other factors, the normal volatility in share price. In addition, impairment may be appropriate when there is evidence of deterioration in the financial health of the investee, industry and sector performance, changes in technology and operational and financing cash flows.

iv) **Income taxes**

In making the estimates for income taxes currently payable by the Bank, the management looks at the current income tax laws and the decisions of appellate authorities. In determination of deferred taxes, estimates of the Bank's future taxable profits are taken into account.

v) **Fair value of derivatives**

The fair values of derivatives which are not quoted in active markets are determined by using valuation techniques. The valuation techniques take into account the relevant interest rates in effect at the reporting date and the rates contracted.

vi) **Depreciation and amortization**

In making estimates of the depreciation / amortization, the management uses method which reflects the pattern in which economic benefits are expected to be consumed by the Bank and estimates the useful life. The method applied and useful lives estimated are reviewed at each financial year end and if there is a change in the expected pattern or timing of consumption of the future economic benefits embodied in the assets, the estimate would be changed to reflect the change in pattern. Such a change is accounted for as change in accounting estimates in accordance with International Accounting Standard 8 - Accounting Policies, 'Changes in Accounting Estimates and Errors'.

vii) **Defined benefit plans**

Liability is determined on the basis of actuarial advice using the Projected Unit Credit Method. The actuarial assumptions used to determine the liability and related expense are disclosed in note 34.

viii) **Fair value hierarchy of assets and liabilities**

The fair value of the assets and liabilities is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The Bank categorizes fair value measurements within the following fair value hierarchy:

a) **Level 1**

These are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Bank can access at the measurement date.

b) **Level 2**

These are inputs other than quoted prices included within Level 1 that are observable for asset or liability, either directly or indirectly.

c) **Level 3**

These are input for the assets or liability that are not based on observable market data (unobservable Inputs).

Notes to the Unconsolidated Financial Statements

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies adopted in the preparation of these unconsolidated financial statements have been applied consistently to all periods presented in these unconsolidated financial statements of the Bank except for the change explained in note 5.1. Significant accounting policies are enumerated as follows:

5.1 Change in accounting policy

Non-banking assets acquired in satisfaction of claims

The Bank has changed its accounting policy regarding non-banking assets acquired in compliance with the requirements of the 'Regulations for Debt Property Swap', effective from the date of issuance by SBP vide its BPRD Circular No. 1 of 2016, dated January 1, 2016.

Non-banking assets (NBA) acquired in satisfaction of claims are carried at revalued amounts less accumulated depreciation (excluding land). Revaluation by independent professionally qualified valuers, is carried out with sufficient regularity to ensure that their net carrying value does not differ materially from their fair value. Surplus arising on revaluation of NBA is credited to the 'surplus on revaluation of assets' account and any deficit arising on revaluation is taken to profit and loss account directly. Legal fees, transfer costs and direct costs of acquiring title to property is charged to profit and loss account and not capitalised.

Effect of change in policy is as follows:

	Rupees in '000
Impact on statement of financial position:	
Increase in non-banking assets	1,329,105
Increase in surplus on revaluation	1,327,010
Increase in deferred tax liability (surplus on revaluation)	13,930
Increase in deferred tax liability (accelerated depreciation)	22,227
Impact on profit and loss account:	
Depreciation expense	19,696
Deferred tax expense	22,227

5.2 Cash and cash equivalents

For the purpose of cash flow statement, cash and cash equivalents include cash and balances with treasury banks and balances with other banks (net of overdrawn nostro balances) in current and deposit accounts.

5.3 Lendings to / borrowings from financial institutions

The Bank enters into transactions of borrowing (re-purchase) from and lending (reverse re-purchase) to financial institutions, at contracted rates for a specified period of time. These are recorded as under:

a) Sale under re-purchase agreements

Securities sold subject to a re-purchase agreement are retained in the financial statements as investments and the counter party liability is included in borrowings from financial institutions. The differential in sale and re-purchase value is accrued on a prorata basis and recorded as mark-up expense.

b) Purchase under resale agreements

Securities purchased under agreement to resell (reverse re-purchase) are included in lendings to financial institutions. The differential between the contracted price and resale price is amortized over the period of the contract and recorded as mark-up income.

Securities held as collateral are not recognized in the financial statements, unless these are sold to third parties, in which case the obligation to return them is recorded at fair value as a trading liability under borrowings from financial institutions.

Other borrowings including borrowings from SBP are recorded at the proceeds received. Mark-up on such borrowings is charged to the profit and loss account on a time proportion basis.

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2016

Lendings are stated net of provision. Return on such lending is accrued to the profit and loss account on a time proportion basis except mark-up on impaired/ delinquent lendings, which is recognized on receipt basis.

5.4 Investments

5.4.1 The Bank at the time of purchase classifies its investment portfolio, other than investment in subsidiary, into the following categories:

a) Held-for-trading

These are securities which are either acquired for generating a profit from short-term fluctuations in market prices, interest rate movements and dealer's margin.

b) Held-to-maturity

These are debt securities with fixed or determinable payments and fixed maturity that the Bank has the positive intent and ability to hold to maturity.

c) Available-for-sale

These are investments, other than those in subsidiary, that do not fall under the 'held-for-trading' or 'held-to-maturity' categories.

5.4.2 Investments are initially recognized at fair value which, in case of investments other than 'held-for-trading', includes transaction cost associated with the investments. Transaction cost on 'held-for-trading' investments are expensed as incurred.

All 'regular way' purchases and sales of investments are recognized on the trade date, i.e., the date that the Bank commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of investments that require settlement within the time frame generally established by regulation or convention in the market place.

5.4.3 In accordance with the requirements of the SBP, quoted securities, other than those classified as 'held-to-maturity' and investments in subsidiaries, are carried at market value. Investments classified as 'held-to-maturity' are carried at amortized cost.

Unrealized surplus / (deficit) arising on revaluation of the Bank's 'held-for-trading' investment portfolio is taken to the profit and loss account. Surplus / (deficit) arising on revaluation of quoted securities classified as 'available-for-sale' is kept in a separate account shown in the statement of financial position below equity. The surplus / (deficit) arising on these securities is taken to the profit and loss account when actually realized upon disposal or when the investment is considered to be impaired.

Unquoted equity securities are valued at the lower of cost and break-up value. The break-up value of these securities is calculated with reference to the net assets of the investee company as per the latest available audited financial statements. A decline in the carrying value is charged to the profit and loss account. A subsequent increase in the carrying value, upto the cost of the investment, is credited to the profit and loss account. Investments in other unquoted securities are valued at cost less impairment, if any.

Provision for diminution in the value of securities (except for debentures, participation term certificates, sukuks and term finance certificates) is made after considering impairment, if any, in their value. Provision for diminution in value of debentures, participation term certificates, sukuks and term finance certificates are made in accordance with the requirements of Prudential Regulations issued by SBP.

5.4.4 Investments in subsidiaries are stated at cost less impairment.

5.5 Advances

a) Loans and advances

Loans and advances are stated net of general and specific provisions. Specific provision against loans is determined in accordance with the requirements of the Prudential Regulations and other directives issued by SBP and charged to the profit and loss account. General provision is maintained in accordance with the requirements of Prudential Regulations issued by SBP and charged to the profit and loss account. Advances are written off when there are no realistic prospects of recovery.

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2016

b) Net investment in Finance Lease

Leases, where the Bank transfers substantially all the risks and rewards incidental to the ownership of an asset to the lessee are classified as finance leases. A receivable is recognized at an amount equal to the present value of the minimum lease payments, including un-guaranteed residual value, if any. Finance lease receivables are included in advances to the customers.

c) Islamic Financing and Related Assets

The Bank provides Islamic financing and related assets mainly through Murabaha, Ijarah, Diminishing Musharakah and Salam. The purchases and sales arising under these arrangements are not reflected in these financial statements as such but are restricted to the amount of facility actually utilised and the appropriate portion of profit thereon. The income on such financings is recognised in accordance with the principles of Islamic Shariah. The Bank determines specific and general provisions against Islamic financing and related assets in accordance with the requirements of the Prudential Regulations issued by the SBP. The net provision made / reversed during the year is charged to profit and loss account and accumulated provision is netted off against Islamic financing and related assets. Islamic financing and related assets are written off when there are no realistic prospects of recovery.

5.6 Operating fixed assets and depreciation

a) Tangible assets

Property and equipment owned by the Bank, other than land which is not depreciated, are stated at cost or revalued amount less accumulated depreciation and impairment losses, if any. Land is carried at revalued amount.

Depreciation is calculated using the straight line method, except buildings which are depreciated using the reducing balance method, to write down the cost of property and equipment to their residual values over their estimated useful lives. The rates at which the fixed assets are depreciated are disclosed in note 11.2. The residual values, useful lives and depreciation methods are reviewed and adjusted, if required. Adjustments in residual values, useful lives and depreciation methods are treated as change in accounting estimates.

Depreciation on additions is charged from the month the assets are available for use, while no depreciation is charged in the month in which the assets are disposed off.

Surplus arising on revaluation of fixed assets is credited to surplus on revaluation of fixed assets account. Deficit arising on subsequent revaluation of fixed assets is adjusted against the balance in surplus account as allowed under the provisions of the Companies Ordinance, 1984. The surplus on revaluation of fixed assets to the extent of incremental depreciation charged on the related assets, is transferred directly to unappropriated profit (net of deferred tax).

Revaluation by independent professionally qualified valuers, is carried out with sufficient regularity to ensure that the carrying amount of assets does not differ materially from their fair value.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is recognized in the profit and loss account in the year the asset is derecognized, except that the related surplus on revaluation of fixed assets (net of deferred tax) is transferred directly to unappropriated profit.

Subsequent costs are included in the asset's carrying amount only when it is probable that future economic benefits associated with the item will flow to the Bank and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the profit and loss account.

b) Intangible assets

Intangible assets are carried at cost less any accumulated amortization and impairment losses, if any. The cost of intangible assets is amortized over their estimated useful lives, using the straight line method. Amortization is charged from the month the assets are available for use at the rate stated in note 11.3. The useful lives are reviewed and adjusted, if appropriate, at each reporting date.

c) Capital work-in-progress

Capital work-in-progress is stated at cost less impairment losses, if any.

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2016

5.7 Taxation

a) Current

Provision for current taxation is based on taxable income for the year determined in accordance with the prevailing laws for taxation. The charge for current tax is calculated using the prevailing tax rates or tax rates expected to apply to the profits for the year. The charge for current tax also includes adjustments, where considered necessary relating to prior years, including those arising from assessments finalized during the year.

b) Deferred

Deferred tax is recognized using the balance sheet liability method on all temporary differences, at the reporting date between the amounts attributed to assets and liabilities for financial reporting purpose and amounts used for taxation purposes. Deferred tax is calculated at the rates that are expected to apply to the periods when the difference will reverse, based on tax rates that have been enacted or substantially enacted at the reporting date.

Deferred tax assets are recognized only to the extent that it is probable that future taxable profits will be available against which the assets can be utilized. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

The Bank also recognizes a deferred tax asset / liability on deficit / surplus on revaluation of fixed assets, non-banking assets and securities which is adjusted against the related deficit / surplus in accordance with the requirements of IAS-12 'Income Taxes'.

5.8 Staff retirement and other benefits

5.8.1 Staff retirement schemes

a) For employees who opted for the lump sum pension scheme introduced by the management

An approved pension scheme (defined benefit scheme) under which the benefits on the basis of frozen basic salary, service and age as on June 30, 2002 are payable to all employees whose date of joining the Bank is on or before July 01, 1992 i.e., who have completed 10 years of service as on June 30, 2002;

During the year, the beneficiary employees were given an option to settle their monthly pension with a lump sum payment. Those who will not opt for the lump sum option, will continue to receive pension (defined benefit scheme).

An approved gratuity scheme (defined benefit scheme) under which the benefits are payable as under:

- i) For members whose date of joining the Bank is on or before July 01, 1992, their services would be calculated starting from July 01, 2002 for gratuity benefit purposes.
- ii) For members whose date of joining the Bank is after July 01, 1992 their services would be taken at actual for the purpose of calculating the gratuity benefit.

A Contributory Provident Fund scheme to which equal contributions are made by the Bank and the employees (defined contribution scheme).

b) For employees who did not opt for the lump sum pension scheme

An approved pension scheme (defined benefit scheme) under which the benefits on the basis of frozen basic salary as on June 30, 2002 are payable to all employees opting continuation of the previous scheme and whose date of joining the Bank is on or before July 01, 1992, i.e., who had completed 10 years of service as on June 30, 2002.

Until December 31, 2008, the Bank operated a contributory benevolent fund, which was discontinued for active employees. The beneficiary employees as on that date were also given an option to settle their monthly grant with a lump sum payment. Those who have not opted for the lump sum option will continue to receive benevolent grant (defined benefit scheme).

c) Post retirement medical benefits

The Bank provides post retirement medical benefits to eligible retired employees. Provision is made annually to meet the cost of such medical benefits on the basis of actuarial valuation carried out using the Projected Unit Credit Method.

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2016

Annual contributions towards the defined benefit schemes are made on the basis of actuarial valuation carried out using the Projected Unit Credit Method. Actuarial gains / losses arising from experience adjustments and changes in actuarial assumptions are recognized in Other Comprehensive Income in the period of occurrence.

5.8.2 Other long term benefit

Employees' compensated absences

Employees' entitlement to annual leave is recognised when they accrue to employees. A provision is made for estimated liability for annual leaves as a result of services rendered by the employee against unavailed leaves, as per terms of service contract, up to the reporting date, based on actuarial valuation using Projected Unit Credit Method. Actuarial gains / losses arising from experience adjustments and changes in actuarial assumptions are recognized in Profit and Loss account in the period of occurrence.

5.9 Deposits

Deposits are initially recorded at the amount of proceeds received. Mark-up accrued on deposits is recognized separately as part of other liabilities and is accrued to the profit and loss account on accrual basis. Deposits mobilized under Islamic Banking operations are generated under two modes i.e. "Qard" and "Modaraba". Deposits taken on Qard basis are classified as 'Current accounts' and Deposits generated on Modaraba basis are classified as 'Saving deposits / Fixed deposits'.

5.10 Impairment

a) Available-for-sale equity securities

The Bank determines that 'available-for-sale' equity investments are impaired when there has been a significant or prolonged decline in the fair value of these investments below their cost. The determination of what is significant or prolonged requires judgment. In making this judgment, the Bank evaluates, among other factors, the normal volatility in share price in the case of listed equity securities. In addition, impairment may be appropriate when there is evidence of deterioration in the financial condition of the investee, industry and sector performance and changes in technology.

b) Non-financial assets

The carrying amount of the Bank's assets (other than deferred tax assets) are reviewed at each statement of financial position date to determine whether there is any indication of impairment. If such indication exists, the recoverable amount of the relevant asset is estimated. An impairment loss is recognized whenever the carrying amount of an asset exceeds its recoverable amount. Impairment losses are recognized in the profit and loss account except for an impairment loss on revalued assets which is adjusted against the related revaluation surplus to the extent that the impairment loss does not exceed the revaluation surplus. An impairment loss is reversed if the reversal can be objectively related to an event occurring after the impairment loss was recognized.

5.11 Provisions

Provisions are recognized when the Bank has a present obligation (legal or constructive) as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made.

Provision against identified losses on non-funded exposure is recognized when intimated and reasonable certainty exists for the Bank to settle the obligation. The loss is charged to the profit and loss account net of expected recovery and is classified under other liabilities.

Provisions are reviewed at the reporting date and are adjusted to reflect the current best estimate.

5.12 Dividend distribution and appropriations

Bonus and cash dividend and other appropriations (except for the appropriations required by law), declared / approved subsequent to the reporting date are considered as non-adjusting event and are not recorded in unconsolidated financial statements of the current year. These are recognized in the period in which these are declared / approved.

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2016

5.13 Foreign currencies

a) Foreign currency transactions

Transactions in foreign currencies are translated into rupees at the foreign exchange rates ruling on the transaction date. Monetary assets and liabilities in foreign currencies are expressed in rupee terms at the rates of exchange ruling on the reporting date. Foreign bills purchased are valued at spot rate and forward foreign exchange contracts are valued at forward rates applicable to their respective maturities.

b) Foreign operations

The assets and liabilities of foreign operating branches are translated to Pakistan Rupee (PKR) at exchange rates prevailing at reporting date. The results of foreign operations are translated at the average exchange rate for the period.

c) Translation gains and losses

Translation gains and losses arising on revaluation of net investments in foreign operations are taken to equity under 'Exchange Translation Reserve' through Other Comprehensive Income and on disposal are recognised in profit and loss account. Regular translation gains and losses are taken to profit and loss account.

d) Commitments

Commitments for outstanding forward contracts disclosed in these financial statements are translated at forward rates applicable to their respective maturities. Contingent liabilities / commitments for letters of credit and letters of guarantee denominated in foreign currencies are expressed in rupee terms at the rates of exchange ruling on the reporting date.

5.14 Financial instruments

5.14.1 Financial assets and liabilities

Financial assets and financial liabilities are recognised at the time when the Bank becomes a party to the contractual provision of the instrument. Financial assets are de-recognised when the contractual right to future cash flows from the asset expires or is transferred along with the risk and reward of the asset. Financial liabilities are de-recognised when obligation specific in the contract is extinguished. Any gain or loss on de-recognition of the financial asset and liability is recognised in the profit and loss account of the current period. The particular recognition and subsequent measurement methods adopted for significant financial assets and financial liabilities are disclosed in the individual policy statements associated with them.

5.14.2 Derivative financial instruments

Derivative financial instruments are initially recognized at fair value on the date on which the derivative contract is entered into and are subsequently re-measured at fair value using appropriate valuation techniques. All derivative financial instruments are carried as assets when fair value is positive and liabilities when fair value is negative. Any change in the fair value of derivative financial instruments is taken to the profit and loss account.

5.15 Off setting

Financial assets and financial liabilities are off set and the net amount is reported in the financial statements when there is a legally enforceable right to off set and the Bank intends to either settle on a net basis, or to realize the assets and to settle the liabilities simultaneously.

5.16 Revenue recognition

Revenue is recognized to the extent that the economic benefits will flow to the Bank and the revenue can be reliably measured. These are recognised as follows:

a) Advances and investments

Mark-up / return on regular loans / advances and investments is recognized on a time proportion basis. Where debt securities are purchased at premium or discount, the same is amortized through the profit and loss account using the effective interest rate method.

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2016

Interest or mark-up recoverable on classified loans, advances and investments is recognized on receipt basis. Interest / return / mark-up on classified rescheduled / restructured loans and advances and investments is recognized as permitted by the regulations of the SBP.

Dividend income is recognized when the right to receive the dividend is established.

Gains and losses on sale of investments are recognized in the profit and loss account.

b) Lease financing

Financing method is used in accounting for income from lease financing. Under this method, the unearned lease income (excess of the sum of total lease rentals and estimated residual value over the cost of leased assets) is deferred and taken to income over the term of the lease period so as to produce a constant periodic rate of return on the outstanding net investment in lease. Unrealised income on classified leases is recognized on receipt basis.

Gains / losses on termination of lease contracts and other lease income are recognized when realized.

c) Islamic financing and related assets

Ijarah and Diminishing Musharakah income is recognised on an accrual basis as and when the rental becomes due.

Murabaha and Salam income is recognised on deferred income basis.

d) Fees, brokerage and commission

Fee, Commission and Brokerage income is recognized on an accrual basis except where, in the opinion of management, it would not be prudent to do so.

5.17 Segment reporting

A segment is a distinguishable component of the Bank that is subject to risks and rewards that are different from those of other segments. A business segment is one that is engaged either in providing certain products or services, whereas a geographical segment is one engaged in providing certain products or services within a particular economic environment. Segment information is presented as per the Bank's functional and management reporting structure. The Bank's primary segment reporting is based on following business segments:

Business segments

a) Corporate & investment banking

This segment offers a wide range of financial services to medium and large sized public and private sector entities and also covers overseas operation of the Bank. These services include, providing and arranging tenured financing, corporate advisory, underwriting, cash management, trade products, corporate finance products and customer services on all bank related matters.

b) Trading and sales (Treasury)

This segment undertakes the Bank's treasury and money market activities.

c) Commercial & retail banking

Commercial and retail banking provides services to commercial and retail customers including agriculture sector. It includes loans, deposits and other transactions with commercial and retail (conventional and Islamic) customers.

d) Others

Others includes functions which cannot be classified in any of the above segments.

5.18 Earnings per share

The Bank presents basic and diluted earnings per share (EPS) for its shareholders. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Bank by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares, if any.

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2016

- 12.2** Through Finance Act 2007, a new section 100A read with the 7th Schedule (the Schedule) was inserted in the Income Tax Ordinance, 2001 for the taxation of banking companies. The Schedule simplifies the taxation of banking companies and is applicable from the tax year 2009 (financial year ended on December 31, 2008).

The deferred tax asset on the deductible temporary differences disallowed as a deduction in the past up to December 31, 2007, for which transitory provisions are not available, is being kept as an asset as the Bank is confident that transitory provisions would be introduced to set out the mechanism of claiming where benefit of these allowances can be claimed.

16.3 The Bank has entered into various agreements for financing with the State Bank of Pakistan (SBP) for extending export finance to customers. As per agreements, the Bank has granted to SBP the right to recover the outstanding amount from the Bank at the date of maturity of the finance by directly debiting the current account maintained by the Bank with the SBP. The borrowing carries mark-up at the rate of 2% (2015: 4.5%) per annum. These borrowings are repayable within six months from the deal date.

16.4 This represents Long Term Financing against export oriented projects availed by the Bank for further extending the same to its customers for export oriented projects, for a maximum period of 10 years. The borrowing repayments to SBP correspond the respective repayment from customers. The borrowing carries mark-up at the rate of 3% to 4.5% (2015: 3% to 4.5%) per annum.

16.5 These borrowings had been obtained from the SBP for providing financing facilities to exporters for adoption of new technologies and modernization of their plant & machinery for a maximum period of 10 years. The borrowing carried mark-up at 3% to 4.5% per annum (2015: 3% to 4.5%).

16.6 These represent borrowings from the SBP to finance modernization of SMEs by providing financing facilities for purchase of new imported / local plant & machinery for BMR (Balancing, Modernization and Replacement) of existing units, setting up of new units and financing for import/local purchase of new generators upto a maximum capacity of 500 KVA. These borrowings are repayable within a period ranging from 3 years to 10 years. The borrowing carries mark-up at the rate of 3% to 3.50% (2015: 3% to 3.50%) per annum.

16.7 These represent borrowings from the SBP under scheme of financing facility for storage of agricultural products. The financing is available for a maximum period of 7 years. The mark-up rates on these facilities are ranging from 2.50% to 3.50% (2015: 2.50% to 3.50%) per annum.

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2016

18.2 During the current year, the Supreme Court of Pakistan vide its order dated November 10, 2016 has held that the amendments made in the law introduced by the Federal Government for the levy of Workers' Welfare Fund (WWF) were not lawful. The Federal Board of Revenue has filed review petitions against this order, which are currently pending.

Legal advice obtained on the matter indicates that consequent to filing of these review petitions the judgment may not currently be treated as conclusive. Accordingly, the Bank maintains its provision in respect of WWF and shall revisit the position on periodic basis.

21.10 Other Contingencies

21.10.1 The income tax assessments of the Bank have been finalized upto and including tax year 2016 for local, Azad Kashmir and Gilgit Baltistan operations. While finalizing income tax assessments upto tax year 2016, income tax authorities made certain add backs with aggregate tax impact of Rs.21,223 million (2015: 20,572 million). As a result of appeals filed by the Bank before appellate authorities, most of the add backs have been deleted. However, the Bank and Tax Department are in appeals/references before higher forums against unfavorable decisions. Pending finalization of appeals / references no provision has been made by the Bank on aggregate sum of Rs.21,223 million (2015: 20,572 million). The management is confident that the outcome of these appeals / references will be in favor of the Bank.

Tax Authorities have conducted proceedings of withholding tax audit under section 161/205 of Income Tax Ordinance, 2001 for tax year 2003 to 2006 and tax year 2008 to 2015 and created an arbitrary demand of Rs. 1,429 million. The Bank's appeals before CIR(A)/Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that these appeals will be decided in favor of the Bank; therefore, no provision has been made against the said demand of Rs. 1,429 million.

Tax authorities have also issued orders under Federal Excise Act, 2005 / Sales Tax Act, 1990 and Sindh Sales Tax on Services Act, 2011 for the year 2008 to 2014 thereby creating arbitrary aggregate demand of Rs. 890 million (2015: 633 million). The Bank's appeals before CIR(A)/Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that aforesaid demand will be deleted by appellate authorities and therefore no provision has been made against the said demand of Rs. 890 million (2015: 633 million).

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2016

21.10.2 While adjudicating foreign exchange repatriation cases of exporter namely: Fateh Textile Mills Limited, the Foreign Exchange Adjudicating Court (FEAC) of the State Bank of Pakistan (SBP) has arbitrarily adjudicated penalties against various banks including Rs. 2,173 million in aggregate against Allied Bank Limited (the Bank). Against the said judgments, the Bank has filed appeals before the Appellate Board and Constitutional Petitions in the High Court of Sindh, Karachi. The Honorable High Court has granted relief to the Bank by way of interim orders. Based on merits of the appeals, the management is confident that these appeals shall be decided in favor of the Bank and therefore no provision has been made against the impugned penalty.

22. DERIVATIVE INSTRUMENTS

The Bank at present does not offer structured derivative products such as Interest Rate Swaps, Forward Rate Agreements or FX Options. However, the Bank's Treasury Group buys and sells derivative instruments such as:

- Forward Exchange Contracts
- Foreign Exchange Swaps
- Equity Futures
- Forward Contracts for Government Securities

Forward Exchange Contracts

Forward Exchange Contract (FEC) is a product which is offered to the obligor who transact internationally. These obligor use this product to hedge themselves from unfavorable movements in a foreign currency, however, by agreeing to fix the exchange rate, they do not benefit from favorable movements in that currency.

An FEC is a contract between the Obligor and the Bank in which both agree to exchange an amount of one currency for another currency at an agreed forward exchange rate for settlement over more than two business days after the FEC is entered into (the day on which settlement occurs is called the value date). FEC is entered with those Obligors whose credit worthiness has already been assessed, and they have underlined trade transactions.

If the relevant exchange rate moves un-favorably, Obligor will benefit from that movement because the Bank must exchange currencies at the FEC rate. In order to mitigate this risk of adverse exchange rate movement, the Bank hedges its exposure by taking opposite forward position in inter-bank FX.

Foreign Exchange Swaps

A Foreign Exchange Swap (FX Swap) is used by the Bank if it has a need to exchange one currency for another currency on one day and then re-exchange those currencies at a later date. Exchange rates and forward margins are determined in the "inter-bank" market and fluctuate according to supply and demand.

An FX Swap prevents the Bank from gaining any benefit resulting from a favorable exchange rate movement in the relevant currency pair between the time Bank enters into the transaction deal and when settlement occurs. Cancellation of the swap may also result in exposure to market movements. The key advantage of an FX swap is that it provides the Bank with protection against unfavorable currency movements between the time it enters into the transaction and settlement. The term and amounts for FX Swap can also be tailored to suit the Bank's particular needs.

Equity Futures

An equity futures contract is a standardized contract, traded on a futures counter of the stock exchange, to buy or sell a certain underlying script at a certain date in the future, at a specified price.

The Bank uses equity futures as a hedging instrument to hedge its equity portfolio, in both 'held-for-trading' and 'available-for-sale', against equity price risk. Only selected shares are allowed to be traded on futures exchange. Equity futures give flexibility to the Bank either to take delivery on the future settlement date or to settle it by adjusting the notional value of the contract based on the current market rates. Maximum exposure limit to the equity futures is 10% of Tier I Capital of the Bank, based on prevailing SBP regulations.

The accounting policies used to recognize and disclose derivatives are given in Note 5.14.2. The risk management framework of derivative instruments is given in note 41.

34.13 Expected contributions to be paid to the funds in the next financial year

The Bank contributes to the gratuity fund as per actuarial expected charge for the next financial year. No contributions are being made to pension / benevolent fund due to surplus of fair value of plan's assets over present value of defined obligation. Based on actuarial advice, management estimates that the charge / (reversal) in respect of defined benefit plans for the year ending December 31, 2017 would be as follows:

	Pension fund	Gratuity fund	Benevolent fund	Post retirement medical	Employees' compensated absences

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2016

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied when calculating the defined benefit obligation recognized within the statement of financial position.

34.15 Risk associated with defined benefit plans

The defined benefit plans may expose the bank to actuarial risks such as longevity risk, investment risk, salary increase risk and withdrawal rate risk as described below;

Longevity risks

The risk arises when the actual lifetime of retirees is longer than expectation. This risk is measured at the plan level over the entire retiree population.

Investment risks

The risk arises when the actual performance level of investment levels is lower than expectation and thus creating a shortfall in the funding objectives.

Salary increase risk

The most common type of retirement benefit is one where the final benefit is linked with final salary. The risk arises when the actual increases are higher than expectations and impact the liability accordingly.

Withdrawal Rate

The risk of actual withdrawals varying with the actuarial assumptions can impose a risk to the benefit obligation. The movement of the liability can go either way.

35. DEFINED CONTRIBUTION PLAN

The Bank has maintained an employee provident fund trust and investments out of provident fund have been made in accordance with the provisions of section 227 of the Companies Ordinance 1984, and the rules formulated for this purpose. The salient information of the fund is as follows:

36.1 This represents meeting fee paid to directors (other than two sponsor directors) for attending meetings of the Board of Directors and Board Committees held during the year.

37. FAIR VALUE OF FINANCIAL INSTRUMENTS

The fair value of traded investments is based on quoted market prices, except for tradable securities classified by the Bank as 'held-to-maturity'. Quoted securities classified as 'held-to-maturity' are carried at amortized cost. Fair value of unquoted equity investments other than investment in subsidiary is determined on the basis of break up value of these investments as per the latest available audited financial statements.

Fair value of fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to absence of current and active market for such assets and liabilities and reliable data regarding market rates for similar instruments. The provision for impairment of loans and advances has been calculated in accordance with the Bank's accounting policy as stated in note 5.5 to these financial statements.

The maturity and repricing profile and effective rates are stated in notes 41.2.4 and 41.3 respectively

In the opinion of the management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since assets and liabilities are either short-term in nature or in the case of customer loans and deposits are frequently re-priced.

The table below presents, by valuation methods, the financial and non-financial assets carried at fair values. Valuation of investments is carried out as per guidelines specified by the SBP. In case of non-financial assets, the Bank has adopted revaluation model (as per IAS 16) in respect of land and building and non-banking assets.

40. CAPITAL ASSESSMENT AND ADEQUACY

40.1 Capital Adequacy

40.1.1 Objectives of Managing Capital

Capital Management aims to ensure that there is sufficient capital to meet the capital requirements of the Bank as determined by the underlying business strategy and the minimum requirements of the SBP. The Capital Management process is governed by the Bank's Asset & Liability Committee (ALCO) and Management Committee (MANCO). Further, capital adequacy and management is overseen by the Board's Risk Management Committee (BRMC) and Strategic Planning and Monitoring Committee (SPMC).

Bank's capital management seeks:

- to comply with the capital requirements set by the regulators and comparable to the peers;
- to actively manage the supply of capital costs and increase capital velocity;
- to increase strategic and tactical flexibility in the deployment of capital to allow for the timely reallocation of capital;
- to improve the liquidity of the Bank's assets to allow for an optimal deployment of the Bank's resources;
- to protect the Bank against unexpected events and maintain strong ratings;
- to safeguard the Bank's ability to continue as a going concern so that it can continue to provide adequate return to shareholders;
- availability of adequate capital (including the quantum) at a reasonable cost so as to enable the Bank to expand; and
- to achieve low overall cost of capital with appropriate mix of capital elements.

Bank through Internal Capital Adequacy Assessment Process (ICAAP) and Advances Stress Testing assesses overall capital adequacy on a periodic basis in relation to Bank's risk profile. Utilizing sensitivity and stress analysis techniques, bank assesses adequacy of Bank's total capital against adverse shocks with respect to credit risk, market risk, operational risk, concentration risk, interest rate risk, liquidity risk, country risk, reputational risk and strategic risk. Further, Bank formulates its strategy, including need assessment for raising additional capital for maintaining adequate capital under stressed conditions.

40.1.2 Externally Imposed Capital Requirements

In order to strengthen the solvency of Banks / Development Financial Institutions (DFI), SBP through its BSD Circular No. 07 of 2009 dated April 15, 2009 has asked the Banks to raise their minimum paid up capital to Rs. 10 billion free of losses.

SBP through its BPRD Circular # 6 of 2013 dated August 15, 2013 has asked Banks to maintain the minimum Capital Adequacy Ratio (CAR) of 10.65% on standalone as well as on consolidated basis till December 31, 2016. Subsequently, a phase in arrangement has been put in place whereby the banks are required to maintain the following ratios on an ongoing basis:

Year end as of December, 31

	2015	2016	2017	2018	2019
Common Equity Tier-1 - CET1	6.00%	6.00%	6.00%	6.00%	6.00%
Additional Tier-1	1.50%	1.50%	1.50%	1.50%	1.50%
Tier 1	7.50%	7.50%	7.50%	7.50%	7.50%
Total Capital	10.00%	10.00%	10.00%	10.00%	10.00%
*Capital Conservation Buffer - CCB	0.25%	0.65%	1.28%	1.90%	2.50%
Total Capital plus CCB	10.25%	10.65%	11.28%	11.90%	12.50%

* Consisting of CET1 only.

The paid up capital and CAR of the Bank stands at Rs. 11.451 billion and 20.84% of its risk weighted exposure as at December 31, 2016.

The Bank has complied with all externally imposed capital requirements as at year end.

40.1.3 Scope of Applications

The Basel Framework is applicable to the Bank both at the consolidated level (comprising of wholly owned subsidiary - ABL Asset Management Company Limited) and also on a stand alone basis.

40.1.4 Capital Structure - Basel III transition

State Bank of Pakistan vide BPRD circular # 6 dated August 15, 2013 revised and updated Basel II Framework in accordance with Basel III capital reforms and clarifications to further strengthen capital related rules. These instructions form part of transitional arrangement leading to full implementation of Basel III in 2019.

Bank's regulatory capital is analyzed into two tiers:

Tier 1 capital, which includes fully issued, subscribed and paid up capital, balance in share premium account, reserve for bonus issue, general reserves as per the financial statements and net un-appropriated profits, etc. after deductions for investments in the equity of subsidiary companies engaged in banking and financial activities, reciprocal cross holdings in capital instruments of banking, financial and insurance entities and deficit on revaluation of available for sale investments etc.

Tier 2 capital, which includes general provisions for loan losses (up to a maximum of 1.25 % of risk weighted assets), reserves on the revaluation of fixed assets and equity investments (up to a maximum of 45% of the balance in the related revaluation reserves) and subordinated debt (up to a maximum of 50% of Tier 1 capital). Bank has also implemented transitional standards of Basel III up to the extent of 60% as at December 31, 2016 as per road map laid down by SBP through BPRD Circular #6 dated August 15, 2013.

The required capital is achieved by the Bank through:

- a) enhancement in the risk profile of asset mix at the existing volume level;
- b) ensuring better recovery management; and
- c) maintain acceptable profit margins.

40.1.5 Leverage Ratio

The leverage ratio of the Bank as on December 31, 2016 is 5.13% (2015: 5.02%). The ratio has been computed as prescribed by State Bank of Pakistan through Instructions for Basel III Implementation in Pakistan.

As on December 31, 2016; Total Tier 1 capital of the bank amounts to Rs. 67,785,376 thousands (2015: Rs. 63,273,157 thousands) whereas the total exposure measure amounts to Rs. 1,321,677,834 thousands (2015: Rs. 1,260,707,702 thousands).

Shift in leverage ratio is mainly due to decrease in off balance sheet exposure i.e. decrease in securities given as collateral, unconditionally cancellable commitments & commitments in respect of derivatives.

41. RISK MANAGEMENT

The Risk Management Framework (the Framework) provides principles for identifying, assessing and monitoring risk within the Bank. The Framework specifies the key elements of the risk management process in order to maximize opportunities, to minimize adversity and to achieve improved outcomes and outputs based on informed decision making.

Categories of Risk

The Bank generates most of its revenue by accepting Credit, Country, Liquidity and Market Risk. Effective management of these four risks is the decisive factor in our profitability. In addition, the Bank is subject to certain consequential risks that are common to all business undertakings. These risks are grouped under two headings: Operational and Reputational Risk. The Framework is organized with reference to these five risk categories, as detailed below:

Credit Risk This risk is defined as the possibility of loss due to unexpected default or deterioration in credit worthiness of a business partner.

Credit Risk includes Country Risk i.e., the risks that counterparty is unable to meet its foreign currency obligations as a result of adverse economic conditions or actions taken by governments in the relevant country.

Market Risk The risk of loss generated by adverse changes in the price of financial assets or contracts currently held by the Bank (this risk is also known as price risk).

Liquidity Risk The risk that the Bank is unable to meet its payment obligations when they fall due and to replace funds when they are withdrawn; the consequences of which may be the failure to meet obligations to repay depositors and fulfill commitments to lend.

Operational Risk Operational Risk is the risk of loss resulting from inadequate or failed internal processes, people, and systems or from external events. The definition excludes reputational risk.

Reputational Risk The risk of failing to meet the standards of performance or behaviour required or expected by stakeholders in commercial activities or the way in which business is conducted.

Risk Responsibilities

- The Board of Directors is accountable for overall supervision of the risk management process. This is discharged by distributing responsibilities at Board level for their management and determining the manner in which risk authorities are set. The Board is also responsible for approval of all risk policies and ensuring that these are properly implemented. Further, the Board shall also seek appointment of senior management personnel capable of managing the risk activities conducted by the Bank.

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2016

- The Board Risk Management Committee (BRMC) is responsible for ensuring that the overall risk strategy and appetite of the Bank is appropriately defined in the Strategic Plan and recommend the same to the Board of Directors.
- The CEO and Group Chiefs are accountable for the management of risk collectively through their membership of Asset & Liability Committee (ALCO). Independent supervision of risk management activities is provided by the Audit Committee.
- The Risk Management Group is headed by a Group Chief responsible to set-up and implement the Risk Framework of the Bank.

Risk Management Group Organization

Risk management functions have been segregated by business specialization, i.e., Credit Risk, Credit Administration, Technical Appraisal and Enterprise Risk which interalia includes Risk Architecture, Operational Risk and Market & Liquidity Risk. All these functions are operating in tandem to improve and maintain the health of assets and liabilities.

41.1 Credit Risk

Credit risk, the potential default of one or more debtors, is the largest source of risk for the Bank. The Bank is exposed to credit risk through its lending and investment activities. The Bank's credit risk function is divided into Corporate and Financial Institutions Risk and Commercial, SME and Consumer Risk. The functions operate within an integrated framework of credit policies, guidelines and processes. The credit risk management activities are governed by the Credit Policy of the Bank that defines the respective roles and responsibilities, the credit risk management principles and the Bank's credit risk strategy. The policy is supported by a comprehensive Credit Procedures Manual.

The Bank manages three principal sources of credit risk:

- i) Sovereign credit risk on its public sector advances
- ii) Counterparty credit risk on its private sector advances
- iii) Counterparty credit risk on interbank limits

Sovereign Credit Risk

When the Bank lends to public sector borrowers, it prefers obtaining a full sovereign guarantee or the equivalent from the Government of Pakistan (GOP). However, certain public sector enterprises have a well defined cash flow stream and appropriate business model, based on which the lending is secured through collaterals other than GOP guarantee.

Counterparty credit risk on its private sector advances

When the Bank lends to private sector borrowers it does not benefit from sovereign guarantees or the equivalent. Consequently, each borrower's credit worthiness is analyzed on the Credit Application Package that incorporates a formalized and structured approach for credit analysis and directs the focus of evaluation towards a balanced assessment of credit risk with identification of proper mitigates. These risks include Industry Risk, Business Risk, Financial Risk, Security Risk and Account Performance Risk. Financial analysis is further strengthened through use of separate financial spread sheet templates that have been designed for manufacturing / trading concerns, financial institutions and insurance companies.

Counter Party Credit Risk on Interbank Limits

In the normal course of its business, the Bank's Treasury utilizes products such as Reverse REPO and call lending to meet the needs of interbank borrowers and manage its exposure to fluctuations in market, interest and currency rates. Further, these products are also used to temporarily invest Bank's liquidity prior to disbursement. All of these financial instruments involve, to varying degrees, the risk that the counterparty in the transaction may be unable to meet its obligation to the Bank.

Reflecting a preference for minimizing exposure to counterparty credit risk, the Bank maintains eligibility criteria that link the exposure limits to counterparty credit ratings by external rating agencies. For example, the minimum rating for counterparties to be eligible for a banking relationship with the Bank is A.

Country Risk

The Bank has in place a Country Risk Management Framework which has been approved by the Board. This framework focuses on providing detailed roles and responsibilities with respect to country risk assessment as well as limit setting, exposure management and reporting of cross border exposure undertaken by the Bank. The Bank utilizes S&P, Fitch and Moody's country ratings as well as other macroeconomic and external risk factors in assigning a country risk limit. The Credit Monitoring Division is responsible for monitoring of country exposure limits.

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2016

Credit Administration

Credit Administration is involved in minimizing losses that could arise due to security and documentation deficiencies. The Credit Administration Function constantly monitors the security and documentation risks inherent in the existing credit portfolio through four regional credit administration departments located all over the country.

Risk Analytics

To ensure a prudent distribution of asset portfolio, the Bank manages its lending and investment activities within a framework of Borrower, Group and Sector exposure limits and risk profile benchmarks.

Internal Risk Rating Models

The Bank has developed internal risk rating models to assign credit risk ratings to its Corporate, Financial Institutions, SME and Consumer borrowers. These models are based on expert judgment, comprising both quantitative and qualitative factors. The rating models have been automated through the Bank's Risk Assessment and Management System (RAMS), and are given due weightage while extending credit to these asset classes. The Bank has also implemented a Facility Risk Rating Model to complement the Obligor Risk Rating Models.

Stress Testing

The Bank conducts stress testing of its existing advances portfolio. On a quarterly basis, an extensive stress testing activity is conducted by giving shocks to all assets of the Bank in line with SBP requirements and assessing its resulting effect on capital adequacy. The major shocks being applied relate to the deterioration in internal ratings of the obligors, adverse shift of regular borrowers to non-performing status, default by large borrowers or group of borrowers and their resultant impact on the provisioning requirements and capital adequacy.

Automated System

In order to ensure that monitoring of the regular lending portfolio focuses on problem recognition, an automated system in the form of a 'Watch-List' category has been instituted to cover the gap between Regular and Substandard categories. Identification of an account on the said 'Watch-List' triggers the lending branch to carry out an assessment of the borrower's ability to rectify the identified problem / weakness within a reasonable time-frame, consider tighter structuring of facilities, confirm that there are no critical deficiencies in the existing security position and, if possible, arrange for strengthening of the same through obtaining additional collateral. It should however, be noted that the 'Watch-List' category of accounts is part of the Bank's Regular portfolio and does not require any provisioning.

In some cases, an account may even be downgraded directly from a Regular to Sub-Standard or worse on subjective basis based on the severity of the trigger involved. The Bank has also implemented an Early Warning Alert engine that relays email alerts to users based on breach of defined triggers.

Management of Non Performing Loans

The Bank has a Special Asset Management Group (SAMG), which is responsible for management of non performing loans. SAMG undertakes restructuring / rescheduling of problem loans, as well as litigation both civil and criminal for collection of debt.

For the non-performing loan portfolio, the Bank makes a specific provision based on an assessment of the credit impairment of each loan. At the end of 2016, the coverage ratio was 91.94% of the non-performing loan portfolio.

The accounting policies and methods used to determine specific and general provision are given in the Note 5 and 10 to these financial statements. The movement in specific and general provision held is given in Note 10.4 to these financial statements.

Portfolio Diversification

Efficient diversification has been a key consideration for maintaining healthy advances portfolio. The diversification takes into account the volatility of various sectors by placing concentration limits on lending to these sectors thereby ensuring a diversified advances portfolio. Composition of the Bank's advances portfolio is significantly diversified. Power, Gas, Petroleum, Chemical, Commodity, Textiles and Financial sector are major contributors to the advances portfolio. These sectors are considered to be the biggest contributors towards country's GDP as well.

41.1.2 Credit Risk - General Disclosures

The Bank is following standardized approach for all its Credit Risk Exposures.

41.1.2.1 Credit Risk: Disclosures for portfolio subject to Standardized Approach and supervisory risk weights in IRB approach Basel II specific

Under standardized approach, the capital requirement is based on the credit rating assigned to the counterparties by the External Credit Assessment Institutions (ECAIs) duly recognized by SBP for capital adequacy purposes. In this connection, the Bank utilizes the credit ratings assigned by ECAIs and has recognized agencies such as PACRA (Pakistan Credit Rating Agency), JCR-VIS (Japan Credit Rating Company – Vital Information Systems), Fitch, Moody's and Standard & Poors which are also recognized by the SBP. The Bank also utilizes rating scores of Export Credit Agencies (ECA) participating in the "Arrangement on Officially Supported Export Credits".

The Standardised Approach to credit risk sets out fixed risk weights corresponding, where appropriate, to external credit assessment levels or for unrated claims.

Selection of ECAIs

The Bank selects particular ECAI(s) for each type of claim. Amongst the ECAIs that have been recognised as eligible by SBP, the following are being used against each respective claim type.

Sovereigns Exposures: For foreign currency claims on sovereigns, the Bank uses country risk scores of Export Credit Agencies (ECA) participating in the "Arrangement on Officially Supported Export Credits" available on OECD's website.

Exposures to Multilateral Development Banks (MDBs): For exposures on MDBs not eligible for a 0% risk weight, ratings of Moody's, S&P and Fitch are being used to calculate risk-weighted assets.

Exposures to Public Sector Entities (PSEs): For PSE exposures, ratings of PACRA and JCR-VIS are used to arrive at risk weights.

Bank Exposures: For foreign banks (i.e., incorporated outside Pakistan), ratings of Moody's, S&P and Fitch is being used to arrive at risk weights. However, for local banks (i.e., incorporated in Pakistan) ratings of PACRA and JCR-VIS are used.

Corporate Exposures: Ratings assigned by PACRA and JCR-VIS are used for claims on Corporates (excluding equity exposures).

Use of ECAI Ratings

The Bank prefers solicited ratings over unsolicited ratings at all times, owing to the greater degree of accuracy (in general) associated with solicited ratings as compared to unsolicited ratings. Unsolicited ratings may only be used in cases where a solicited rating is not available.

Mapping to SBP Rating Grades

The selected final ratings (after application of the principles stated above) for all exposures need to be translated to the standard rating grades given by the SBP. In this regard, the mapping tables to be used for converting ECAI ratings to SBP rating grades are given below:

41.1.2.2 Credit Risk: Disclosures with respect to Credit Risk Mitigation for Standardized Approach

The Bank has adopted the Simple Approach of Credit Risk Mitigation for the Banking Book. Since, the Trading Book of the Bank only comprises equity investments and units in open ended mutual funds, therefore no Credit Risk Mitigation benefit is taken in the Trading Book. In instances where the Bank's exposure on an obligor is secured by collateral that conforms with the eligibility criteria under the Simple Approach of CRM, then the Bank reduces its exposure under that particular transaction by taking into account the risk mitigating effect of the collateral for the calculation of capital requirement i.e. risk weight of the collateral instrument securing the exposure is substituted for the risk weight of the counter party.

The Bank accepts cash, lien on deposits, government securities and eligible guarantees etc. under the simple approach of Credit Risk Mitigation. The Bank has in place detailed guidelines with respect to valuation and management of various collateral types. In order to obtain the credit risk mitigation benefit, the Bank uses realizable value of eligible collaterals to the extent of outstanding exposure.

Since no specific asset is available by way of security in the context of unfunded credit protection, the creditworthiness and reliability of the provider and the validity and enforceability of that party's obligations is of paramount importance. Therefore, unfunded credit protection is only "eligible" if it is provided by an appropriate counterparty which may include National Government, Central Bank and other reputable financial institutions etc.

41.2 Equity Position Risk in the Banking Book

The Bank makes investment for variety of purposes. Some of the investment positions of equity holding are made for long term revenue generation as part of strategic initiatives, while other equity holdings are held to earn capital gain and dividend to support the Bank's business activities.

Classification of investments

Under SBP's directives, equity investment may be classified as 'held-for-trading (HFT)', 'available-for-sale (AFS)' or 'Investment in Subsidiaries and Associates'. Some of the equity investments are listed and traded in public through stock exchanges, while other investments are unlisted.

Policies, valuation and accounting of equity investments

In accordance with the requirements of the SBP, quoted securities are carried at market value whereas investments in subsidiaries are accounted for in accordance with the relevant International Accounting Standard as applicable in Pakistan.

The unrealized surplus / (deficit) arising on revaluation of the bank's 'held-for-trading' investment portfolio is taken to the profit and loss account. The surplus / (deficit) arising on revaluation of quoted securities classified as 'available-for-sale' is kept in a separate account shown in the balance sheet below equity. The surplus / (deficit) arising on these securities is taken to the profit and loss account when actually realised upon disposal.

Unquoted equity securities are valued at the lower of cost and break-up value. Subsequent increases or decreases in the carrying value are credited / charged to profit and loss account. Break-up value of equity securities is calculated with reference to the net assets of the investee company as per the latest available audited financial statements. Investments in other unquoted securities are valued at cost less impairment losses, if any. Provision for diminution in the value of securities is made after considering impairment, if any, in their value.

Profit and loss on sale of investments is included in income currently.

The cumulative gain of Rs. 74,521 million (2015: 64,481 million) was realized from sale of equity securities / certificates of close ended mutual funds and units of open end mutual funds; however unrealized gain of Rs. 21,713.786 million (2015: Rs. 15,312.031 million) was recognized in the statement of financial position in respect of 'available-for-sale' securities.

41.2.1 Market Risk

The Bank is exposed to Foreign Exchange Rate Risk, Interest Rate Risk and Equity Price Risk.

Market Risk performs risk measurement, monitoring and control functions through use of various risk procedures and models. To give it a formal structure, all the policies and guidelines are approved by the Board and relevant management committees. The Bank appointed services of a foreign risk advisory firm for assistance in establishment of Market Risk Management Framework.

Market Risk Pertaining to the Trading Book

Trading Book

A trading book consists of positions in financial instruments held either with trading intent or in order to hedge other elements of the trading book. To be eligible for trading book, financial instruments must be held with the intent of trading and free of any restrictive covenants on their tradability. In addition, positions need to be frequently and accurately valued and the portfolio should be actively managed.

The Bank's trading book includes securities classified as 'held-for-trading', 'Open Ended Mutual Fund' and listed equity placed in 'available-for-sale'. These positions are exposed to all forms of market risk, therefore, are managed actively.

Risk Pertaining to Banking Book Investment Portfolio

All investments excluding trading book are considered as part of banking book. Banking book includes:

- 'available-for-sale' securities - (other than listed equity)
- 'held-to-maturity' securities

Treasury investments parked in the banking book include:

- Government securities
- Capital market investments
- Investments in bonds, debentures, etc.

Due to the diversified nature of investments in banking book, it is subject to interest rate and equity price risk.

Interest Rate Risk – Banking Book

Government securities (PIBs & T-Bills), Bonds, Debentures, etc. and other money market investments are subject to interest rate risk. To capture the risk associated with these securities, extensive modelling is being done with respect to duration analysis. Stress testing and scenario models are also in place to capture the sensitivity of the portfolio to adverse movement in interest rates. For prudent risk management, all money market investments are marked to market to assess changes in the market value of investments due to interest rate movements.

Stress Testing

The Bank also conducts Stress Testing of the Bank's investment portfolio to ascertain the impact of various scenarios on the capital adequacy and sustainability of the Bank. The exercise assumes various stress conditions, with respect to Market Risk (Rise or Fall in Interest Rates, leading to interest rate risk), Equity Price Risk resulting from Stock Market movements, FX Rate Risk leading from adverse movements in exchange rates and Liquidity Risk (ability to meet short-term obligations if there is a run on deposits). Stress testing is also conducted on various macro-economic scenarios to test the resilience of the Bank.

41.2.2 Foreign Exchange Risk

Foreign Exchange Risk is the risk of loss arising from fluctuations of exchange rates. Bank's FX Risk is largely mitigated by following a matched funding policy whereas for any mismatched exposures, the Bank utilizes appropriate derivative instruments such as Forwards and Swaps.

The majority of net foreign currency exposure is in US Dollars. The Bank carefully monitors the net foreign currency exposure and the effect of exchange rate fluctuations by conducting sensitivity analysis and stress testing, as well as utilizing the currency forwards and swaps to hedge the related exposure.

41.2.3 Equity Position Risk

The Board, based on the recommendations of ALCO, approves exposure limits applicable to investments in Trading and Banking Book. Equity securities are perpetual assets and are classified under either 'held-for-trading' Portfolio or 'available-for-sale' Portfolio.

Concentration Risk

ALCO is responsible for making investment decisions regarding capital market investments, whereas limit setting with respect to portfolio, sector and scrip wise limits is done by BRMC / BOD to guard against concentration risk. Further, these limits are reviewed and revised periodically. The capital market desk ensures compliance of concentration limits whereas limit monitoring is done by Market & Liquidity Risk Division on a daily basis and breaches (if any) are promptly reported with proper reason.

Price Risk

Trading and investing in equity securities give rise to price risk. ALCO and Capital Market Unit both ensure that through prudent trading strategy and use of equity futures, the equity price risk is mitigated, albeit to a certain extent.

Liquidity Risk

Liquidity risk is the risk that the Bank is unable to fund its current obligations and operations in the most cost efficient manner. Bank's BoD have delegated the responsibility to ALCO for ensuring that Bank's policy for liquidity management is adhered to on a continual basis.

Other than customer's deposits, the Bank's funding source is the inter-bank money market. Change in the government monetary policy and market expectations of interest rate are all important factors that can adversely affect our key funding source. Efficient and accurate planning plays a critical role in liquidity management. Our MIS provides information on expected cash inflows/out flows which allow the Bank to take timely decisions based on the future requirements.

Gap analysis, stress testing and scenario analysis is done on periodic basis to capture any adverse effect of market movements on liquidity position. Based on the results produced, ALCO devise the liquidity management strategy to maintain sufficient liquidity to deal with any related catastrophe.

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2016

41.5 Operational Risk

The Bank, like all financial institutions, is exposed to many types of operational risks, including the potential losses arising from internal activities or external events caused by breakdowns in information, communication, physical safeguards, business continuity, supervision, transaction processing, settlement systems and the execution of legal, fiduciary and agency responsibilities.

In accordance with the BoD approved Operational Risk Policy, Bank maintains a system of internal controls designed to keep operational risk at appropriate levels, in view of the bank's financial strength and the characteristics of the activities and market in which it operates. These internal controls are periodically updated to conform to industry best practice.

Further, detailed data of operational losses is being maintained, in conformance with regulatory guidelines. Major Operational Risk events are also analyzed from the control breaches perspective and mitigating controls are assessed on design and operating effectiveness. Quarterly updates on Operational Risk events are presented to senior management and Board's Risk Management Committee & BoD.

The Bank has also developed a Business Continuity Plan applicable to all its functional areas. The Bank updates functional BCPs on annual basis or at any process change.

The Bank is also implementing internationally accepted Integrated Framework on Internal Control issued by the Committee of Sponsoring Organizations of the Tread way Commission (COSO), with a view to consolidate and enhance the existing internal control processes.

The Bank with permission of SBP is conducting a parallel run for Alternate Standardized Approach (ASA) for Basel II – Operational Risk Capital Charge Reporting, which signifies readiness of the Bank to move to advance approach.

42. NON ADJUSTING EVENT AFTER THE REPORTING DATE

The Board of Directors of the Bank in its meeting held on February 09, 2017 has proposed a cash dividend in respect of 2016 of Rs. 1.75 per share (2015: cash dividend Rs. 1.75 per share). This appropriation will be approved in the forthcoming Annual General Meeting. The unconsolidated financial statements of the Bank for the year ended December 31, 2016 do not include the effect of these appropriations which will be accounted for in the unconsolidated financial statements for the year ending December 31, 2017.

43. GENERAL

43.1 These accounts have been prepared in accordance with the revised forms of annual financial statements of the banks issued by the State Bank of Pakistan through its BSD Circular No. 04 dated February 17, 2006.

43.2 Corresponding figures have been re-arranged and re-classified to reflect more appropriate presentation of events and transactions for the purpose of comparison.

44. DATE OF AUTHORIZATION FOR ISSUE

These financial statements were authorized for issue on February 09, 2017 by the Board of Directors of the Bank.

ANNEXURE III

Islamic Banking Business

Shariah Board's Report

For the year ended December 31, 2016

The Board of Directors and Executive Management are solely responsible to ensure that the operations of Allied Bank Limited - Islamic Banking Group (ABL-IBG) are conducted in compliance with Shariah principles at all times. Shariah Board is pleased to submit a report on the overall Shariah compliance environment of ABL-IBG.

To form basis of our opinion as expressed in this report, Shariah compliance department of the Bank carried out reviews of each class of transactions, the relevant documentation and process flows on sample basis. Besides, we have also reviewed the reports of the internal Shariah audit of ABL-IBG conducted during the year.

Based on the above, we are of the view that:

The business affairs of ABL-IBG, especially with reference to transactions, relevant documentation and procedures, performed during the year 2016 are in conformity with the principles and guidelines of Shariah issued by Shariah Board and State Bank of Pakistan.

ABL-IBG has put a mechanism in place to ensure Shariah compliance in their overall operations and will keep its focus on continuous improvement to cater the growing branch network over the coming years. The system within the Bank is sound enough to ensure that amounts realized from prohibited sources, if any, is not made part of the income. During the Shariah compliance review, it was confirmed that ABL-IBG did not earn any non-Shariah compliant income and thus no income was credited to Charity account. However, Rs. 0.005 million was transferred to charity payable account in the normal course of business on account of delay in payments by customers and Rs. 0.014 million was granted to a charitable institution.

As part of the Shariah Governance Framework, a separate internal Shariah audit function has been formed under the Audit and Risk Review Group of the bank which will play a significant role in achieving the objective of ensuring Shariah compliance by evaluating the adherence to Shariah guidelines prescribed by Shariah Board, Resident Shariah Board Member and Shariah guidelines of Islamic Banking Division of SBP, in every activity under taken by the ABL-IBG.

Shariah compliance department of the Bank makes extra effort to understand the customer's business model before formulation of process flow of any facility. Factory visits and reviews of business processes and transactions are undertaken to ensure that the facility being offered to the customer is delivered through a process that ensures compliance with Shariah. Moreover, random physical inspections and concrete measures were taken to verify the purchases' evidences and invoices of financing transactions, thus further improving the quality of internal controls.

During the year 2016, ABL-IBG has successfully opened 50 new branches. Hence, the total branch network reached to 77 as on December 2016.

Review and Development:

Asset Review: During the year, financing portfolio has increased to Rs. 605 million, which mainly constitutes of Murabaha (74%), Ijarah (17%) and Diminishing Musharakah (9%). Besides, investment portfolio has also risen to Rs. 7,247 million mainly constituting of Government Ijarah Sukuk and Corporate Sukuk.

Liability Review: The total deposits of ABL-IBG have increased by 266%, reaching to Rs. 8,554 million as at December 31, 2016 compared to Rs. 2,334 million as of last year.

Profit Distribution Policy: Shariah compliance also conducted review of the process of profit distribution and charging of losses to Mudaraba based remunerative deposits, which was reviewed and approved on monthly basis, is in conformity with the Shariah rules and principles and pool management guidelines of State Bank of Pakistan.

Product Development: Following major milestones were achieved during the year 2016:

Following policies and procedures were approved during the year:

- Islamic Export Refinance Scheme Manual
- Treasury & Investment Policy
- Credit Policy (with relevance to Islamic Banking)
- Credit Procedural Manual (with relevance to Islamic Banking)

Following asset products were approved during the year:

- Istisna Finance
- Forward Cover
- Business Musharakah
- Bai-Muajjal Securities

ANNEXURE III

Islamic Banking Business Shariah Board's Report

For the year ended December 31, 2016

Following liability products were approved during the year:

- Allied Islamic Institutions Account
- Allied Islamic Premium Account
- Allied Islamic Notice Period Certificate
- Allied Islamic Express Account

Besides the above, Shariah compliance department has also structured 05 customized process flows for asset products and reviewed 2 customized solutions.

Staff Training

In order to enhance the Islamic Banking knowledge and expertise, training on Islamic Banking concepts as well as on Islamic Banking products were imparted to all staff of the Islamic Banking Group. Shariah compliance department, through Management Development Center of ABL, has arranged various sessions and more than 170 employees attended these sessions. It is expected that management will keep its continued focus on this area and arrange regular training programs for existing staff of ABL-IBG and of conventional groups providing services to ABL-IBG besides new staff. This will ensure capacity building as well as address the possible shariah non-compliance risk. Moreover, six employees attended training session conducted by NIBAF and other reputed Islamic Banking training institutes. It is expected that management will keep its continued focus on this area and arrange regular training programs.

Recommendations

Following are some areas, which require continuous focus:

1. ABL-IBG has significantly improved in the area of product development during the year through deployment of dedicated experienced resources. We expect that ABL-IBG will continue its focus on introducing more products during 2017 besides working on further refinement of the existing products.
2. Bank's increased focus on customers' awareness regarding Islamic banking is well appreciated. It is recommended that such programs should be continued in future as well.
3. Bank's policy of appointing new staff members for Islamic Banking branches with inclination / commitment to the ideology of Islamic banking must be continued. Further, the continued focus on employees' training related to Islamic Banking products and services offered by the ABL-IBG is also recommended; with specific focus on front line staff so as to further enhance customer satisfaction especially towards Shariah understanding.

Further, special attention of the management is drawn towards the followings:

- i) Staff provident fund has been invested in Shariah compliant assets. We recommend that these assets should be tagged / segregated specifically for ABL-IBG staff.
- ii) Shariah compliant financing products have already been approved by Shariah Board for staff working at ABL-IBG. It is recommended that their implementation is expedited.

We pray to Almighty ALLAH to provide us guidance to adhere to the Shariah principles in day-to-day operations, to absolve our mistakes and for the success of Islamic Banking in Pakistan.

- کریڈٹ پالیسی (اسلامی بینکاری سے متعلقہ)
- کریڈٹ پروسیجرنگ (اسلامی بینکاری سے متعلقہ)
- اثاثوں سے متعلق مندرجہ ذیل پراڈکٹس کو اس سال کے دوران منظور کیا گیا:-
- اسٹینڈنڈ فنانس (Istisna finance)
- فارورڈ کور (Forward Cover)
- بزنس مشارکہ (Business Musharka)
- بیع مؤجل سکیم ریئر (Bai Mujjal Securities)
- ذمہ داریوں سے متعلق مندرجہ ذیل پراڈکٹس کو اس سال کے دوران منظور کیا گیا۔

- الاینڈ اسلامک انشورینس اکاؤنٹ
- الاینڈ اسلامک پریسچر اکاؤنٹ
- الاینڈ اسلامک نوٹس ہیرڈیسٹریکٹ
- الاینڈ اسلامک ایکسپریس اکاؤنٹ

مذکورہ بالا اقدامات کے علاوہ شریعہ کماٹنس ڈیپارٹمنٹ نے اثاثوں سے متعلقہ پانچ پراسس فلو (Process Flow) کسٹمر کی ضرورت کے مطابق وضع کئے اور وہ تجارتی کارکنوں کی ضرورت کے مطابق حل پیش کیا۔

عمل کی تربیت

اسلامی بینکاری سے متعلق معلومات اور مہارتوں میں کھار پیدا کرنے کے لئے اسلامی بینکاری کے نظریات کے ساتھ ساتھ اسلامی بینکاری کی پراڈکٹس کے بارے میں اسلامک بینکنگ گروپ (IBG) کے تمام عمل کو تربیت فراہم کی گئی۔ شریعہ کماٹنس ڈیپارٹمنٹ نے منجمنٹ ڈیولپمنٹ سنٹر کے تعاون سے مختلف نشستوں کا انعقاد کیا جن میں 170 سے زائد ملازمین نے شرکت کی۔ اس بات کی توقع کی جاتی ہے کہ انتظامیہ اپنی توجہ اس جانب مبذول رکھے گی اور نئے ملازمین اور ABL-IBG کے موجودہ ملازمین کے ساتھ ساتھ کونسل گروپ کے ان ملازمین کے لئے بھی مستقل بنیادوں پر ایسے پروگرامز کا انعقاد کرتی رہے گی جو ABL-IBG کو اپنی خدمات فراہم کرتے ہیں۔ اس سے عمل کی صلاحیتوں میں یقینی اضافہ کے ساتھ ساتھ شرعی اصولوں کی خلاف ورزی جیسے مکذہدشات کا بھی تدارک ہوگا۔ اس کے علاوہ چھ ملازمین نے NIBAF اور اسلامی بینکنگ کی تربیت دینے والے دیگر معروف اداروں کی جانب سے فراہم کردہ تربیتی نشستوں میں بھی شرکت کی۔ اس بات کی توقع کی جاتی ہے کہ انتظامیہ اس جانب اپنی توجہ مبذول رکھے گی اور مستقل بنیادوں پر تربیتی پروگرامز کا انعقاد جاری رکھے گی۔

تجاویز / سفارشات:

مندرجہ ذیل معاملات کے لئے مسلسل توجہ درکار ہے:

- 1- ABL-IBG نے سال کے دوران پراڈکٹ ڈیولپمنٹ کے شعبے میں تجربہ کار، ماہر افرادی تعیناتی کی ذریعے حوصلہ افزا اصلاحات کی۔ ہم امید کرتے ہیں کہ ABL-IBG اپنی موجودہ پراڈکٹس میں مزید بہتری لانے کے ساتھ ساتھ 2017 میں نئی پراڈکٹس متعارف کرانے پر بھی اپنی توجہ مرکوز رکھے گا۔
 - 2- بینک کی اسلامی بینکاری سے متعلق اپنے صارفین کو آگاہی فراہم کرنے کے حوالے سے بروہتی ہوئی دلچسپی قابل قدر ہے۔ یہ تجویز دی جاتی ہے کہ مستقبل میں بھی اس قسم کی نشستوں کا انعقاد جاری رکھا جائے۔
 - 3- اسلامی بینکاری کی برانچوں میں نئے عمل کی اسلامی بینکاری کے نظریہ سے وابستگی کی بنیاد پر تعیناتی کی پالیسی کو لازمی طور پر جاری رہنا چاہیے۔ اس کے علاوہ ملازمین کے لئے اسلامی بینکیوں کی مصنوعات اور خدمات کے حوالے سے تربیتی پروگرامز پر توجہ مرکوز رکھنے کی سفارش کی جاتی ہے، جس میں خاص طور پر صارفین کے ساتھ براہ راست معاملات کرنے والے (Front Desk) عمل کی تربیت کو مد نظر رکھا جائے، تاکہ شرعی معاملات کی سمجھ بوجھ کے حوالے سے صارفین کے اعتماد میں اضافہ ہو سکے۔
- اس کے علاوہ انتظامیہ کو مندرجہ ذیل معاملات کی طرف خصوصی توجہ دلائی جاتی ہے:-

- (i) عمل کے پراڈکٹ فنڈ کی شرعی طور پر منظور شدہ اثاثوں میں سرمایہ کاری کی گئی ہے۔ ہم یہ تجویز دیتے ہیں کہ ایسے اثاثوں کو ABL-IBG کے عمل کے لئے خد آ کر مختص کر دیا جائے۔
- (ii) ABL-IBG میں کام کرنے والے عمل کے لئے شریعہ کماٹنس ڈیپارٹمنٹ پراڈکٹس کی منظوری شریعہ بورڈ سے پہلے ہی دے رکھی ہے۔ یہ سفارش کی جاتی ہے کہ ان کے جلد نفاذ کو یقینی بنایا جائے۔
- (iii) ہم اللہ رب العزت سے دعا گو ہیں کہ وہ ہمیں روزمرہ معاملات میں شرعی اصولوں پر عمل پیرا ہونے کی توفیق عطا فرمائے، ہماری لٹرشوں سے روزگزر فرمائے اور پاکستان میں اسلامی بینکاری کو کامیابی عطا فرمائے۔

Islamic Banking Business

For the year ended December 31, 2016

اسلامک بینکنگ بزنس

شریعی بورڈ کی رپورٹ برائے اختتام سال 31 دسمبر 2016

بورڈ آف ڈائریکٹرز اور اعلیٰ انتظامیہ بنیادی طور پر اس بات کے ذمہ دار ہیں کہ وہ لائسنس یافتہ بینکنگ کے اسلامک بینکنگ گروپ (ABL-IBG) میں ہونے والے معاملات کی ہمدقت شرعی اصولوں کے مطابق انجام دی گئی ہو۔

ABL-IBG میں شریعت کی پاسداری کو یقینی بنانے کے حوالے سے وضع کردہ مجموعی نظام کے بارے میں رپورٹ پیش کرتے ہوئے شریعی بورڈ کو خوشی محسوس ہو رہی ہے۔

اس رپورٹ میں ذکر کردہ رائے کی بنیادوں کو استوار کرنے کے لئے بینک کے شریعی کیمپلائنس ڈیپارٹمنٹ نے بینک میں ہونے والے تمام قسم کے معاملات سے متعلقہ دستاویزات اور ان کی انجام دہی کے طریقہ کار کا مضمون کی بنیاد پر جائزہ لیا۔ اس کے علاوہ ہم نے ABL-IBG کے دوران سال کے لئے انٹرنل شریعی آڈٹ کی رپورٹوں پر بھی نظر ثانی کی۔

مندرجہ بالا اعمال کی بنیاد پر ہمارا نقطہ نظر یہ ہے کہ:

سال 2016 کے دوران ABL-IBG میں کئے گئے کاروباری معاملات بالخصوص لین دین کے معاملات، ان سے متعلقہ دستاویزات اور طریقہ کار شریعی بورڈ اور اسٹیٹ بینک آف پاکستان کی جانب سے جاری کردہ شرعی اصول و ضوابط سے مکمل مطابقت رکھتے ہیں۔

ABL-IBG نے تمام معاملات میں شریعی کیمپلائنس کو یقینی بنانے کے لئے ایک مؤثر نظام وضع کر رکھا ہے اور آئندہ سالوں میں بڑھتے ہوئے براؤنچ نیٹ ورک کی ضروریات کے پیش نظر اس نظام میں مسلسل بہتری پر اپنی توجہ مرکوز کئے ہوئے ہے۔ بینک کے اندر موجود نظام میں اس بات کو یقینی بنانے کی صلاحیت ہے کہ کسی بھی قسم کی ناجائز ذرائع سے حاصل ہونے والی رقم (اگر بالفرض ہوں) کو آمدنی کا حصہ نہ بننے دیا جائے۔ شریعی کیمپلائنس کے جائزے کے دوران اس بات کی تصدیق ہو گئی کہ ABL-IBG نے غیر شرعی طریقے سے کوئی رقم نہیں کمائی ہے، لہذا اخلاقی کھاتہ (Charity Fund) میں کوئی رقم جمع نہیں کرائی گئی۔ تاہم صارفین کی جانب سے روزمرہ کاروباری معاملات کے دوران ادائیگیوں کی تاخیر کی مدتیں 0.005 ملین روپے قلمی کھاتے میں جمع کرائے گئے اور 0.014 ملین روپے ایک خیراتی ادارے کو دئے گئے۔

شریعی گورننس فریم ورک کی ہدایات پر عمل کرتے ہوئے بینک کے آڈٹ اینڈ رسک ریویو گروپ کے ماتحت ایک مستقل انٹرنل شریعی آڈٹ کا شعبہ قائم کیا گیا ہے جو ABL-IBG کی جانب سے کی گئی ہر سرگرمی کو شریعی بورڈ اور ریگولیٹری بورڈ ممبر کی جانب سے جاری کردہ شرعی اصول و ضوابط اور اسٹیٹ بینک آف پاکستان کے اسلامک بینکنگ ڈویژن کی جانب سے ملنے والی شرعی ہدایات سے ہم آہنگ کر کے شریعی کیمپلائنس کے مقاصد کے حصول کو یقینی بنانے میں اہم کردار ادا کرے گا۔

کسی بھی سہولت کے لئے طریقہ کار وضع کرنے سے قبل بینک کا شریعی کیمپلائنس ڈیپارٹمنٹ صارف کے کاروبار کے ڈھانچے کو سمجھنے میں اپنی پوری صلاحیتیں صرف کرتا ہے، جیکٹری کے دورے کئے جاتے ہیں اور کاروبار کے طریقہ کار اور معاملات کا مکمل جائزہ لیا جاتا ہے تاکہ اس بات کو یقینی بنایا جاسکے کہ صارف کو یہ سہولت جس طریقہ کار سے دی جا رہی ہے وہ شرعی اصولوں سے مکمل مطابقت رکھتا ہے۔

سال 2016 کے دوران ABL-IBG نے الحمد للہ کامیابی کے ساتھ 50 نئی برانچوں کا افتتاح کیا، چنانچہ دسمبر 2016 میں برانچوں کی تعداد 77 تک جا پہنچی ہے۔

ریویو آف ایٹس

18 ماہوں کا جائزہ (Review of Assets): سال کے دوران قرضہ جات کا مجموعی حجم 605 ملین روپے تک بڑھ چکا ہے جس کا بیشتر یعنی (74%) مراہمہ (17%) اجارہ اور (9%) شرکت قرضہ پر مشتمل ہے۔

دوسری طرف سرمایہ کاری کا مجموعی حجم بھی بڑھ کر 7,247 ملین ہو چکا ہے، جس کا اکثر حصہ حکومتی اجارہ سٹاک اور کارپوریٹ سٹاک پر مشتمل ہے۔

واجبات کا جائزہ (Review of Liabilities): گزشتہ سال کے 2,334 ملین کے مقابلے میں ABL-IBG کے مجموعی ڈپازٹس 266 فیصد اضافے کے ساتھ اس سال 31 دسمبر، 2016 میں 8,554 ملین روپے تک جا پہنچے ہیں۔

تقسیم نفع کی پالیسی: شریعی کیمپلائنس نے مضاربہ کی بنیاد پر قائم کئے گئے پیداواری کھاتوں (جن کا ماہانہ بنیادوں پر جائزہ اور منظوری لی جاتی ہے) میں نفع اور نقصان کی تقسیم کے طریقہ کار کا جائزہ لیا اور اس کو اسٹیٹ بینک آف پاکستان کی پالیسی کے حوالے سے ہدایات اور شرعی اصول و ضوابط سے ہم آہنگ پایا۔

مصنوعات کی تیاری (Product Development): سال 2016 کے دوران مندرجہ ذیل اہم سگم سیل عبور کئے گئے۔

دوران سال مندرجہ ذیل پالیسیوں اور حکمت عملیوں کی منظوری دی گئی:-

- اسلامی برآمدات میں ری فنانس اسکیم کا مینول
- ٹریڈری اور سرمایہ کاری کی پالیسی

ANNEXURE III

Islamic Banking Business

Notes to the Annexure III

for the year ended December 31, 2016

A-III. 1. POOLS MANAGEMENT

Allied Bank Limited – Islamic Banking Group is maintaining the following pools for profit declaration & distribution under Mudaraba, Wakala and Musharka modes:

General Pool

Under the general deposits pool, the Bank - IBG accepts funds on Mudaraba basis from depositors (Rab-ul-Maal) where the Bank - IBG acts as Manager (Mudarib) and invests the funds in the Shariah compliant modes of financings, investments and placements. When investing funds, the Bank prioritizes the funds received from depositors over the funds generated from own sources.

The profit of General Pool is calculated after deducting the directly incurred expenses, if any, from the income earned on all the remunerative assets managed by the pool. No provision against any non-performing asset of the pool are passed on is charged to the pool except on the actual loss / write-off of such non-performing asset. The profit of the pool is shared between equity and other members of the pool at gross level (before charging of mudarib fee) as per the investment ratios. The profit of the pool is shared among the members of the pool on pre-defined mechanism based on the profit weightages announced before the profit calculation period after charging of mudarib fee.

Specific Pools

Specific pool(s) are created where the customers desire to invest in high/low yield assets. These pool(s) rates are higher/lower than the general pool depending on the assets. In case of loss in special pool, the loss will be borne by the Special pool members. The net return on the pool is arrived at after deduction of direct costs from the gross return earned on the pool. From the net return, profit is paid to the Mudarib in the ratio of the Mudarib's equity in the pool to the total pool. The balance represents the distributable profit.

Parameters associated with risk & rewards:

Following are the considerations attached with risk & reward of modaraba based pools:

- Period, return, safety, security and liquidity of investment
- Financing proposals under process at various stages and likely to be extended in the near future.
- Expected withdrawals of deposits according to the maturities affecting the deposit base.
- Expected amount of procurement of deposit during coming days as a result of concerted marketing efforts of & ABL-IBG.
- Maturities of funds obtained from Principal Office, Islamic Banking Institutions and Shariah compliant organizations as regulated in Pakistan.
- Element of Risk attached to various types of investments.
- SBP rules & Shariah Clearance.

Treasury Pools

Treasury Pools are managed on the basis of Musharakah / Wakala wherein ABL-IBG and Financial Institutions share actual return earned by the pool according to pre-defined profit sharing ratio.

The deposits and funds accepted under the above mentioned pools are invested in diversified sectors and avenues of the economy / business along with investment in Government of Pakistan backed Ijarah Sukuks & other Shariah Compliant assets.

The risk characteristic of each pool mainly depends on the assets and liability profile of each pool.

2. a) BASIS OF PRESENTATION

These consolidated financial statements consist of holding company and its subsidiary company for the year ended December 31, 2016.

In accordance with the directives of the Federal Government regarding the shifting of the banking system to Islamic modes, the State Bank of Pakistan (SBP) has issued various circulars from time to time. Permissible forms of trade-related modes of financing include purchase of goods by banks from their customers and immediate resale to them at appropriate mark-up in price on deferred payment basis. The purchases and sales arising under these arrangements are not reflected in these consolidated financial statements as such but are restricted to the amount of facility actually utilized and the appropriate portion of mark-up thereon.

These consolidated financial statements have been presented in Pakistan Rupees (PKR), which is the currency of the primary economic environment in which the Group operates and functional currency of the Group as well. The amounts are rounded to nearest thousand.

The US Dollar amounts reported in the statement of financial position, profit and loss account, statement of comprehensive income and statement of cash flow are stated as additional information, solely for the convenience of the users of financial statements. For the purpose of translation to US Dollar, spot rate of Rs 104.5985 per US Dollar has been used for 2016 and 2015, as it was the prevalent rate on reporting date.

Notes to the Consolidated Financial Statements

for the year ended December 31, 2016

b) BASIS OF CONSOLIDATION

The assets and liabilities of subsidiary company have been consolidated on a line by line basis and the carrying value of investment in subsidiary held by the Bank is eliminated against the shareholders' equity in the consolidated financial statements.

Material intra-group balances and transactions have been eliminated.

c) BASIS OF MEASUREMENT

These consolidated financial statements have been prepared under the historical cost convention except for the following which are stated at revalued amounts / fair values / present values:

- Non-banking assets acquired in satisfaction of claims (Note 5.1)
- Investments (Note 5.4);
- Certain operating fixed assets (Note 5.6);
- Staff retirement and other benefits (Note 5.8); and
- Derivative financial instruments (Note 5.14.2).

3. STATEMENT OF COMPLIANCE

3.1 These consolidated financial statements have been prepared in accordance with approved accounting standards as applicable in Pakistan. Approved Accounting Standards comprise of such International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board (IASB) and Islamic Financial Accounting Standards (IFASs) issued by The Institute of Chartered Accountants of Pakistan (ICAP) as are notified under the Companies Ordinance, 1984, provisions of and directives issued under the Banking Companies Ordinance, 1962 and the directives issued by State Bank of Pakistan (SBP) & Securities and Exchange Commission of Pakistan (SECP). In case requirements of provisions and directives issued under the Banking Companies Ordinance, 1962, Companies Ordinance, 1984 and the directives issued by SBP and SECP differ from requirements of IFRSs and IFASs, the provisions of and directives issued under the Banking Companies Ordinance, 1962, the Companies Ordinance, 1984 and the directives issued by SBP and SECP shall prevail.

3.2 The SBP, vide BSD Circular No. 10, dated August 26, 2002 has deferred the applicability of International Accounting Standard 39, Financial Instruments: Recognition and Measurement (IAS 39) and International Accounting Standard 40, Investment Property (IAS 40) for banking companies till further instructions. Further, according to a notification of Securities and Exchange Commission of Pakistan (SECP) dated April 28, 2008, International Financial Reporting Standard (IFRS) 7 'Financial Instruments Disclosure', has not been made applicable for banks. Accordingly, the requirements of these standards have not been considered in the preparation of these consolidated financial statements. However, investments have been classified and disclosed in accordance with the requirements prescribed by SBP through various circulars.

3.3 IFRS 8 'Operating Segments' is effective for the Group's accounting period beginning on or after January 1, 2009. All banking companies in Pakistan are required to prepare their annual financial statements in line with the format prescribed under BSD Circular No. 4 dated February 17, 2006, 'Revised Forms of Annual Financial Statements', effective from the accounting year ended December 31, 2006. The management of the Bank believes that as the SBP has defined the segment categorisation in the above mentioned circular, the SBP requirements prevail over the requirements specified in IFRS 8. Accordingly, segment information disclosed in these consolidated financial statements is based on the requirements laid down by SBP.

3.4 The Securities and Exchange Commission of Pakistan (SECP) vide SRO 56 (1) / 2016 dated January 28, 2016, has notified that the requirements of IFRS10 (Consolidated Financial Statements) and section 237 of the Companies Ordinance 1984 will not be applicable with respect to the investment in mutual funds established under Trust structure.

3.5 The State Bank of Pakistan through BPRD Circular No. 04 of 2015 dated February 25, 2015 has deferred applicability of Islamic Financial Accounting Standard-3 for Profit & Loss Sharing on Deposits (IFAS-3) issued by The Institute of Chartered Accountants of Pakistan and notified by the Securities & Exchange Commission of Pakistan (SECP), vide their SRO No. 571 of 2013 dated June 12, 2013 for Institutions offering Islamic Financial Services (IIFS). The standard will result in certain new disclosures in the financial statements of the Bank.

3.6 New and amended standards and interpretations became effective during the year

During the year, certain amendments to standards, interpretations and improvements to accounting standards became effective, however, the amendments, interpretations and improvements did not have any material effect on the consolidated financial statements of the Group.

Notes to the Consolidated Financial Statements

for the year ended December 31, 2016

3.7 Standards, Interpretations and Amendments to Published Approved Accounting Standards that are not yet effective

The following standards, amendments and interpretations of approved accounting standards will be effective for accounting periods beginning on or after January 01, 2017.

- Amendments to IAS 12 'Income Taxes' are effective for annual periods beginning on or after January 01, 2017. The amendments clarify that the existence of a deductible temporary difference depends solely on a comparison of the carrying amount of an asset and its tax base at the end of the reporting period, and is not affected by possible future changes in the carrying amount or expected manner of recovery of the asset. The amendments further clarify that when calculating deferred tax asset in respect of insufficient taxable temporary differences, the future taxable profit excludes tax deductions resulting from the reversal of those deductible temporary differences. The amendments are not likely to have an impact on the Group's financial statements.
- Amendments to IAS 7 'Statement of Cash Flows' are part of IASB's broader disclosure initiative and are effective for annual periods beginning on or after January 01, 2017. The amendments require disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flow and non-cash changes. The change would result in disclosures regarding change in balances of liabilities arising from financing activities.
- Amendments to IFRS 2 - 'Share-based Payment' clarify the accounting for certain types of arrangements and are effective for annual periods beginning on or after January 01, 2018. The amendments cover three accounting areas (a) measurement of cash-settled share-based payments; (b) classification of share-based payments settled net of tax withholdings; and (c) accounting for a modification of a share-based payment from cash-settled to equity-settled. The new requirements could affect the classification and/or measurement of these arrangements and potentially the timing and amount of expense recognized for new and outstanding awards. The amendments are not likely to have an impact on the Group's financial statements.
- Transfers of Investment Property (Amendments to IAS 40 'Investment Property' - effective for annual periods beginning on or after January 01, 2018) clarifies that an entity shall transfer a property to, or from, investment property when, and only when there is a change in use. A change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. In isolation, a change in management's intentions for the use of a property does not provide evidence of a change in use. The amendments are not likely to have an impact on the Group's financial statements.

Annual improvements to IFRS standards 2014-2016 cycle. The new cycle of improvements addresses improvements to following approved accounting standards and are not likely to have material impact on the financial statements of the Group:

- Amendments to IFRS 12 'Disclosure of Interests in Other Entities' (effective for annual periods beginning on or after January 01, 2017) clarify that the requirements of IFRS 12 apply to an entity's interests that are classified as held for sale or discontinued operations in accordance with IFRS 5 'Non-current Assets Held for Sale and Discontinued Operations'.
- Amendments to IAS 28 'Investments in Associates and Joint Ventures' (effective for annual periods beginning on or after January 01, 2018) clarifies that a venture capital organization and other similar entities may elect to measure investments in associates and joint ventures at fair value through profit or loss, for each associate or joint venture separately at the time of initial recognition of investment. Furthermore, similar election is available to non-investment entity that has an interest in an associate or joint venture that is an investment entity, when applying the equity method, to retain the fair value measurement applied by that investment entity associate or joint venture to the investment entity associate's or joint venture's interests in subsidiaries. This election is made separately for each investment entity associate or joint venture.
- IFRIC 22 'Foreign Currency Transactions and Advance Consideration' (effective for annual periods beginning on or after January 01, 2018) clarifies which date should be used for translation when a foreign currency transaction involves payment or receipt in advance of the item it relates to. The related item is translated using the exchange rate on the date the advance foreign currency is received or paid and the prepayment or deferred income is recognized. The date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income (or part of it) would remain the date on which receipt of payment from advance consideration was recognized. If there are multiple payments or receipts in advance, the entity shall determine a date of the transaction for each payment or receipt of advance consideration.

Notes to the Consolidated Financial Statements

for the year ended December 31, 2016

4. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

The preparation of these financial statements in conformity with the approved accounting standards requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses. It also requires the management to exercise its judgment in the process of applying the Group's accounting policies. Estimates, underlying assumptions and judgments are continually evaluated and are based on historical experience, including expectations of future events that are believed to be reasonable under the circumstances. The areas where various assumptions and estimates are significant to the Group's financial statements or where judgment was exercised in application of accounting policies are as follows:

i) Classification of investments

- In classifying investments as 'held-for-trading' the Group has determined securities which are acquired with the intention to trade by taking advantage of short term market / interest rate movements and are to be sold within 90 days.
- In classifying investments as 'held-to-maturity' the Group follows the guidance provided in SBP circulars on classifying non-derivative financial assets with fixed or determinable payments and fixed maturity. In making this judgment, the Group evaluates its intention and ability to hold such investments to maturity.
- The investments, other than those in subsidiary, which are not classified as 'held-for-trading' or 'held-to-maturity' are classified as 'available-for-sale'.

ii) Provision against non-performing loans and advances and debt securities classified as investments

The Group reviews its loan portfolio and debt securities classified as investments to assess amount of non-performing loans and advances and debt securities and provision required there-against. While assessing this requirement various factors including the delinquency in the account, financial position of the borrower and the requirements of the Prudential Regulations are considered. The amount of general provision is determined in accordance with the requirements set out in Prudential Regulations.

iii) Valuation and impairment of 'available-for-sale' equity investments

The Group determines that 'available-for-sale' equity investments are impaired when there has been a significant or prolonged decline in the fair value below its cost. This determination of what is significant or prolonged requires judgment. In making this judgment, the Group evaluates among other factors, the normal volatility in share price. In addition, impairment may be appropriate when there is evidence of deterioration in the financial health of the investee, industry and sector performance, changes in technology and operational and financing cash flows.

iv) Income taxes

In making the estimates for income taxes currently payable by the Group, the management looks at the current income tax laws and the decisions of appellate authorities. In determination of deferred taxes, estimates of the Group's future taxable profits are taken into account.

v) Fair value of derivatives

The fair values of derivatives which are not quoted in active markets are determined by using valuation techniques. The valuation techniques take into account the relevant interest rates in effect at the reporting date and the rates contracted.

vi) Depreciation and amortization

In making estimates of the depreciation / amortization, the management uses method which reflects the pattern in which economic benefits are expected to be consumed by the Group and estimates the useful life. The method applied and useful lives estimated are reviewed at each financial year end and if there is a change in the expected pattern or timing of consumption of the future economic benefits embodied in the assets, the estimate would be changed to reflect the change in pattern. Such a change is accounted for as change in accounting estimates in accordance with International Accounting Standard 8 - Accounting Policies, 'Changes in Accounting Estimates and Errors'.

vii) Defined benefit plans

Liability is determined on the basis of actuarial advice using the Projected Unit Credit Method. The actuarial assumptions used to determine the liability and related expense are disclosed in note 34.

Notes to the Consolidated Financial Statements

for the year ended December 31, 2016

viii) Fair value hierarchy of assets and liabilities

The fair value of the assets and liabilities is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The Group categorizes fair value measurements within the following fair value hierarchy:

a) Level 1

These are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date.

b) Level 2

These are inputs other than quoted prices included within Level 1 that are observable for asset or liability, either directly or indirectly.

c) Level 3

These are input for the assets or liability that are not based on observable market data (unobservable Inputs).

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies adopted in the preparation of these consolidated financial statements have been applied consistently to all periods presented in these consolidated financial statements of the Group except for the change explained in note 5.1. Significant accounting policies are enumerated as follows:

5.1 Change in accounting policy

Non-banking assets acquired in satisfaction of claims

The Group has changed its accounting policy regarding non-banking assets acquired in compliance with the requirements of the 'Regulations for Debt Property Swap', effective from the date of issuance by SBP vide its BPRD Circular No. 1 of 2016, dated January 1, 2016.

Non-banking assets (NBA) acquired in satisfaction of claims are carried at revalued amounts less accumulated depreciation (excluding land). Revaluation by independent professionally qualified valuers, is carried out with sufficient regularity to ensure that their net carrying value does not differ materially from their fair value. Surplus arising on revaluation of NBA is credited to the 'surplus on revaluation of assets' account and any deficit arising on revaluation is taken to profit and loss account directly. Legal fees, transfer costs and direct costs of acquiring title to property is charged to profit and loss account and not capitalised.

Effect of change in policy is as follows:

	Rupees in '000
Impact on statement of financial position:	
Increase in non-banking assets	1,329,105
Increase in surplus on revaluation	1,327,010
Increase in deferred tax liability (surplus on revaluation)	13,930
Increase in deferred tax liability (accelerated depreciation)	22,227
Impact on profit and loss account:	
Depreciation expense	19,696
Deferred tax expense	22,227

5.2 Cash and cash equivalents

For the purpose of cash flow statement, cash and cash equivalents include cash and balances with treasury banks and balances with other banks (net of overdrawn nostro balances) in current and deposit accounts.

5.3 Lendings to / borrowings from financial institutions

The Group enters into transactions of borrowing (re-purchase) from and lending (reverse re-purchase) to financial institutions, at contracted rates for a specified period of time. These are recorded as under:

Notes to the Consolidated Financial Statements

for the year ended December 31, 2016

a) Sale under re-purchase agreements

Securities sold subject to a re-purchase agreement are retained in the financial statements as investments and the counter party liability is included in borrowings from financial institutions. The differential in sale and re-purchase value is accrued on a prorata basis and recorded as mark-up expense.

b) Purchase under resale agreements

Securities purchased under agreement to resell (reverse re-purchase) are included in lendings to financial institutions. The differential between the contracted price and resale price is amortized over the period of the contract and recorded as mark-up income.

Securities held as collateral are not recognized in the financial statements, unless these are sold to third parties, in which case the obligation to return them is recorded at fair value as a trading liability under borrowings from financial institutions.

Other borrowings including borrowings from SBP are recorded at the proceeds received. Mark-up on such borrowings is charged to the profit and loss account on a time proportion basis.

Lendings are stated net of provision. Return on such lending is accrued to the profit and loss account on a time proportion basis except mark-up on impaired/ delinquent lendings, which is recognized on receipt basis.

5.4 Investments

5.4.1 The Group at the time of purchase classifies its investment portfolio, other than investment in subsidiary, into the following categories:

a) Held-for-trading

These are securities which are either acquired for generating a profit from short-term fluctuations in market prices, interest rate movements and dealer's margin.

b) Held-to-maturity

These are debt securities with fixed or determinable payments and fixed maturity that the Group has the positive intent and ability to hold to maturity.

c) Available-for-sale

These are investments, other than those in subsidiary, that do not fall under the 'held-for-trading' or 'held-to-maturity' categories.

5.4.2 Investments are initially recognized at fair value which, in case of investments other than 'held-for-trading', includes transaction cost associated with the investments. Transaction cost on 'held-for-trading' investments are expensed as incurred.

All 'regular way' purchases and sales of investments are recognized on the trade date, i.e., the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of investments that require settlement within the time frame generally established by regulation or convention in the market place.

5.4.3 In accordance with the requirements of the SBP, quoted securities, other than those classified as 'held-to-maturity' and investments in subsidiaries, are carried at market value. Investments classified as 'held-to-maturity' are carried at amortized cost.

Unrealized surplus / (deficit) arising on revaluation of the Group's 'held-for-trading' investment portfolio is taken to the profit and loss account. Surplus / (deficit) arising on revaluation of quoted securities classified as 'available-for-sale' is kept in a separate account shown in the statement of financial position below equity. The surplus / (deficit) arising on these securities is taken to the profit and loss account when actually realized upon disposal or when the investment is considered to be impaired.

Unquoted equity securities are valued at the lower of cost and break-up value. The break-up value of these securities is calculated with reference to the net assets of the investee company as per the latest available audited financial statements. A decline in the carrying value is charged to the profit and loss account. A subsequent increase in the carrying value, upto the cost of the investment, is credited to the profit and loss account. Investments in other unquoted securities are valued at cost less impairment, if any.

Notes to the Consolidated Financial Statements

for the year ended December 31, 2016

Provision for diminution in the value of securities (except for debentures, participation term certificates, sukuks and term finance certificates) is made after considering impairment, if any, in their value. Provision for diminution in value of debentures, participation term certificates, sukuks and term finance certificates are made in accordance with the requirements of Prudential Regulations issued by SBP.

5.5 Advances

a) Loans and advances

Loans and advances are stated net of general and specific provisions. Specific provision against loans is determined in accordance with the requirements of the Prudential Regulations and other directives issued by SBP and charged to the profit and loss account. General provision is maintained in accordance with the requirements of Prudential Regulations issued by SBP and charged to the profit and loss account. Advances are written off when there are no realistic prospects of recovery.

b) Net investment in Finance Lease

Leases, where the Group transfers substantially all the risks and rewards incidental to the ownership of an asset to the lessee are classified as finance leases. A receivable is recognized at an amount equal to the present value of the minimum lease payments, including un-guaranteed residual value, if any. Finance lease receivables are included in advances to the customers.

c) Islamic Financing and Related Assets

The Group provides Islamic financing and related assets mainly through Murabaha, Ijarah, Diminishing Musharakah and Salam. The purchases and sales arising under these arrangements are not reflected in these financial statements as such but are restricted to the amount of facility actually utilised and the appropriate portion of profit thereon. The income on such financings is recognised in accordance with the principles of Islamic Shariah. The Group determines specific and general provisions against Islamic financing and related assets in accordance with the requirements of the Prudential Regulations issued by the SBP. The net provision made / reversed during the year is charged to profit and loss account and accumulated provision is netted off against Islamic financing and related assets. Islamic financing and related assets are written off when there are no realistic prospects of recovery.

5.6 Operating fixed assets and depreciation

a) Tangible assets

Property and equipment owned by the Group, other than land which is not depreciated, are stated at cost or revalued amount less accumulated depreciation and impairment losses, if any. Land is carried at revalued amount.

Depreciation is calculated using the straight line method, except buildings which are depreciated using the reducing balance method, to write down the cost of property and equipment to their residual values over their estimated useful lives. The rates at which the fixed assets are depreciated are disclosed in note 11.2. The residual values, useful lives and depreciation methods are reviewed and adjusted, if required. Adjustments in residual values, useful lives and depreciation methods are treated as change in accounting estimates.

Depreciation on additions is charged from the month the assets are available for use, while no depreciation is charged in the month in which the assets are disposed off.

Surplus arising on revaluation of fixed assets is credited to surplus on revaluation of fixed assets account. Deficit arising on subsequent revaluation of fixed assets is adjusted against the balance in surplus account as allowed under the provisions of the Companies Ordinance, 1984. The surplus on revaluation of fixed assets to the extent of incremental depreciation charged on the related assets, is transferred directly to unappropriated profit (net of deferred tax).

Revaluation by independent professionally qualified valuers, is carried out with sufficient regularity to ensure that the carrying amount of assets does not differ materially from their fair value.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is recognized in the profit and loss account in the year the asset is derecognized, except that the related surplus on revaluation of fixed assets (net of deferred tax) is transferred directly to unappropriated profit.

Subsequent costs are included in the asset's carrying amount only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the profit and loss account.

Notes to the Consolidated Financial Statements

for the year ended December 31, 2016

b) Intangible assets

Intangible assets are carried at cost less any accumulated amortization and impairment losses, if any. The cost of intangible assets is amortized over their estimated useful lives, using the straight line method. Amortization is charged from the month the assets are available for use at the rate stated in note 11.3. The useful lives are reviewed and adjusted, if appropriate, at each reporting date.

c) Capital work-in-progress

Capital work-in-progress is stated at cost less impairment losses, if any.

5.7 Taxation

a) Current

Provision for current taxation is based on taxable income for the year determined in accordance with the prevailing laws for taxation. The charge for current tax is calculated using the prevailing tax rates or tax rates expected to apply to the profits for the year. The charge for current tax also includes adjustments, where considered necessary relating to prior years, including those arising from assessments finalized during the year.

b) Deferred

Deferred tax is recognized using the balance sheet liability method on all temporary differences, at the reporting date between the amounts attributed to assets and liabilities for financial reporting purpose and amounts used for taxation purposes. Deferred tax is calculated at the rates that are expected to apply to the periods when the difference will reverse, based on tax rates that have been enacted or substantially enacted at the reporting date.

Deferred tax assets are recognized only to the extent that it is probable that future taxable profits will be available against which the assets can be utilized. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

The Group also recognizes a deferred tax asset / liability on deficit / surplus on revaluation of fixed assets, non-banking assets and securities which is adjusted against the related deficit / surplus in accordance with the requirements of IAS-12 'Income Taxes'.

5.8 Staff retirement and other benefits

5.8.1 Staff retirement schemes

a) For employees who opted for the lump sum pension scheme introduced by the management:

An approved pension scheme (defined benefit scheme) under which the benefits on the basis of frozen basic salary, service and age as on June 30, 2002 are payable to all employees whose date of joining the Group is on or before July 01, 1992 i.e., who have completed 10 years of service as on June 30, 2002;

During the year, the beneficiary employees were given an option to settle their monthly pension with a lump sum payment. Those who will not opt for the lump sum option, will continue to receive pension (defined benefit scheme).

An approved gratuity scheme (defined benefit scheme) under which the benefits are payable as under:

- i) For members whose date of joining the Group is on or before July 01, 1992, their services would be calculated starting from July 01, 2002 for gratuity benefit purposes.
- ii) For members whose date of joining the Group is after July 01, 1992 their services would be taken at actual for the purpose of calculating the gratuity benefit.

A Contributory Provident Fund scheme to which equal contributions are made by the Group and the employees (defined contribution scheme).

b) For employees who did not opt for the lump sum pension scheme

An approved pension scheme (defined benefit scheme) under which the benefits on the basis of frozen basic salary as on June 30, 2002 are payable to all employees opting continuation of the previous scheme and whose date of joining the Group is on or before July 01, 1992, i.e., who had completed 10 years of service as on June 30, 2002.

Until December 31, 2008, the Group operated a contributory benevolent fund, which was discontinued for active employees. The beneficiary employees as on that date were also given an option to settle their monthly grant with

Notes to the Consolidated Financial Statements

for the year ended December 31, 2016

a lump sum payment. Those who have not opted for the lump sum option will continue to receive benevolent grant (defined benefit scheme).

c) **Post retirement medical benefits**

The Group provides post retirement medical benefits to eligible retired employees. Provision is made annually to meet the cost of such medical benefits on the basis of actuarial valuation carried out using the Projected Unit Credit Method.

Annual contributions towards the defined benefit schemes are made on the basis of actuarial valuation carried out using the Projected Unit Credit Method. Actuarial gains / losses arising from experience adjustments and changes in actuarial assumptions are recognized in Other Comprehensive Income in the period of occurrence.

5.8.2 **Other long term benefit**

Employees' compensated absences

Employees' entitlement to annual leave is recognised when they accrue to employees. A provision is made for estimated liability for annual leaves as a result of services rendered by the employee against unavailed leaves, as per terms of service contract, up to the reporting date, based on actuarial valuation using Projected Unit Credit Method. Actuarial gains / losses arising from experience adjustments and changes in actuarial assumptions are recognized in Profit and Loss account in the period of occurrence.

5.9 **Deposits**

Deposits are initially recorded at the amount of proceeds received. Mark-up accrued on deposits is recognized separately as part of other liabilities and is accrued to the profit and loss account on accrual basis. Deposits mobilized under Islamic Banking operations are generated under two modes i.e. "Qard" and "Modaraba". Deposits taken on Qard basis are classified as 'Current accounts' and Deposits generated on Modaraba basis are classified as 'Saving deposits / Fixed deposits'.

5.10 **Impairment**

a) **Available-for-sale equity securities**

The Group determines that 'available-for-sale' equity investments are impaired when there has been a significant or prolonged decline in the fair value of these investments below their cost. The determination of what is significant or prolonged requires judgment. In making this judgment, the Group evaluates, among other factors, the normal volatility in share price in the case of listed equity securities. In addition, impairment may be appropriate when there is evidence of deterioration in the financial condition of the investee, industry and sector performance and changes in technology.

b) **Non-financial assets**

The carrying amount of the Group's assets (other than deferred tax assets) are reviewed at each statement of financial position date to determine whether there is any indication of impairment. If such indication exists, the recoverable amount of the relevant asset is estimated. An impairment loss is recognized whenever the carrying amount of an asset exceeds its recoverable amount. Impairment losses are recognized in the profit and loss account except for an impairment loss on revalued assets which is adjusted against the related revaluation surplus to the extent that the impairment loss does not exceed the revaluation surplus. An impairment loss is reversed if the reversal can be objectively related to an event occurring after the impairment loss was recognized.

5.11 **Provisions**

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made.

Provision against identified losses on non-funded exposure is recognized when intimated and reasonable certainty exists for the Group to settle the obligation. The loss is charged to the profit and loss account net of expected recovery and is classified under other liabilities.

Provisions are reviewed at the reporting date and are adjusted to reflect the current best estimate.

Notes to the Consolidated Financial Statements

for the year ended December 31, 2016

5.12 Dividend distribution and appropriations

Bonus and cash dividend and other appropriations (except for the appropriations required by law), declared / approved subsequent to the reporting date are considered as non-adjusting event and are not recorded in consolidated financial statements of the current year. These are recognized in the period in which these are declared / approved.

5.13 Foreign currencies

a) Foreign currency transactions

Transactions in foreign currencies are translated into rupees at the foreign exchange rates ruling on the transaction date. Monetary assets and liabilities in foreign currencies are expressed in rupee terms at the rates of exchange ruling on the reporting date. Foreign bills purchased are valued at spot rate and forward foreign exchange contracts are valued at forward rates applicable to their respective maturities.

b) Foreign operations

The assets and liabilities of foreign operating branches are translated to Pakistan Rupee (PKR) at exchange rates prevailing at reporting date. The results of foreign operations are translated at the average exchange rate for the period.

c) Translation gains and losses

Translation gains and losses arising on revaluation of net investments in foreign operations are taken to equity under 'Exchange Translation Reserve' through Other Comprehensive Income and on disposal are recognised in profit and loss account. Regular translation gains and losses are taken to profit and loss account.

d) Commitments

Commitments for outstanding forward contracts disclosed in these financial statements are translated at forward rates applicable to their respective maturities. Contingent liabilities / commitments for letters of credit and letters of guarantee denominated in foreign currencies are expressed in rupee terms at the rates of exchange ruling on the reporting date.

5.14 Financial instruments

5.14.1 Financial assets and liabilities

Financial assets and financial liabilities are recognised at the time when the Group becomes a party to the contractual provision of the instrument. Financial assets are de-recognised when the contractual right to future cash flows from the asset expires or is transferred along with the risk and reward of the asset. Financial liabilities are de-recognised when obligation specific in the contract is extinguished. Any gain or loss on de-recognition of the financial asset and liability is recognised in the profit and loss account of the current period. The particular recognition and subsequent measurement methods adopted for significant financial assets and financial liabilities are disclosed in the individual policy statements associated with them.

5.14.2 Derivative financial instruments

Derivative financial instruments are initially recognized at fair value on the date on which the derivative contract is entered into and are subsequently re-measured at fair value using appropriate valuation techniques. All derivative financial instruments are carried as assets when fair value is positive and liabilities when fair value is negative. Any change in the fair value of derivative financial instruments is taken to the profit and loss account.

5.15 Off setting

Financial assets and financial liabilities are off set and the net amount is reported in the financial statements when there is a legally enforceable right to off set and the Group intends to either settle on a net basis, or to realize the assets and to settle the liabilities simultaneously.

5.16 Revenue recognition

Revenue is recognized to the extent that the economic benefits will flow to the Group and the revenue can be reliably measured. These are recognised as follows:

a) Advances and investments

Mark-up / return on regular loans / advances and investments is recognized on a time proportion basis. Where debt securities are purchased at premium or discount, the same is amortized through the profit and loss account using the effective interest rate method.

Notes to the Consolidated Financial Statements

for the year ended December 31, 2016

Interest or mark-up recoverable on classified loans, advances and investments is recognized on receipt basis. Interest / return / mark-up on classified rescheduled / restructured loans and advances and investments is recognized as permitted by the regulations of the SBP.

Dividend income is recognized when the right to receive the dividend is established.

Gains and losses on sale of investments are recognized in the profit and loss account.

b) Lease financing

Financing method is used in accounting for income from lease financing. Under this method, the unearned lease income (excess of the sum of total lease rentals and estimated residual value over the cost of leased assets) is deferred and taken to income over the term of the lease period so as to produce a constant periodic rate of return on the outstanding net investment in lease. Unrealised income on classified leases is recognized on receipt basis.

Gains / losses on termination of lease contracts and other lease income are recognized when realized.

c) Islamic financing and related assets

Ijarah and Diminishing Musharakah income is recognised on an accrual basis as and when the rental becomes due.

Murabaha and Salam income is recognised on deferred income basis.

d) Fees, brokerage and commission

Fee, Commission and Brokerage income is recognized on an accrual basis except where, in the opinion of management, it would not be prudent to do so.

5.17 Segment reporting

A segment is a distinguishable component of the Group that is subject to risks and rewards that are different from those of other segments. A business segment is one that is engaged either in providing certain products or services, whereas a geographical segment is one engaged in providing certain products or services within a particular economic environment. Segment information is presented as per the Group's functional and management reporting structure. The Group's primary segment reporting is based on following business segments:

Business segments

a) Corporate & investment banking

This segment offers a wide range of financial services to medium and large sized public and private sector entities and also covers overseas operation of the Group. These services include, providing and arranging tenured financing, corporate advisory, underwriting, cash management, trade products, corporate finance products and customer services on all Group related matters.

b) Trading and sales (Treasury)

This segment undertakes the Group's treasury and money market activities.

c) Commercial & retail banking

Commercial and retail banking provides services to commercial and retail customers including agriculture sector. It includes loans, deposits and other transactions with commercial and retail (conventional and Islamic) customers.

d) Others

Others includes functions which cannot be classified in any of the above segments.

5.18 Earnings per share

The Group presents basic and diluted earnings per share (EPS) for its shareholders. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Group by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares, if any.

Notes to the Consolidated Financial Statements

for the year ended December 31, 2016

- 12.2** Through Finance Act 2007, a new section 100A read with the 7th Schedule (the Schedule) was inserted in the Income Tax Ordinance, 2001 for the taxation of banking companies. The Schedule simplifies the taxation of banking companies and is applicable from the tax year 2009 (financial year ended on December 31, 2008).

The deferred tax asset on the deductible temporary differences disallowed as a deduction in the past up to December 31, 2007, for which transitory provisions are not available, is being kept as an asset as the Bank is confident that transitory provisions would be introduced to set out the mechanism of claiming where benefit of these allowances can be claimed.

Notes to the Consolidated Financial Statements

for the year ended December 31, 2016

18.2 During the current year, the Supreme Court of Pakistan vide its order dated November 10, 2016 has held that the amendments made in the law introduced by the Federal Government for the levy of Workers' Welfare Fund (WWF) were not lawful. The Federal Board of Revenue has filed review petitions against this order, which are currently pending.

Legal advice obtained on the matter indicates that consequent to filing of these review petitions the judgment may not currently be treated as conclusive. Accordingly, the Bank maintains its provision in respect of WWF and shall revisit the position on periodic basis.

21.11.1 The income tax assessments of the Group have been finalized upto and including tax year 2016 for local, Azad Kashmir and Gilgit Baltistan operations. While finalizing income tax assessments upto tax year 2016, income tax authorities made certain add backs with aggregate tax impact of Rs.21,235 million. As a result of appeals filed by the Group before appellate authorities, most of the add backs have been deleted. However, the Group and Tax Department are in appeals/references before higher forums against unfavorable decisions. Pending finalization of appeals/references no provision has been made by the Group on aggregate sum of Rs.21,235 million. The management is confident that the outcome of these appeals/references will be in favor of the Group.

Tax Authorities have conducted proceedings of withholding tax audit under section 161/205 of Income Tax Ordinance, 2001 for tax year 2003 to 2006 and tax year 2008 to 2015 and created an arbitrary demand of Rs. 1,439 million. The Group appeals before CIR(A)/Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that these appeals will be decided in favor of the Group; therefore, no provision has been made against the said demand of Rs. 1,439 million.

Tax authorities have also issued orders under Federal Excise Act, 2005/Sales Tax Act, 1990/Sindh Sales Tax on Services Act, 2011 for the year 2008 to 2014 thereby creating arbitrary aggregate demand of Rs. 890 million (2015: 633 million). The Group's appeal before CIR(A)/Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that aforesaid demand will be deleted by appellate authorities and therefore no provision has been made against the said demand of Rs. 890 million (2015: 633 million).

Notes to the Consolidated Financial Statements

for the year ended December 31, 2016

21.11.2 While adjudicating foreign exchange repatriation cases of exporter namely: Fateh Textile Mills Limited, the Foreign Exchange Adjudicating Court ('FEAC') of the State Bank of Pakistan ('SBP') has arbitrarily adjudicated penalties against various banks including Rs. 2,173 million in aggregate against Allied Bank Limited (the Bank). Against the said judgments, the Bank has filed appeals before the Appellate Board and Constitutional Petitions in the High Court of Sindh, Karachi. The Honorable High Court has granted relief to the Bank by way of interim orders. Based on merits of the appeals, the management is confident that these appeals shall be decided in favor of the Bank and therefore no provision has been made against the impugned penalty.

22. DERIVATIVE INSTRUMENTS

The Bank at present does not offer structured derivative products such as Interest Rate Swaps, Forward Rate Agreements or FX Options. However, the Bank's Treasury Group buys and sells derivative instruments such as:

- Forward Exchange Contracts
- Foreign Exchange Swaps
- Equity Futures
- Forward Contracts for Government Securities

Forward Exchange Contracts

Forward Exchange Contract (FEC) is a product which is offered to the obligor who transact internationally. These obligor use this product to hedge themselves from unfavorable movements in a foreign currency, however, by agreeing to fix the exchange rate, they do not benefit from favorable movements in that currency.

An FEC is a contract between the Obligor and the Bank in which both agree to exchange an amount of one currency for another currency at an agreed forward exchange rate for settlement over more than two business days after the FEC is entered into (the day on which settlement occurs is called the value date). FEC is entered with those Obligors whose credit worthiness has already been assessed, and they have underlined trade transactions.

If the relevant exchange rate moves un-favorably, Obligor will benefit from that movement because the Bank must exchange currencies at the FEC rate. In order to mitigate this risk of adverse exchange rate movement, the Bank hedges its exposure by taking opposite forward position in inter-bank FX.

Foreign Exchange Swaps

A Foreign Exchange Swap (FX Swap) is used by the Bank if it has a need to exchange one currency for another currency on one day and then re-exchange those currencies at a later date. Exchange rates and forward margins are determined in the "inter-bank" market and fluctuate according to supply and demand.

An FX Swap prevents the Bank from gaining any benefit resulting from a favorable exchange rate movement in the relevant currency pair between the time Bank enters into the transaction deal and when settlement occurs. Cancellation of the swap may also result in exposure to market movements. The key advantage of an FX swap is that it provides the Bank with protection against unfavorable currency movements between the time it enters into the transaction and settlement. The term and amounts for FX Swap can also be tailored to suit the Bank's particular needs.

Equity Futures

An equity futures contract is a standardized contract, traded on a futures counter of the stock exchange, to buy or sell a certain underlying script at a certain date in the future, at a specified price.

The Bank uses equity futures as a hedging instrument to hedge its equity portfolio, in both 'held-for-trading' and 'available-for-sale', against equity price risk. Only selected shares are allowed to be traded on futures exchange. Equity futures give flexibility to the Bank either to take delivery on the future settlement date or to settle it by adjusting the notional value of the contract based on the current market rates. Maximum exposure limit to the equity futures is 10% of Tier I Capital of the Bank, based on prevailing SBP regulations.

The accounting policies used to recognize and disclose derivatives are given in Note 5.14.2. The risk management framework of derivative instruments is given in note 41.

34.13 Expected contributions to be paid to the funds in the next financial year

The Bank contributes to the gratuity fund as per actuarial expected charge for the next financial year. No contributions are being made to pension / benevolent fund due to surplus of fair value of plan's assets over present value of defined obligation. Based on actuarial advice, management estimates that the charge / (reversal) in respect of defined benefit plans for the year ending December 31, 2017 would be as follows:

	Pension fund	Gratuity fund	Benevolent fund	Post retirement medical	Employees' compensated absences

Notes to the Consolidated Financial Statements

for the year ended December 31, 2016

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied when calculating the defined benefit obligation recognized within the statement of financial position.

34.15 Risk associated with defined benefit plans

The defined benefit plans may expose the bank to actuarial risks such as longevity risk, investment risk, salary increase risk and withdrawal rate risk as described below;

Longevity risks

The risk arises when the actual lifetime of retirees is longer than expectation. This risk is measured at the plan level over the entire retiree population.

Investment risks

The risk arises when the actual performance level of investment levels is lower than expectation and thus creating a shortfall in the funding objectives.

Salary increase risk

The most common type of retirement benefit is one where the final benefit is linked with final salary. The risk arises when the actual increases are higher than expectations and impact the liability accordingly.

Withdrawal Rate

The risk of actual withdrawals varying with the actuarial assumptions can impose a risk to the benefit obligation. The movement of the liability can go either way.

35. DEFINED CONTRIBUTION PLAN

The Bank has maintained an employee provident fund trust and investments out of provident fund have been made in accordance with the provisions of section 227 of the Companies Ordinance 1984, and the rules formulated for this purpose. The salient information of the fund is as follows:

36.1 This represents meeting fee paid to directors (other than two sponsor directors) for attending meetings of the Board of Directors and Board Committees held during the year.

37. FAIR VALUE OF FINANCIAL INSTRUMENTS

The fair value of traded investments is based on quoted market prices, except for tradable securities classified by the Group as 'held-to-maturity'. Quoted securities classified as 'held-to-maturity' are carried at amortized cost. Fair value of unquoted equity investments is determined on the basis of break up value of these investments as per the latest available audited financial statements.

Fair value of fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to absence of current and active market for such assets and liabilities and reliable data regarding market rates for similar instruments. The provision for impairment of loans and advances has been calculated in accordance with the Bank's accounting policy as stated in note 5.5 to these financial statements.

The maturity and repricing profile and effective rates are stated in notes 41.2.4 and 41.3 respectively

In the opinion of the management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since assets and liabilities are either short-term in nature or in the case of customer loans and deposits are frequently re-priced.

The table below presents, by valuation methods, the financial and non-financial assets carried at fair values. Valuation of investments is carried out as per guidelines specified by the SBP. In case of non-financial assets, the Bank has adopted revaluation model (as per IAS 16) in respect of land and building and non-banking assets.

40. CAPITAL ASSESSMENT AND ADEQUACY

40.1 Capital Adequacy

40.1.1 Objectives of Managing Capital

Capital Management aims to ensure that there is sufficient capital to meet the capital requirements of the Bank as determined by the underlying business strategy and the minimum requirements of the SBP. The Capital Management process is governed by the Bank's Asset & Liability Committee (ALCO) and Management Committee (MANCO). Further, capital adequacy and management is overseen by the Board's Risk Management Committee (BRMC) and Strategic Planning and Monitoring Committee (SPMC).

Bank's capital management seeks:

- to comply with the capital requirements set by the regulators and comparable to the peers;
- to actively manage the supply of capital costs and increase capital velocity;
- to increase strategic and tactical flexibility in the deployment of capital to allow for the timely reallocation of capital;
- to improve the liquidity of the Bank's assets to allow for an optimal deployment of the Bank's resources;
- to protect the Bank against unexpected events and maintain strong ratings;
- to safeguard the Bank's ability to continue as a going concern so that it can continue to provide adequate return to shareholders;
- availability of adequate capital (including the quantum) at a reasonable cost so as to enable the Bank to expand; and
- to achieve low overall cost of capital with appropriate mix of capital elements.

Bank through Internal Capital Adequacy Assessment Process (ICAAP) and Advances Stress Testing assesses overall capital adequacy on a periodic basis in relation to Bank's risk profile. Utilizing sensitivity and stress analysis techniques, bank assess adequacy of Bank's total capital against adverse shocks with respect to credit risk, market risk, operational risk, concentration risk, interest rate risk, liquidity risk, country risk, reputational risk and strategic risk. Further, Bank formulates its strategy, including need assessment for raising additional capital for maintaining adequate capital under stressed conditions.

40.1.2 Externally Imposed Capital Requirements

In order to strengthen the solvency of Banks / Development Financial Institutions (DFI), SBP through its BSD Circular No. 07 of 2009 dated April 15, 2009 has asked the Banks to raise their minimum paid up capital to Rs. 10 billion free of losses.

SBP through its BPRD Circular # 6 of 2013 dated August 15, 2013 has asked Banks to maintain the minimum Capital Adequacy Ratio (CAR) of 10.65% on standalone as well as on consolidated basis till December 31, 2016. Subsequently, a phase in arrangement has been put in place whereby the banks are required to maintain the following ratios on an ongoing basis:

	Year end as of December, 31				
	2015	2016	2017	2018	2019
Common Equity Tier-1 - CET1	6.00%	6.00%	6.00%	6.00%	6.00%
Additional Tier-1	1.50%	1.50%	1.50%	1.50%	1.50%
Tier 1	7.50%	7.50%	7.50%	7.50%	7.50%
Total Capital	10.00%	10.00%	10.00%	10.00%	10.00%
*Capital Conservation Buffer - CCB	0.25%	0.65%	1.28%	1.90%	2.50%
Total Capital plus CCB	10.25%	10.65%	11.28%	11.90%	12.50%

* Consisting of CET1 only.

The paid up capital and CAR of the Bank stands at Rs. 11.451 billion and 20.88% of its risk weighted exposure as at December 31, 2016.

The Bank has complied with all externally imposed capital requirements as at year end.

Notes to the Consolidated Financial Statements

for the year ended December 31, 2016

40.1.3 Scope of Applications

The Basel Framework is applicable to the Bank both at the consolidated level (comprising of wholly owned subsidiary - ABL Asset Management Company Limited) and also on a stand alone basis.

40.1.4 Capital Structure - Basel III transition

State Bank of Pakistan vide BPRD circular # 6 dated August 15, 2013 revised and updated Basel II Framework in accordance with Basel III capital reforms and clarifications to further strengthen capital related rules. These instructions form part of transitional arrangement leading to full implementation of Basel III in 2019.

Bank's regulatory capital is analyzed into two tiers:

Tier 1 capital, which includes fully issued, subscribed and paid up capital, balance in share premium account, reserve for bonus issue, general reserves as per the financial statements and net un-appropriated profits, etc. after deductions for investments in the equity of subsidiary companies engaged in banking and financial activities, reciprocal cross holdings in capital instruments of banking, financial and insurance entities and deficit on revaluation of available for sale investments etc.

Tier 2 capital, which includes general provisions for loan losses (up to a maximum of 1.25 % of risk weighted assets), reserves on the revaluation of fixed assets and equity investments (up to a maximum of 45% of the balance in the related revaluation reserves) and subordinated debt (up to a maximum of 50% of Tier 1 capital). Bank has also implemented transitional standards of Basel III up to the extent of 60% as at December 31, 2016 as per road map laid down by SBP through BPRD Circular #6 dated August 15, 2013.

The required capital is achieved by the Bank through:

- a) enhancement in the risk profile of asset mix at the existing volume level;
- b) ensuring better recovery management; and
- c) maintain acceptable profit margins.

40.1.5 Leverage Ratio

The leverage ratio of the Group as on December 31, 2016 is 5.17% (2015: 5.10%). The ratio has been computed as prescribed by State Bank of Pakistan through Instructions for Basel III Implementation in Pakistan.

As on December 31, 2016; Total Tier 1 capital of the Group amounts to Rs. 68,373,829 thousands (2015: Rs. 64,302,411 thousands) whereas the total exposure measure amounts to Rs. 1,323,107,729 thousands (2015: Rs. 1,261,781,437 thousands).

Shift in leverage ratio is mainly due to decrease in off balance sheet exposure i.e. decrease in securities given as collateral, unconditionally cancellable commitments & commitments in respect of derivatives.

41. RISK MANAGEMENT

The Risk Management Framework (the Framework) provides principles for identifying, assessing and monitoring risk within the Bank. The Framework specifies the key elements of the risk management process in order to maximize opportunities, to minimize adversity and to achieve improved outcomes and outputs based on informed decision making.

Categories of Risk

The Bank generates most of its revenue by accepting Credit, Country, Liquidity and Market Risk. Effective management of these four risks is the decisive factor in our profitability. In addition, the Bank is subject to certain consequential risks that are common to all business undertakings. These risks are grouped under two headings: Operational and Reputational Risk. The Framework is organized with reference to these five risk categories, as detailed below:

Credit Risk This risk is defined as the possibility of loss due to unexpected default or deterioration in credit worthiness of a business partner.

Credit Risk includes Country Risk i.e., the risks that counterparty is unable to meet its foreign currency obligations as a result of adverse economic conditions or actions taken by governments in the relevant country.

Market Risk The risk of loss generated by adverse changes in the price of financial assets or contracts currently held by the Bank (this risk is also known as price risk).

Liquidity Risk The risk that the Bank is unable to meet its payment obligations when they fall due and to replace funds when they are withdrawn; the consequences of which may be the failure to meet obligations to repay depositors and fulfill commitments to lend.

Operational Risk Operational Risk is the risk of loss resulting from inadequate or failed internal processes, people, and systems or from external events. The definition excludes reputational risk.

Reputational Risk The risk of failing to meet the standards of performance or behaviour required or expected by stakeholders in commercial activities or the way in which business is conducted.

Risk Responsibilities

- The Board of Directors is accountable for overall supervision of the risk management process. This is discharged by distributing responsibilities at Board level for their management and determining the manner in which risk authorities are set. The Board is also responsible for approval of all risk policies and ensuring that these are properly implemented. Further, the Board shall also seek appointment of senior management personnel capable of managing the risk activities conducted by the Bank.

Notes to the Consolidated Financial Statements

for the year ended December 31, 2016

- The Board Risk Management Committee (BRMC) is responsible for ensuring that the overall risk strategy and appetite of the Bank is appropriately defined in the Strategic Plan and recommend the same to the Board of Directors.
- The CEO and Group Chiefs are accountable for the management of risk collectively through their membership of Asset & Liability Committee (ALCO). Independent supervision of risk management activities is provided by the Audit Committee.
- The Risk Management Group is headed by a Group Chief responsible to set-up and implement the Risk Framework of the Bank.

Risk Management Group Organization

Risk management functions have been segregated by business specialization, i.e., Credit Risk, Credit Administration, Technical Appraisal and Enterprise Risk which interalia includes Risk Architecture, Operational Risk and Market & Liquidity Risk. All these functions are operating in tandem to improve and maintain the health of assets and liabilities.

41.1 Credit Risk

Credit risk, the potential default of one or more debtors, is the largest source of risk for the Bank. The Bank is exposed to credit risk through its lending and investment activities. The Bank's credit risk function is divided into Corporate and Financial Institutions Risk and Commercial, SME and Consumer Risk. The functions operate within an integrated framework of credit policies, guidelines and processes. The credit risk management activities are governed by the Credit Policy of the Bank that defines the respective roles and responsibilities, the credit risk management principles and the Bank's credit risk strategy. The policy is supported by a comprehensive Credit Procedures Manual.

The Bank manages three principal sources of credit risk:

- i) Sovereign credit risk on its public sector advances
- ii) Counterparty credit risk on its private sector advances
- iii) Counterparty credit risk on interbank limits

Sovereign Credit Risk

When the Bank lends to public sector borrowers, it prefers obtaining a full sovereign guarantee or the equivalent from the Government of Pakistan (GOP). However, certain public sector enterprises have a well defined cash flow stream and appropriate business model, based on which the lending is secured through collaterals other than GOP guarantee.

Counterparty credit risk on its private sector advances

When the Bank lends to private sector borrowers it does not benefit from sovereign guarantees or the equivalent. Consequently, each borrower's credit worthiness is analyzed on the Credit Application Package that incorporates a formalized and structured approach for credit analysis and directs the focus of evaluation towards a balanced assessment of credit risk with identification of proper mitigates. These risks include Industry Risk, Business Risk, Financial Risk, Security Risk and Account Performance Risk. Financial analysis is further strengthened through use of separate financial spread sheet templates that have been designed for manufacturing / trading concerns, financial institutions and insurance companies.

Counter Party Credit Risk on Interbank Limits

In the normal course of its business, the Bank's Treasury utilizes products such as Reverse REPO and call lending to meet the needs of interbank borrowers and manage its exposure to fluctuations in market, interest and currency rates. Further, these products are also used to temporarily invest Bank's liquidity prior to disbursement. All of these financial instruments involve, to varying degrees, the risk that the counterparty in the transaction may be unable to meet its obligation to the Bank.

Reflecting a preference for minimizing exposure to counterparty credit risk, the Bank maintains eligibility criteria that link the exposure limits to counterparty credit ratings by external rating agencies. For example, the minimum rating for counterparties to be eligible for a banking relationship with the Bank is A.

Country Risk

The Bank has in place a Country Risk Management Framework which has been approved by the Board. This framework focuses on providing detailed roles and responsibilities with respect to country risk assessment as well as limit setting, exposure management and reporting of cross border exposure undertaken by the Bank. The Bank utilizes S&P, Fitch and Moody's country ratings as well as other macroeconomic and external risk factors in assigning a country risk limit. The Credit Monitoring Division is responsible for monitoring of country exposure limits.

Notes to the Consolidated Financial Statements

for the year ended December 31, 2016

Credit Administration

Credit Administration is involved in minimizing losses that could arise due to security and documentation deficiencies. The Credit Administration Function constantly monitors the security and documentation risks inherent in the existing credit portfolio through four regional credit administration departments located all over the country.

Risk Analytics

To ensure a prudent distribution of asset portfolio, the Bank manages its lending and investment activities within a framework of Borrower, Group and Sector exposure limits and risk profile benchmarks.

Internal Risk Rating Models

The Bank has developed internal risk rating models to assign credit risk ratings to its Corporate, Financial Institutions, SME and Consumer borrowers. These models are based on expert judgment, comprising both quantitative and qualitative factors. The rating models have been automated through the Bank's Risk Assessment and Management System (RAMS), and are given due weightage while extending credit to these asset classes. The Bank has also implemented a Facility Risk Rating Model to complement the Obligor Risk Rating Models.

Stress Testing

The Bank conducts stress testing of its existing advances portfolio. On a quarterly basis, an extensive stress testing activity is conducted by giving shocks to all assets of the Bank in line with SBP requirements and assessing its resulting effect on capital adequacy. The major shocks being applied relate to the deterioration in internal ratings of the obligors, adverse shift of regular borrowers to non-performing status, default by large borrowers or group of borrowers and their resultant impact on the provisioning requirements and capital adequacy.

Automated System

In order to ensure that monitoring of the regular lending portfolio focuses on problem recognition, an automated system in the form of a 'Watch-List' category has been instituted to cover the gap between Regular and Substandard categories. Identification of an account on the said 'Watch-List' triggers the lending branch to carry out an assessment of the borrower's ability to rectify the identified problem / weakness within a reasonable time-frame, consider tighter structuring of facilities, confirm that there are no critical deficiencies in the existing security position and, if possible, arrange for strengthening of the same through obtaining additional collateral. It should however, be noted that the 'Watch-List' category of accounts is part of the Bank's Regular portfolio and does not require any provisioning.

In some cases, an account may even be downgraded directly from a Regular to Sub-Standard or worse on subjective basis based on the severity of the trigger involved. The Bank has also implemented an Early Warning Alert engine that relays email alerts to users based on breach of defined triggers.

Management of Non Performing Loans

The Bank has a Special Asset Management Group (SAMG), which is responsible for management of non performing loans. SAMG undertakes restructuring / rescheduling of problem loans, as well as litigation both civil and criminal for collection of debt.

For the non-performing loan portfolio, the Bank makes a specific provision based on an assessment of the credit impairment of each loan. At the end of 2016, the coverage ratio was 91.94% of the non-performing loan portfolio.

The accounting policies and methods used to determine specific and general provision are given in the Note 5 and 10 to these financial statements. The movement in specific and general provision held is given in Note 10.4 to these financial statements.

Portfolio Diversification

Efficient diversification has been a key consideration for maintaining healthy advances portfolio. The diversification takes into account the volatility of various sectors by placing concentration limits on lending to these sectors thereby ensuring a diversified advances portfolio. Composition of the Bank's advances portfolio is significantly diversified. Power, Gas, Petroleum, Chemical, Commodity, Textiles and Financial sector are major contributors to the advances portfolio. These sectors are considered to be the biggest contributors towards country's GDP as well.

41.1.2 Credit Risk - General Disclosures

The Bank is following standardized approach for all its Credit Risk Exposures.

41.1.2.1 Credit Risk: Disclosures for portfolio subject to Standardized Approach and supervisory risk weights in IRB approach Basel II specific

Under standardized approach, the capital requirement is based on the credit rating assigned to the counterparties by the External Credit Assessment Institutions (ECAIs) duly recognized by SBP for capital adequacy purposes. In this connection, the Bank utilizes the credit ratings assigned by ECAIs and has recognized agencies such as PACRA (Pakistan Credit Rating Agency), JCR-VIS (Japan Credit Rating Company – Vital Information Systems), Fitch, Moody's and Standard & Poors which are also recognized by the SBP. The Bank also utilizes rating scores of Export Credit Agencies (ECA) participating in the "Arrangement on Officially Supported Export Credits".

The Standardised Approach to credit risk sets out fixed risk weights corresponding, where appropriate, to external credit assessment levels or for unrated claims.

Selection of ECAIs

The Bank selects particular ECAI(s) for each type of claim. Amongst the ECAIs that have been recognised as eligible by SBP, the following are being used against each respective claim type.

Sovereigns Exposures: For foreign currency claims on sovereigns, the Bank uses country risk scores of Export Credit Agencies (ECA) participating in the "Arrangement on Officially Supported Export Credits" available on OECD's website.

Exposures to Multilateral Development Banks (MDBs): For exposures on MDBs not eligible for a 0% risk weight, ratings of Moody's, S&P and Fitch are being used to calculate risk-weighted assets.

Exposures to Public Sector Entities (PSEs): For PSE exposures, ratings of PACRA and JCR-VIS are used to arrive at risk weights.

Bank Exposures: For foreign banks (i.e., incorporated outside Pakistan), ratings of Moody's, S&P and Fitch is being used to arrive at risk weights. However, for local banks (i.e., incorporated in Pakistan) ratings of PACRA and JCR-VIS are used.

Corporate Exposures: Ratings assigned by PACRA and JCR-VIS are used for claims on Corporates (excluding equity exposures).

Use of ECAI Ratings

The Bank prefers solicited ratings over unsolicited ratings at all times, owing to the greater degree of accuracy (in general) associated with solicited ratings as compared to unsolicited ratings. Unsolicited ratings may only be used in cases where a solicited rating is not available.

Mapping to SBP Rating Grades

The selected final ratings (after application of the principles stated above) for all exposures need to be translated to the standard rating grades given by the SBP. In this regard, the mapping tables to be used for converting ECAI ratings to SBP rating grades are given below:

41.1.2.2 Credit Risk: Disclosures with respect to Credit Risk Mitigation for Standardized Approach

The Bank has adopted the Simple Approach of Credit Risk Mitigation for the Banking Book. Since, the Trading Book of the Bank only comprises equity investments and units in open ended mutual funds, therefore no Credit Risk Mitigation benefit is taken in the Trading Book. In instances where the Bank's exposure on an obligor is secured by collateral that conforms with the eligibility criteria under the Simple Approach of CRM, then the Bank reduces its exposure under that particular transaction by taking into account the risk mitigating effect of the collateral for the calculation of capital requirement i.e. risk weight of the collateral instrument securing the exposure is substituted for the risk weight of the counter party.

The Bank accepts cash, lien on deposits, government securities and eligible guarantees etc. under the simple approach of Credit Risk Mitigation. The Bank has in place detailed guidelines with respect to valuation and management of various collateral types. In order to obtain the credit risk mitigation benefit, the Bank uses realizable value of eligible collaterals to the extent of outstanding exposure.

Since no specific asset is available by way of security in the context of unfunded credit protection, the creditworthiness and reliability of the provider and the validity and enforceability of that party's obligations is of paramount importance. Therefore, unfunded credit protection is only "eligible" if it is provided by an appropriate counterparty which may include National Government, Central Bank and other reputable financial institutions etc.

41.2 Equity Position Risk in the Banking Book

The Bank makes investment for variety of purposes. Some of the investment positions of equity holding are made for long term revenue generation as part of strategic initiatives, while other equity holdings are held to earn capital gain and dividend to support the Bank's business activities.

Classification of investments

Under SBP's directives, equity investment may be classified as 'held-for-trading (HFT)', 'available-for-sale (AFS)' or 'Investment in Subsidiaries and Associates'. Some of the equity investments are listed and traded in public through stock exchanges, while other investments are unlisted.

Policies, valuation and accounting of equity investments

In accordance with the requirements of the SBP, quoted securities are carried at market value whereas investments in subsidiaries are accounted for in accordance with the relevant International Accounting Standard as applicable in Pakistan.

The unrealized surplus / (deficit) arising on revaluation of the bank's 'held-for-trading' investment portfolio is taken to the profit and loss account. The surplus / (deficit) arising on revaluation of quoted securities classified as 'available-for-sale' is kept in a separate account shown in the balance sheet below equity. The surplus / (deficit) arising on these securities is taken to the profit and loss account when actually realised upon disposal.

Unquoted equity securities are valued at the lower of cost and break-up value. Subsequent increases or decreases in the carrying value are credited / charged to profit and loss account. Break-up value of equity securities is calculated with reference to the net assets of the investee company as per the latest available audited financial statements. Investments in other unquoted securities are valued at cost less impairment losses, if any. Provision for diminution in the value of securities is made after considering impairment, if any, in their value.

Profit and loss on sale of investments is included in income currently.

Notes to the Consolidated Financial Statements

The cumulative gain of Rs. 140.585 million (2015: 122.055 million) was realized from sale of equity securities / certificates of close ended mutual funds and units of open ended mutual funds; however unrealized gain of Rs. 21,713.786 million (2015: Rs. 15,312.031 million) was recognized in the statement of financial position in respect of 'available-for-sale' securities.

41.2.1 Market Risk

The Bank is exposed to Foreign Exchange Rate Risk, Interest Rate Risk and Equity Price Risk.

Market Risk performs risk measurement, monitoring and control functions through use of various risk procedures and models. To give it a formal structure, all the policies and guidelines are approved by the Board and relevant management committees. The Bank appointed services of a foreign risk advisory firm for assistance in establishment of Market Risk Management Framework.

Market Risk Pertaining to the Trading Book

Trading Book

A trading book consists of positions in financial instruments held either with trading intent or in order to hedge other elements of the trading book. To be eligible for trading book, financial instruments must be held with the intent of trading and free of any restrictive covenants on their tradability. In addition, positions need to be frequently and accurately valued and the portfolio should be actively managed.

The Bank's trading book includes securities classified as 'held-for-trading', 'Open Ended Mutual Fund' and listed equity placed in 'available-for-sale'. These positions are exposed to all forms of market risk, therefore, are managed actively.

Risk Pertaining to Banking Book Investment Portfolio

All investments excluding trading book are considered as part of banking book. Banking book includes:

- i) Available-for-sale securities - (other than listed equity)
- ii) Held-to-maturity securities

Treasury investments parked in the banking book include:

- i) Government securities
- ii) Capital market investments
- iii) Investments in bonds, debentures, etc.

Due to the diversified nature of investments in banking book, it is subject to interest rate and equity price risk.

Interest Rate Risk – Banking Book

Government securities (PIBs & T-Bills), Bonds, Debentures, etc. and other money market investments are subject to interest rate risk. To capture the risk associated with these securities, extensive modelling is being done with respect to duration analysis. Stress testing and scenario models are also in place to capture the sensitivity of the portfolio to adverse movement in interest rates. For prudent risk management, all money market investments are marked to market to assess changes in the market value of investments due to interest rate movements.

Stress Testing

The Bank also conducts Stress Testing of the Bank's investment portfolio to ascertain the impact of various scenarios on the capital adequacy and sustainability of the Bank. The exercise assumes various stress conditions, with respect to Market Risk (Rise or Fall in Interest Rates, leading to interest rate risk), Equity Price Risk resulting from Stock Market movements, FX Rate Risk leading from adverse movements in exchange rates and Liquidity Risk (ability to meet short-term obligations if there is a run on deposits).

Notes to the Consolidated Financial Statements

for the year ended December 31, 2016

41.2.2 Foreign Exchange Risk

Foreign Exchange Risk is the risk of loss arising from fluctuations of exchange rates. Bank's FX Risk is largely mitigated by following a matched funding policy whereas for any mismatched exposures, the Bank utilizes appropriate derivative instruments such as Forwards and Swaps.

The majority of net foreign currency exposure is in US Dollars. The Bank carefully monitors the net foreign currency exposure and the effect of exchange rate fluctuations by conducting sensitivity analysis and stress testing, as well as utilizing the currency forwards and swaps to hedge the related exposure.

41.2.3 Equity Position Risk

The Board, based on the recommendations of ALCO, approves exposure limits applicable to investments in Trading and Banking Book. Equity securities are perpetual assets and are classified under either 'held-for-trading' Portfolio or 'available-for-sale' Portfolio.

Concentration Risk

ALCO is responsible for making investment decisions regarding capital market investments, whereas limit setting with respect to portfolio, sector and scrip wise limits is done by BRMC / BOD to guard against concentration risk. Further, these limits are reviewed and revised periodically. The capital market desk ensures compliance of concentration limits whereas limit monitoring is done by Market & Liquidity Risk Division on a daily basis and breaches (if any) are promptly reported with proper reason.

Price Risk

Trading and investing in equity securities give rise to price risk. ALCO and Capital Market Unit both ensure that through prudent trading strategy and use of equity futures, the equity price risk is mitigated, albeit to a certain extent.

41.3

Liquidity Risk

Liquidity risk is the risk that the Bank is unable to fund its current obligations and operations in the most cost efficient manner. Bank's BoD have delegated the responsibility to ALCO for ensuring that Bank's policy for liquidity management is adhered to on a continual basis.

Other than customer's deposits, the Bank's funding source is the inter-bank money market. Change in the government monetary policy and market expectations of interest rate are all important factors that can adversely affect our key funding source. Efficient and accurate planning plays a critical role in liquidity management. Our MIS provides information on expected cash inflows/out flows which allow the Bank to take timely decisions based on the future requirements.

Gap analysis, stress testing and scenario analysis is done on periodic basis to capture any adverse effect of market movements on liquidity position. Based on the results produced, ALCO devise the liquidity management strategy to maintain sufficient liquidity to deal with any related catastrophe.

Notes to the Consolidated Financial Statements

for the year ended December 31, 2016

41.5 Operational Risk

The Bank, like all financial institutions, is exposed to many types of operational risks, including the potential losses arising from internal activities or external events caused by breakdowns in information, communication, physical safeguards, business continuity, supervision, transaction processing, settlement systems and the execution of legal, fiduciary and agency responsibilities.

In accordance with the BoD approved Operational Risk Policy, Bank maintains a system of internal controls designed to keep operational risk at appropriate levels, in view of the bank's financial strength and the characteristics of the activities and market in which it operates. These internal controls are periodically updated to conform to industry best practice.

Further, detailed data of operational losses is being maintained, in conformance with regulatory guidelines. Major Operational Risk events are also analyzed from the control breaches perspective and mitigating controls are assessed on design and operating effectiveness. Quarterly updates on Operational Risk events are presented to senior management and Board's Risk Management Committee & BoD.

The Bank has also developed a Business Continuity Plan applicable to all its functional areas. The Bank updates functional BCPs on annual basis or at any process change.

The Bank is also implementing internationally accepted Integrated Framework on Internal Control issued by the Committee of Sponsoring Organizations of the Tread way Commission (COSO), with a view to consolidate and enhance the existing internal control processes.

The Bank with permission of SBP is conducting a parallel run for Alternate Standardized Approach (ASA) for Basel II – Operational Risk Capital Charge Reporting, which signifies readiness of the Bank to move to advance approach.

42 NON ADJUSTING EVENT AFTER THE REPORTING DATE

The Board of Directors of the Bank in its meeting held on February 09, 2017 has proposed a cash dividend in respect of 2016 of Rs. 1.75 per share (2015: cash dividend Rs. 1.75 per share). This appropriation will be approved in the forthcoming Annual General Meeting. The consolidated financial statements of the Bank for the year ended December 31, 2016 do not include the effect of these appropriations which will be accounted for in the consolidated financial statements for the year ending December 31, 2017.

43 GENERAL
