Economic Review

Pakistan's economic indicators are gradually moving from stabilization to growth phase despite challenges from persistent energy crisis, law and order situation and fiscal imbalances. The drop in international oil prices has provided distinct opportunity to oil importing nations like Pakistan to develop structural reforms while maintaining fiscal discipline.

Inflationary pressures remained muted during the quarter under review with CPI inflation reaching 3.2% on YoY basis as compared to 8.2% in corresponding period of 2014. Inflation for FY14-15 remained within Government's revised target of 4%-5%. Going forward, inflation for FY15-16 is expected to increase but likely to stay within GOP's forecast of 6%.

With inflation at manageable level and to augment private sector credit off-take, SBP further reduced discount rate (ceiling rate) by 100 basis points during quarter under review; with a cumulative decrease of 300 basis points during FY14-15. During the quarter under review SBP also introduced "SBP Target Rate" which was set 50 basis points below ceiling rate and referred it as "Policy Rate of SBP" effectively reducing the benchmark rate to 6.5%, with effect from May 25, 2015. The monetary easing has been initiated to induce growth within the economy. Large Scale Manufacturing (LSM) growth though remained subdued at 3.3% between Jul'14 and May'15; the chronic energy crisis remained the primary factor for this lackluster growth. However, construction, mining and quarrying along with agriculture sector remained buoyant.

During the half year foreign exchange reserves continued to grow on sustainable basis, with end-June'15 reserves reaching record levels of US\$18,677 million. The improvement in reserves was mainly driven by disbursement from international multilateral agencies, rising remittances inflow of US\$ 18,454 million during FY14-15 and low international oil prices which resulted in YoY 21% decline in the oil import bill. Exchange parity between US\$ and Pakistani Rupee also remained stable during the period as a result of stable foreign exchange reserves position. In view of the above situation, external current account (CA) deficit also lowered to 0.8% of GDP in Jul'14-May'15 as compared to 1.4% in corresponding period.

Broad Money (M2) growth picked up during second quarter resulting in Jan'15-Jun'15 growth of 9.8%. Nonetheless, the current year's growth is lower than past 5 financial year's average growth of 14.2%. The declining M2 growth translated into 9.6% growth in industry deposits during the half year, reaching Rs.9,141 billion at end-Jun' 15. Private sector credit appetite remained limited with industry advances increasing by just 3% during the half year to Rs.4,577 billion.

The trend within banking industry to redirect excess liquidity towards investments continued with volumetric growth in government securities. Investments reached Rs.5,812 billion at end-Jun'15, reflecting 14% growth over Dec'14 levels.

In view of positive economic developments, Moody's Investors Service upgraded the Pakistan's bond rating to B3 from Caa1, and assigned a stable outlook.

Financial Review

Your Bank remained steadfast amid a persistently challenging business environment coupled with declining interest rate scenario, shrinking spreads and changes in taxation laws. Strategy of optimizing asset mix, mobilization of low cost deposit, together with sustained focus on

Directors' Review

serving customers through integrated banking solutions, evolving risk management framework, consistent investment in technology and continued optimization of operational activities to bring about cost rationalization has assisted Your Bank to deliver stable results.

Profit Before Tax of Your Bank increased by 26.0% to reach Rs.13,579 million during the half year ended June 30, 2015 as compared to Rs.10,777 million in the corresponding period of previous year.

Finance Act 2015 promulgated one time super tax at 4% on the taxable income of the Bank and application of uniform tax rate of 35% effective from January 01, 2014. This has resulted in additional tax charge of Rs.1,460 million and effective tax rate of 46% as against 34% in the corresponding period of previous year as explained in note 16 of the appended financial statements.

Despite the additional tax charge, Profit After Tax registered growth of 3.6% reaching Rs.7,357 million as compared to Rs.7,103 million in corresponding period of 2014. EPS of Your Bank increased to Rs.6.42 per share in June 2015 compared to Rs.6.20 per share in June 2014. ROE and ROA of 23.1% and 1.67% respectively were achieved during the period under review. Excluding the impact of prior year tax charge of Rs.1,460 million, Profit after tax amounts to Rs. 8,816 million showing a growth of 24% over June 30, 2014; Similarly EPS, ROE and ROA of Your Bank improves to Rs. 7.70 per share, 27.7% and 2.0% respectively upon aforementioned exclusion.

The Bank's Net Markup Income increased by 35% to Rs.17,385 million for the half year ended June 30, 2015 as against Rs.12,861 million in the corresponding period of last year. Despite reduction in discount rate, the positive variance is primarily driven by optimization of asset mix.

Net provision charge for the half year ended June 30, 2015 was Rs.550 million as compared to net charge of Rs.1.7 million in the corresponding period of last year; mainly on account of provision of Rs.685 million against exposure in BYCO Petroleum Pakistan Limited in the first guarter 2015.

Non Mark-up/Interest Income marginally declined by Rs.491 million to close at Rs.5,675 million during the period. The decrease is primarily attributable to lower capital gains realized during the period which also off-setted the impact of higher forex, fee and dividend income.

Despite network expansion from 964 branches in June 2014 to 1,000 branches in June 2015 and underlying inflationary impacts, overall administrative expenses were controlled to increase by just 8.7% over the corresponding period of last year.

While maintaining the emphasis on cost effective deposit mix, Your Bank's deposits increased to Rs.711,053 million as at June 30, 2015, a growth of 6.5% over Dec'14; Net advances decreased by Rs.4,500 million to close at Rs.301,514 million. Investments increased by Rs.48,135 million or 11.2% compared to the Dec'14 to reach Rs. 476,925 million.

Continuous focus on asset quality yielded results and Non-performing loans decreased by Rs.357 million during the half year to close at Rs.22,565 million. Infection ratio as at June 30, 2015 remained at December 2014 level of 7.0%. Meanwhile, loan loss coverage improved to 88.8% as at June 30, 2015 compared to 86.4% as at December 31, 2014. No FSV benefit has been taken while determining the provision against Non-Performing Advances as allowed under BSD Circular No. 01 of dated October 21, 2011.

Total assets and equity of Your Bank as at June 30, 2015 stood at Rs. 917,900 million and Rs. 86,147 million respectively registering a growth of 9% and 6% respectively.

Future Outlook

The implementation of fiscal management and stabilization of policies has created a stable economic environment; coupled with low inflationary pressure due to drop in international oil prices, steady build up of foreign exchange reserves and healthy foreign home remittances. Pakistan's economy remains on recovery path. Going forward, key challenges shall remain resolution of energy crisis and improving law and order situation. The recent bilateral agreements with China when materialized could help revive investment and augment GDP growth in the long term. Addressing structural bottlenecks especially energy related issues and improvement in security situation will remain imperative to achieve sustained growth objectives.

Banking sector will continue to face an evolving operating environment. While enactment of flat tax rate on all sources of income effective from Jan 01, 2014, imposition of one off super tax, changes in withholding tax regime on banking transactions, falling benchmark discount interest rates which reached historical low levels, pose challenges to banking sector profitability. Gradual improvement in overall economic environment shall present opportunities to banking sector to diversify revenue streams and venture in to previously untapped market segments.

Despite challenges and evolving operating environment the Bank through utilization of latest technology platforms, robust risk management framework, multiple delivery channels and banking franchise is in a position to deliver steady growth. During the period under review, Your Bank has achieved status of Primary Dealer for government securities from State Bank of Pakistan, which shall also assist in revenue diversification. In addition, the gradual expansion in Islamic Banking and focus on diversifying revenue stream through various initiatives like introduction of branchless/mobile banking to tap into large unbanked population and launch of products and services tailored to customers' needs shall contribute to sustained profitability in medium to long term.

12.12 Other Contingencies

- 12.12.1 There is no change in the status of contingencies, set out in note 22.11 to the unconsolidated financial statements of the Bank for the year ended December 31, 2014, except for the contingencies as mentioned below:
- 12.12.2 The income tax assessments of the Bank have been finalized upto and including tax year 2014 for local and Azad Kashmir operations. While finalizing income tax assessments upto tax year 2014, income tax authorities made certain add backs with aggregate tax impact of Rs. 20,801 million (2014: 19,048 million). As a result of appeals filed by the Bank before appellate authorities, most of the add backs have been deleted. However, the Bank and Tax Department are in appeals/references before higher forums against unfavorable decisions. Pending finalization of appeals/references, no provision has been made by the Bank on aggregate sum of Rs. 20,801 million (2014: 19,048 million). The management is confident that the outcome of these appeals/references will be in favor of the Bank.

Tax Authorities have conducted proceedings of withholding tax audit under section 161/205 of Income Tax Ordinance, 2001 for tax year 2005, 2006 and tax year 2008 to 2014 and created an arbitrary demand of Rs. 1,218 million (2014: 1,218 million). The Bank's appeals before CIR(A)/Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that these appeals will be decided in favor of the Bank; therefore, no provision has been made against the said demand of Rs. 1,218 million).

Tax authorities have also issued orders under Federal Excise Act, 2005/Sales Tax Act, 1990/Sindh Sales Tax on Services Act 2011 for the year 2008 to 2014 thereby creating arbitrary aggregate demand of Rs. 633 million (2014: 573 million). The Bank's appeals before CIR(A)/Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that aforesaid demand will be deleted by appellate authorities and therefore no provision has been made against the said demand of Rs. 633 million (2014: 573 million).

- 12.13.1 There is no change in the status of contingencies, set out in note 22.11 to the consolidated financial statements of the Group for the year ended December 31, 2014, except for the contingencies as mentioned below:
- 12.13.2 The income tax assessments of the Bank have been finalized upto and including tax year 2014 for local and Azad Kashmir operations. While finalizing income tax assessments upto tax year 2014, income tax authorities made certain add backs with aggregate tax impact of Rs. 20,801 million (2014: 19,048 million). As a result of appeals filed by the Bank before appellate authorities, most of the add backs have been deleted. However, the Bank and Tax Department are in appeals/references before higher forums against unfavorable decisions. Pending finalization of appeals/references, no provision has been made by the Bank on aggregate sum of Rs. 20,801 million (2014: 19,048 million). The management is confident that the outcome of these appeals/references will be in favor of the Bank.

Tax Authorities have conducted proceedings of withholding tax audit under section 161/205 of Income Tax Ordinance, 2001 for tax year 2005, 2006 and tax year 2008 to 2014 and created an arbitrary demand of Rs. 1,226 million (2014: 1,226 million). The Bank's appeals before CIR(A)/Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that these appeals will be decided in favor of the Bank; therefore, no provision has been made against the said demand of Rs. 1,226 million (2014: 1,226 million).

Tax authorities have also issued orders under Federal Excise Act, 2005/Sales Tax Act, 1990/Sindh Sales Tax on Services Act 2011 for the year 2008 to 2014 thereby creating arbitrary aggregate demand of Rs. 633 million (2014: 573 million). The Bank's appeals before CIR(A)/Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that aforesaid demand will be deleted by appellate authorities and therefore no provision has been made against the said demand of Rs. 633 million (2014: 573 million).
