Economic Review

The year 2024 commenced amidst a backdrop of mixed developments and uncertain expectations for economic recovery. Despite ongoing geopolitical conflicts and lingering supply chain disruptions from the pandemic, global economic activity demonstrated resilience. Central banks worldwide continued to implement high-interest-rate policies aimed at curbing inflation. The International Monetary Fund (IMF) reflected this cautious outlook in its latest update. In the April 2024 World Economic Outlook, the IMF adjusted its projection for global growth in 2024 upward to 3.2%, a marginal increase of 0.1% from its earlier forecast in January 2024.

According to the IMF, Global headline inflation is expected to decrease from an annual average of 6.8% in 2023 to 5.9% in 2024. In contrast, domestic headline inflation is projected to be 24.8% for 2024, up by 1.2% from the previous projection in October WEO of the IMF.

Domestically, Pakistan is navigating a series of challenges including uncertain political climate, high inflation and weakened business confidence. Despite these difficulties, there are short-term signs of economic improvement. The IMF projects Pakistan's Gross Domestic Product (GDP) growth at 2.0% for 2024 and 3.5% for 2025. Similarly, State Bank of Pakistan (SBP) anticipates GDP growth to remain in the range of 2% to 3% for 2024.

Large Scale Manufacturing (LSM) showed a year-on-year increase of 1.8% in January 2024, which is a significant improvement compared to a decline of 5.6% observed in January 2023. During Jul-Jan FY'24, 12 out of 22 sectors recorded positive growth. These sectors include Food, Beverages, Apparel, Leather, Wood products, Coke & Petroleum Products, Chemicals, Pharmaceuticals, Rubber

Products, Machinery and Equipment, Furniture and Others which notably includes Football manufacturing.

On the external front, Pakistan has seen a substantial reduction in its current account deficit (CAD) which decreased by 74% to US\$ 1.0 billion during Jul-Feb FY'24 as compared to US\$ 3.9 billion in the same period of FY'23. Additionally, the trade deficit stood at US\$ 15.4 billion during Jul-Feb FY'24, compared to US\$ 19.0 billion during Jul-Feb FY'23, marking a decrease of 19%.

Exports increased by 8% to US\$ 25.6 billion during Jul-Feb FY'24 up from US\$ 23.8 billion during Jul-Feb FY'23. In February 2024, there was a 14% growth in exports on YoY basis. However, on month-on-month basis, exports declined by 6%. According to the Pakistan Bureau of Statistics (PBS), the commodities that registered positive growth in exports include Rice, Fruits, Cotton Yarn, Towel, Rubber Tyers & Tubes, and Plastic Materials.

On the other hand, imports decreased by 4% to US\$ 41.1 billion during Jul-Feb FY'24, from US\$ 42.8 billion during Jul-Feb FY'23. Despite the overall decrease, there was an increase of 12% in imports on YoY basis during the month of February 2024. However, on MoM basis, imports decreased by 9%, falling to US\$ 5.1 billion in February 2024 from US\$ 5.6 billion in January 2024.

Workers' remittances recorded at US\$ 18.1 billion during Jul-Feb FY'24, slightly declined by 1.2% from US\$ 18.3 billion in the corresponding period last year. However, in the month of February 2024 it increased by 13% on YoY basis to record at US\$ 2.3 billion as compared to US\$ 2.0 billion in the month of February 2023.

Pakistan's total foreign exchange reserves stood at US\$ 13.4 billion at the end of March 2024, compared to US\$ 9.2 billion at the end of March 2023 showing an increase of 46%. Whereas, reserves with SBP increased by 91% to US\$ 8.0 billion at the end of March 2024 from US\$ 4.2 billion at the end of March 2023.

During Jul-Feb FY'24, Foreign Direct Investment (FDI) amounted to US\$ 820.6 million, showing a decrease of 17% compared to US\$ 990.2 million in the same period last year. However, in February 2024, FDI witnessed a growth of 16% to record at US\$ 131 million from US\$ 113 million in the same month last year. Power sector attracted the highest FDI share of 30%, whereas Oil & Gas exploration and Financial Business sectors attracted 18% and 15% respectively of total FDI. Foreign Portfolio Investment recorded an inflow of US\$ 111.7 million during Jul-Feb FY'24 as against an outflow of US\$ 1,017.4 million in the same period last year.

Considering various developments on the political and economic fronts, the Pakistan Stock Exchange (PSX) experienced positive performance in February 2024. The benchmark KSE-100 index closed at 64,579 points on February 29, 2024. Additionally, the market capitalization of the PSX was recorded at Rs. 9.35 trillion in March 2024.

Money supply (M2) stood at Rs. 33,739 billion at the end of March 2024, compared to Rs. 28,814 billion at the end of March 2023 depicting a growth of 17%. Currency in Circulation (CIC) was recorded at Rs. 8,651 billion by the end of March 2024 increased by 5% from Rs. 8,271 billion at the end of March 2023.

For March 2024, the National Consumer Price Index (CPI) remained at a 20.7% increase on a YoY basis, compared to a 23.1% increase in the previous month. On a MoM basis, it increased by 1.7% in March 2024, compared to no change observed in the previous month.

Considering the moderate pickup in economic activity, along with the rebound in agriculture output, improvements in external account balance, a downward trend in inflation and modest trend in commodity prices, the monetary policy committee (MPC) decided to keep the policy rate at 22% in its recent meeting. However, despite the decline in inflation in February 2024, the level of inflation remains high and its outlook is still vulnerable.

Financial Review

The banking sector maintained its resilience during the first quarter of 2024. Despite facing challenges, the sector managed to expand its asset base slightly by 0.1%, reaching Rs. 45,263 billion as of March 31, 2024, up from Rs. 45,183 billion as on December 31, 2023. Investments increased by 4%, to Rs. 26,270 billion at the end of the period, compared to Rs. 25,280 billion on December 31, 2023. However, gross advances of the banking industry decreased by 3%, recorded at Rs. 11,964 billion as on March 31, 2024 down from Rs. 12,352 billion as on December 31, 2023. On the liabilities side, total deposits grew by 2%, standing at Rs. 28,322 billion at the end of the quarter, compared to Rs. 27,841 billion as on December 31, 2023.

Positive volumetric growth in average earning assets, supported by improving spreads and effective duration management of investments, enabled the Bank to post higher markup income of Rs. 94,312 million for the quarter ended March 31, 2024. This represents a 27% increase from Rs. 74,040 million for the quarter ended March 31, 2023.

Mark-up/Interest expense for the quarter ended March 31, 2024, increased to Rs. 65,165 million, up from Rs. 53,527 million in the corresponding period last year, representing an increase of 22%. This rise is attributable to higher cost of deposits and interest expense on right of use of assets which were partially offset by lower borrowing expense. Consequently, net markup and interest income was recorded at Rs. 29,147 million for the quarter under review,

compared to Rs. 20,513 million for the corresponding period last year, depicting a remarkable growth of 42%.

An increase in fee income by 41% to Rs. 3,549 million as of March 31, 2024, up from Rs. 2,518 million as of March 31, 2023, was driven by higher card-related fees, income from remittances, investment banking fees, branch banking customer fees, and commissions on trade.

Capital Gain increased by 70% to Rs. 303 million for the quarter ended March 31, 2024, up from Rs. 178 million as on March 31, 2023, due to higher gain on Federal government securities. Additionally, dividend income for the quarter under review reached Rs. 976 million, an increase of 11% compared to Rs. 879 million for the corresponding quarter last year.

Foreign Exchange Income of Your Bank reached Rs. 1,272 million for the quarter ended March 31, 2024, compared to Rs. 3,243 for the corresponding quarter last year, representing a decrease of 61%. This reduction is primarily attributable to lower volatility in the interbank market and improved liquidity as compared to same period last year.

Other income stood at Rs. 235 million for the quarter ended March 31, 2024, compared to Rs. 26 million for the quarter ended March 31, 2023.

Owing to higher fee income, other income, capital gain and dividend income, partially offset by lower foreign exchange income, total non-markup income of Your Bank decreased by 7% to reach Rs. 6,335 million for the quarter ended March 31 2024, compared to Rs. 6,843 million for the corresponding quarter last year.

Growth in administrative expenses has been restricted to 15%, reaching Rs. 13,378 million for the first Quarter of 2024, compared to Rs. 11,621 million for the first quarter of 2023. This increase is due to higher salaries & benefits expenses, depreciation, utilities expenses, IT expenses, security service charges and repair and maintenance.

Profit before taxation of Your Bank was recorded at Rs. 22,266 million for the quarter ended March 31, 2024, compared to Rs. 13,426 million for the same quarter last year, marking a significant increase of 66%.

IFRS-9 has been implemented to annual periods beginning on or after January 01, 2024. The Bank has opted for modified retrospective approach and has not restated comparative amounts. Any adjustments to the carrying amounts of financial assets and liabilities at the date of transition were recognized in the opening retained earnings and other reserves at the beginning of the current year.

Total Investments of Your Bank stood at Rs. 1,165,710 million as on March 31,2024 in comparison with Rs. 1,150,318 million as on December 31, 2023. This mainly pertains to increase in Pakistan Investment Bonds and higher revaluation gains partially offset by lower treasury bills.

Lendings to financial institutions stood at Rs. 44,591 million as on March 31, 2024 as compared to Rs. 9,418 million as on December 31, 2023 due to increase in Repo Lendings and Call Money Lendings.

Return on Equity of Your Bank stood at 29.3% as on March 31, 2024, compared to 29.4% as on December 31, 2023.

Capital Adequacy Ratio of Your Bank was 27.42% as of March 31, 2024, compared to 26.21% as of December 31, 2023.

Future Outlook

Global growth is showing signs of improvement earlier than expected due to moderating risks. The IMF’s recent April 24 WEO projects global growth at 3.2% for 2025 and 3.1% for 2029. However, inflation for 2025 is expected to be 4.5%, slightly higher by 0.1% than the earlier projection of 4.4% in the IMF’s January 2024 outlook.

Despite a deceleration in domestic inflation in February 2024, the level of inflation remains high. Fully aware of this concern, the MPC has maintained its current stance with the aim of reducing inflation to the target range of 5-7% by September 2025.

Entity Rating

Pakistan Credit Rating Agency (PACRA) maintained the Bank’s long-term and short-term credit rating at the highest

level of “AAA” (Triple A) and “A1+” (A One Plus) respectively. These ratings indicate highest credit quality and an exceptionally strong capacity for payment of financial commitments. Your Bank has consolidated its position as one of the select group of financial institutions in the Country to maintain highest entity credit ratings.

Corporate Governance Rating

VIS Credit Rating Company Limited (VIS) has maintained Corporate Governance Rating of Allied Bank Limited (ABL) at “CGR-9+” out of maximum scale of 10. This Corporate Governance Rating of CGR-9++ indicates strong commitment of the Bank towards governance framework.

معاشی تجزیہ :

سال 2024ء کا آغاز ملٹی پلٹی پیش رفتوں اور معاشی بحالی کے لیے غیر یقینی توقعات کے پس منظر میں ہوا۔ مغربی دیہائی جاری تنازعات اور عالمگیر دہاء کے دورے درجی رسد کی ترسیل میں حائل رکاوٹوں کے باوجود، عالمی معاشی سرگرمی نے بھرپور پلک اور مضبوطی کا مظاہرہ کیا ہے۔ افراط زر میں بتدریج کمی کے مقصد کے تحت، دنیا بھر کے مرکزی بینکوں نے بلند انٹرسٹ ریت کی پالیسیوں کا نفاذ اور عمل درآمد جاری رکھا۔ بین الاقوامی مالیاتی فنڈ (آئی ایم ایف) نے اپنے تاز ترین اپ ڈیٹ میں اس محتاط پیش بینی کی عکاسی کی ہے۔ اپریل 2024ء میں جاری کردہ عالمی معاشی پیش بینی (ورلڈ آؤٹ لاک - WEO) میں آئی ایم ایف نے عالمی نمو کی شرح میں جنوری 2024ء میں اپنی سابقہ اعزاز کی گئی شرح 1.0 فیصد کے معمولی اضافے کی مطابقت کرتے ہوئے اسے 2 فیصد پر تخمینہ کیا ہے۔ آئی ایم ایف کے مطابق عالمی بیڈلائن (سریشلی) افراط زر کی شرح سال 2023ء میں 8 فیصد کی سالانہ اوسط میں کمی کا اعزاز کرتے ہوئے، سال 2024ء میں اسکی شرح 5.9 فیصد آنے کی توقع ظاہر کی ہے۔

اس کے برعکس، ملکی بیڈلائن (سریشلی) افراط زر کی شرح 24.8 فیصد پر پہنچنے کی توقع ہے جو کہ آئی ایم ایف کے اکتوبر میں جاری کردہ عالمی معاشی پیش بینی کے سابقہ تخمینے سے 1.2 فیصد زیادہ ہے۔

داخلی طور پر، پاکستان غیر یقینی سیاسی صورتحال، بلند افراط زر اور کمزور کاروباری اعتماد جیسے چیلنجز میں گھرا ہوا ہے۔ ان مشکلات کے باوجود قلیل مدت میں معیشت کے ابھرنے اور بہتر ہونے کے روشن امکانات ہیں۔ آئی ایم ایف نے پاکستان کی کل داخلی پیداوار (جی ڈی پی) کی عمومی شرح کو سال 2024ء کے لیے 2 فیصد، جبکہ سال 2025ء کے لیے 3.5 فیصد

تجدیلی واقع نہیں ہوتی تھی۔

معاشی سرگرمی میں درمیانے درجے کی بہتری اور اس کے ساتھ ساتھ زرعی پیداوار میں مضبوط کارکردگی، بیرونی اکاؤنٹ کے توازن میں بہتری، افراط زر میں کمی کے ریمان اور اجناس کی قیمتوں میں اعتدال کے ریمان کے مدونہ مانیٹرنگ پالیسی کئی نئے اپنے حالیہ اجلاس میں پالیسی ریٹ کو 22 فیصد شرح پر برقرار رکھا۔ تاہم فروری 2024ء میں کمی کے باوجود، افراط زر کی شرح میں بلندی کی روش برقرار ہے اور اس کی پیش بینی ابھی قدرے کمزور ہے۔

مالیاتی جائزہ:

بینکنگ کے شعبے نے سال 2024ء کی چھٹی سہ ماہی کے دوران اپنی مضبوطی اور پیک کو برقرار رکھا۔ کئی چیلنجز سے نبرد آزما ہونے کے باوجود یہ شعبہ اپنے اثاثہ جات کی اساس میں 31 دسمبر 2023ء کے 45,183 بلین روپے کے حجم کی نسبت 0.1 فیصد کی معمولی وسعت کے ساتھ 31 مارچ 2024ء تک اس کو 45,263 بلین روپے تک لانے میں کامیاب رہا۔ سرمایہ کاری 31 دسمبر 2023ء کے 25,280 بلین روپے کے مقابلے میں اس مدت کے اختتام تک 4 فیصد کے اضافے کے ساتھ 26,270 بلین روپے پر درج ہوئی۔ تاہم، بینکنگ کی صنعت کے کل قرضہ جات 31 دسمبر 2023ء کے 12,352 بلین روپے کی سطح سے 3 فیصد کی کمی کے ساتھ 31 مارچ 2024ء تک 11,964 بلین روپے پر ریکارڈ ہوئے۔ واجات کے حوالے سے، کل ڈیپازٹس 31 دسمبر 2023ء کے 27,841 بلین روپے کی نسبت اس سہ ماہی کے اختتام تک 2 فیصد کے اضافے کے ساتھ 28,322 بلین روپے پر جا پہنچے۔

اوسط پیداواری اثاثہ جات میں مثبت مقدار میں نمو اور اس کے ساتھ بہتر ہونے سہریز اور اپنی سرمایہ کاری کے موثر مدنی انتظام نے بینک کو 31 مارچ 2024ء کو اختتام پذیر سہ ماہی کے لیے 94,312 بلین روپے کی بلند مارک آمدنی حاصل کرنے میں مدد دی۔ یہ 31 مارچ 2023ء کو اختتام پذیر سہ ماہی کی حاصل شدہ 74,040 بلین روپے کی آمدنی سے 27 فیصد کے اضافے کا مظہر ہے۔

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies and methods of computation adopted in the preparation of these unconsolidated condensed interim financial statements are consistent with those applied in preparing the audited annual unconsolidated financial statements of the Bank for the year ended December 31, 2023 except for the adoption of the IFRS 9 Financial Instruments w.e.f January 01, 2024.

3.1 New Standards, Interpretations and amendments adopted by the Bank

Impact of IFRS 9 - Financial Instruments

As permitted by the transitional provisions of IFRS 9, the Bank has opted for modified retrospective approach and has not restated comparative figures. Any adjustments to the carrying amounts of financial assets and liabilities at the date of transition were recognised in the opening retained earnings and other reserves at the beginning of the current year without restating the comparative.

For notes disclosures, the consequential amendments to IFRS 7 disclosures as a result of adoption of IFRS 9 have also only been applied to the current period. The comparative period notes disclosures repeat those disclosures made in the prior year.

The adoption of IFRS 9 has resulted in changes in the accounting policies for recognition, classification and measurement of financial assets and financial liabilities and impairment of financial assets. IFRS 9 also significantly amends other standards dealing with financial instruments such as IFRS 7 'Financial Instruments: Disclosures'.

Notes to the Unconsolidated Condensed Interim Financial Statements (Un-audited) for the three months period ended March 31, 2024

3.1.2 Impact on equity and regulatory capital on adoption of IFRS 9

The total estimated adjustment (net of tax) of the adoption of IFRS 9 on the opening balance of the Bank's equity as at January 01, 2024 is a reduction in equity of approximately Rs. 2,722.8 million, with corresponding impacts as follows:

- A decrease of Rs. 3,115.641 million net of tax related to impairment requirements;
- An increase of Rs. 392.841 million net of tax related to classification and measurement changes.

In order to mitigate the impact of ECL provisioning on capital, a transitional arrangement is allowed to the banks to absorb the impact on regulatory capital. Accordingly, banks which choose to apply this transitional arrangement may implement this in accordance with SBP's Guideline for absorption of ECL for CAR purposes as mentioned in Annexure-B of BPRD Circular no. 3 of 2022.

The estimated impact of initial adoption of IFRS 9 on the Bank's capital ratios, without accounting for the allowed transitional arrangement, is as follows:

- Common Equity Tier 1 Capital Adequacy Ratio - 19.74%
- Tier 1 Capital Adequacy Ratio - 19.74%
- Total Capital Adequacy Ratio - 26.18%

3.1.3 The following explains how applying the new classification requirements of IFRS 9 led to changes in classification of certain financial assets held by the Bank as shown in the table above:

(a) Open ended mutual funds previously classified as available for sale (AFS) but which fail the SPPI test

The Bank holds a portfolio of mutual funds investments which was earlier classified as available for sale investments. However, these investments do not meet the definition of equity investment from holders perspective therefore IFRS 9 classification requirements of debt instruments have been applied to these

Notes to the Unconsolidated Condensed Interim Financial Statements

(Un-audited) for the three months period ended March 31, 2024

financial assets. The business model of this portfolio is hold to collect and sell, however contractual cash flows failed to meet the 'solely payments of principal and interest' (SPPI) test requirement for classification as FVOCI under IFRS 9. Therefore, these financial assets having a carrying value of Rs. 34.454 million have been reclassified mandatorily as FVTPL.

(b) Debt investments previously classified as available for sale (AFS) reclassified to amortized cost

At the date of initial application of IFRS 9, an entity shall assess the business model and the contractual terms of the financial asset on the basis of facts and circumstances that exist at the transition date. The Bank has identified certain portfolio of federal government securities under AFS category which have been held to collect the contractual cash flows and the contractual terms of the financial asset give rise to cash flows on specified dates that are solely payments of principal and interest (SPPI) on the principal amount outstanding. As a result, financial assets having fair value amounting to Rs. 104,223.092 million have been reclassified to Amortized cost at Rs. 120,334.806 million, instead of FVOCI.

(c) Investment in debt securities previously designated as held for trading

The Bank holds investment of Rs. 20,049.848 million in a portfolio of debt securities which had previously been designated as held for trading as the debt securities were managed on a fair value basis. As part of the transition to IFRS 9, these securities are part of an 'other' business model and so required to be classified as FVTPL category under IFRS 9, instead of designated FVTPL category under existing local regulations.

(d) Designation of equity instruments at FVOCI

The Bank has elected to irrevocably designate equity investments of Rs. 18,798.989 million in listed and unquoted securities as permitted under IFRS 9. These securities were previously classified as available for sale. The changes in fair value of such securities will no longer be reclassified to profit or loss when they are disposed of.

(e) Reclassification from retired categories with no change in measurement

In addition to the above, the following debt instruments have been reclassified to new categories under IFRS 9, as their previous categories under existing local regulations were 'retired', with no changes to their measurement basis:

- (i) Those previously classified as available for sale and now classified as measured at FVOCI; and
- (ii) Those previously classified as held to maturity and now classified as measured at amortised cost.

Several amendments apply for the first time in 2024, but do not have an impact on the unconsolidated condensed interim financial statements of the Bank:

	Effective date (periods beginning on or after)
- IAS 1 - Classification of Liabilities as Current or Non-current and 'Non-current Liabilities with Covenants - (Amendments)	January 01, 2024
- IAS 7 and IFRS 7 - Disclosures: Supplier Finance Arrangements - Amendments	January 01, 2024
- IFRS 16 - Lease Liability in a Sale and Leaseback - Amendments	January 01, 2024

Notes to the Unconsolidated Condensed Interim Financial Statements

(Un-audited) for the three months period ended March 31, 2024

3.2 Standards, interpretations of and amendments to accounting and reporting standards that are not yet effective

The following amendments to existing accounting standards will be effective from the dates mentioned below against the respective standard or amendment:

	Effective date (periods beginning on or after)
- IAS 21 - Lack of exchangeability - Amendments	January 01, 2025
- IFRS 10 and IAS 28 - Sale or Contribution of Assets between an Investor	Not yet announced

The above mentioned amendments are not likely to have a material impact on the Bank's financial statements.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The basis for accounting estimates adopted in the preparation of these unconsolidated condensed interim financial statements are the same as that applied in the preparation of the audited annual unconsolidated financial statements for the year ended December 31, 2023.

5. BASIS OF MEASUREMENT

These unconsolidated condensed interim financial statements have been prepared under the historical cost convention except for the following which are stated at revalued amounts / fair values / present values:

- Certain investments;
- Certain operating fixed assets;
- Staff retirement and other benefits;
- Non-banking assets acquired in satisfaction of claims;
- Derivative financial instruments; and
- Lease liability and related right of use assets.

6. FINANCIAL RISK MANAGEMENT

The financial risk management objectives and policies adopted by the Bank are consistent with those disclosed in the audited annual unconsolidated financial statements for the year ended December 31, 2023.

25.3.1 Claims against the Bank not acknowledged as debt	7,372,356	6,987,410

25.3.2 The income tax assessments of the Bank have been finalized upto and including tax year 2023 for local, Azad Kashmir and Gilgit Baltistan operations. While finalizing income tax assessments upto tax year 2023 income tax authorities made certain add backs with aggregate tax impact of Rs. 35,086 million (2023: 34,841 million). As a result of appeals filed by the Bank before appellate authorities, most of the add backs have been deleted. However, the Bank and Tax Department are in appeals/references before higher forums against unfavorable decisions. Pending finalization of appeals/references no provision has been made by the Bank on aggregate sum of Rs. 35,086 million (2023: 34,841 million). The management is confident that the outcome of these appeals/references will be in favor of the Bank.

Tax Authorities have conducted proceedings of withholding tax audit under section 161/205 of Income Tax Ordinance, 2001 for tax year 2003 to 2006 and tax year 2008 to 2019 and tax year 2022 created an arbitrary demand of Rs. 2,029 million (2023: 2,029 million). The Bank's appeals before CIR(A)/Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that these appeals will be decided in favor of the Bank; therefore, no provision has been made against the said demand of Rs. 2,029 million (2023: 2,029 million).

Tax authorities have also issued orders under Federal Excise Act, 2005/Sales Tax Act/Sindh Sales Tax on Services Act, 2011 for the year 2008 to 2017 thereby creating arbitrary aggregate demand of Rs. 1,144 million (2023: 1,144 million). The Bank's appeals before CIR(A)/Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that aforesaid demand will be deleted by appellate authorities and therefore no provision has been made against the said demand of Rs. 1,144 million (2023: 1,144 million).

25.3.3 While adjudicating foreign exchange repatriation cases of exporter namely: Fateh Textile Mills Limited, the Foreign Exchange Adjudicating Court (FEAC) of the State Bank of Pakistan (SBP) has arbitrarily adjudicated penalties against various banks including Rs.2,173 million in aggregate against Allied Bank Limited (the Bank). Against the said judgments, the Bank had filed appeals before the Appellate Board and Constitutional Petitions (CP) in the High Court of Sindh, Karachi. The Honorable High Court granted relief to the Bank by way of interim orders. Meanwhile, alongwith other banks, Bank filed a further CP whereby vires of section 23C of the Foreign Exchange Regulations Act, 1947 was sought to be declared ultra vires. On November 8, 2018, the Honorable court was pleased to order that the Appellate Board shall not finally decide the appeals. Subsequently, the earlier CP was disposed of vide order dated January 15, 2019 with a direction to the Appellate Board to first decide the stay application of the Bank and till then, the Foreign Exchange Regulation Department has been restrained from taking any coercive action against the Bank. Based on merits of the appeals, the management is confident that these appeals shall be decided in favor of the Bank and therefore no provision has been made against the impugned penalty.

37 FAIR VALUE OF FINANCIAL INSTRUMENTS

37.1 Fair value of financial assets

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities. Financial instruments included in level 1 comprise of investments in Listed Ordinary Shares.
- Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices). Financial instruments included in level 2 comprise of Sukuk Bonds, Units of Mutual Funds, Pakistan Investment Bonds, Market Treasury Bills, Term Finance Certificates and Forward Government & Exchange Contracts.
- Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs). Currently, no financial instruments are classified in level 3.

The table below analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:

Valuation Techniques used in determination of Fair Valuation of Financial Instruments within Level 2

Item	Valuation approach and input used
Federal Government Securities	Marked to Market on the basis of PKRV & PKFRV rates.
Non-Government Debt Securities	Marked to Market on the basis of MUFAP rates.
Foreign exchange contracts	Marked to Market on the basis of SBP rates.
Open ended mutual funds	Marked to Market on the basis of MUFAP rates.
Operating Fixed Assets (Land & Building) & NBA	The valuation is based on their assessment of market value of the properties.

3 SIGNIFICANT ACCOUNTING POLICIES

The accounting policies and methods of computation adopted in the preparation of these consolidated condensed interim financial statements are consistent with those applied in preparing the audited annual unconsolidated financial statements of the Group for the year ended December 31, 2023 except for the adoption of the IFRS 9 Financial Instruments w.e.f January 01, 2024.

3.1 New Standards, Interpretations and amendments adopted by the Group

Impact of IFRS 9 - Financial Instruments

As permitted by the transitional provisions of IFRS 9, the Group has opted for modified retrospective approach and has not restated comparative figures. Any adjustments to the carrying amounts of financial assets and liabilities at the date of transition were recognised in the opening retained earnings and other reserves at the beginning of the current year without restating the comparative.

For notes disclosures, the consequential amendments to IFRS 7 disclosures as a result of adoption of IFRS 9 have also only been applied to the current period. The comparative period notes disclosures repeat those disclosures made in the prior year.

The adoption of IFRS 9 has resulted in changes in the accounting policies for recognition, classification and measurement of financial assets and financial liabilities and impairment of financial assets. IFRS 9 also significantly amends other standards dealing with financial instruments such as IFRS 7 'Financial Instruments: Disclosures'.

3.1.1 Reconciliation of statement of financial position balances from existing local regulations to IFRS 9

'The following table reconciles the carrying amount of financial assets from their previous measurement category in accordance with existing local regulations to their new measurement categories upon transition to IFRS 9 on January 01, 2024.

Notes to the Consolidated Condensed Interim Financial Statements

(Un-audited) for the three months period ended March 31, 2024

3.1.2 Impact on equity and regulatory capital on adoption of IFRS 9

The total estimated adjustment (net of tax) of the adoption of IFRS 9 on the opening balance of the Group's equity as at January 01, 2024 is a reduction in equity of approximately Rs. 2,722.8 million, with corresponding impacts as follows:

- A decrease of Rs. 3,115.641 million net of tax related to impairment requirements;
- An increase of Rs. 392.841 million net of tax related to classification and measurement changes.

'In order to mitigate the impact of ECL provisioning on capital, a transitional arrangement is allowed to the Groups to absorb the impact on regulatory capital. Accordingly, Groups which choose to apply this transitional arrangement may implement this in accordance with SBP's Guideline for absorption of ECL for CAR purposes as mentioned in Annexure-B of BPRD Circular no. 3 of 2022.

The estimated impact of initial adoption of IFRS 9 on the Bank's capital ratios, without accounting for the allowed transitional arrangement, is as follows:

- Common Equity Tier 1 Capital Adequacy Ratio - 19.74%
- Tier 1 Capital Adequacy Ratio - 19.74%
- Total Capital Adequacy Ratio - 26.18%

3.1.3 The following explains how applying the new classification requirements of IFRS 9 led to changes in classification of certain financial assets held by the Group as shown in the table above:

(a) Open ended mutual funds previously classified as available for sale (AFS) but which fail the SPPI test

The Group holds a portfolio of mutual funds investments which was earlier classified as available for sale investments. However, these investments do not meet the definition of equity investment from holders perspective therefore IFRS 9 classification requirements of debt instruments have been applied to these financial assets. The business model of this portfolio is hold to collect and sell, however contractual cash flows failed to meet the 'solely payments of principal and interest' (SPPI) test requirement for classification as FVOCI under IFRS 9. Therefore, these financial assets having a carrying value of Rs. 34.454 million have been reclassified mandatorily as FVTPL.

(b) Debt investments previously classified as available for sale (AFS) reclassified to amortized cost

At the date of initial application of IFRS 9, an entity shall assess the business model and the contractual terms of the financial asset on the basis of facts and circumstances that exist at the transition date. The Bank has identified certain portfolio of federal government securities under AFS category which have been held to collect the contractual cash flows and the contractual terms of the financial asset give rise to cash flows on specified dates that are solely payments of principal and interest (SPPI) on the principal amount outstanding. As a result, financial assets having fair value amounting to Rs. 104,223.092 million have been reclassified to Amortized cost at Rs. 120,334.806 million, instead of FVOCI.

(c) Investment in debt securities previously designated as held for trading

The Group holds investment of Rs. 20,049.848 million in a portfolio of debt securities which had previously been designated as held for trading as the debt securities were managed on a fair value basis. As part of the transition to IFRS 9, these securities are part of an 'other' business model and so required to be classified as FVTPL category under IFRS 9, instead of designated FVTPL category under existing local regulations.

(d) Designation of equity instruments at FVOCI

The Group has elected to irrevocably designate equity investments of Rs. 18,798.989 million in listed and unquoted securities as permitted under IFRS 9. These securities were previously classified as available for sale. The changes in fair value of such securities will no longer be reclassified to profit or loss when they are disposed of.

Notes to the Consolidated Condensed Interim Financial Statements

(Un-audited) for the three months period ended March 31, 2024

(e) Reclassification from retired categories with no change in measurement

In addition to the above, the following debt instruments have been reclassified to new categories under IFRS 9, as their previous categories under existing local regulations were 'retired', with no changes to their measurement basis:

- (i) Those previously classified as available for sale and now classified as measured at FVOCI; and
- (ii) Those previously classified as held to maturity and now classified as measured at amortised cost.

Several amendments apply for the first time in 2024, but do not have an impact on the unconsolidated condensed interim financial statements of the Group:

	Effective date (periods beginning on or after)
- IAS 1 - Classification of Liabilities as Current or Non-current and 'Non-current Liabilities with Covenants - (Amendments)	January 01, 2024
- IAS 7 and IFRS 7 - Disclosures: Supplier Finance Arrangements - Amendments	January 01, 2024
- IFRS 16 - Lease Liability in a Sale and Leaseback - Amendments	January 01, 2024

3.2 Standards, interpretations of and amendments to accounting and reporting standards that are not yet effective

The following amendments to existing accounting standards will be effective from the dates mentioned below against the respective standard or amendment:

	Effective date (periods beginning on or after)
- IAS 21 - Lack of exchangeability - Amendments	January 01, 2025
- IFRS 10 and IAS 28 - Sale or Contribution of Assets between an Investor	Not yet announced

The above mentioned amendments are not likely to have a material impact on the Group's financial statements.

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The basis for accounting estimates adopted in the preparation of these consolidated condensed interim financial statements are the same as that applied in the preparation of the audited annual unconsolidated financial statements for the year ended December 31, 2023.

5 BASIS OF MEASUREMENT

These consolidated condensed interim financial statements have been prepared under the historical cost convention except for the following which are stated at revalued amounts / fair values / present values:

- Certain investments;
- Certain operating fixed assets
- Staff retirement and other benefits;
- Non-banking assets acquired in satisfaction of claims; and
- Derivative financial instruments.
- Lease liability and related right of use assets.

6 FINANCIAL RISK MANAGEMENT

The financial risk management objectives and policies adopted by the Group are consistent with those disclosed in the audited annual consolidated financial statements for the year ended December 31, 2023.

25.3.2 The income tax assessments of the Group have been finalized upto and including tax year 2023 for local, Azad Kashmir and Gilgit Baltistan operations. While finalizing income tax assessments upto tax year 2023, income tax authorities made certain add backs with aggregate tax impact of Rs. 35,111 million (2023: Rs.34,866 million). As a result of appeals filed by the Group before appellate authorities, most of the add backs have been deleted. However, the Group and Tax Department are in appeals / references before higher forums against unfavorable decisions. Pending finalization of appeals / references no provision has been made by the Group on aggregate sum of Rs.35,111 million (2023: Rs.34,866 million). The management is confident that the outcome of these appeals / references will be in favor of the Group.

Tax Authorities have conducted proceedings of withholding tax audit under section 161/205 of Income Tax Ordinance, 2001 for tax year 2003 to 2006 and tax year 2008 to 2018 and created an arbitrary demand of Rs.2,049 million (2023: Rs.2,049 million). The Group's appeals before CIR(A)/Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that these appeals will be decided in favor of the Group; therefore, no provision has been made against the said demand of Rs.2,049 million (2023: Rs.2,049 million).

Tax authorities have also issued orders under Federal Excise Act, 2005 / Sales Tax Act, 1990, Punjab Sales Tax on Services Act, 2012 and Sindh Sales Tax on Services Act, 2011 for the year 2008 to 2017 and 2021 thereby creating arbitrary aggregate demand of Rs.1,149 million (2023: Rs.1,144 million). The Group's appeals before CIR(A) / Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that aforesaid demand will be deleted by appellate authorities and therefore no provision has been made against the said demand of Rs.1,149 million (2023: Rs.1,144 million).

25.3.3 While adjudicating foreign exchange repatriation cases of exporter namely: Fateh Textile Mills Limited, the Foreign Exchange Adjudicating Court (FEAC) of the State Bank of Pakistan (SBP) has arbitrarily adjudicated penalties against various banks including Rs.2,173 million in aggregate against Allied Bank Limited (the Bank). Against the said judgments, the Bank had filed appeals before the Appellate Board and Constitutional Petitions (CP) in the High Court of Sindh, Karachi. The Honorable High Court granted relief to the Bank by way of interim orders. Meanwhile, alongwith other banks, Bank filed a further CP whereby vires of section 23C of the Foreign Exchange Regulations Act, 1947 was sought to be declared ultra vires. On November 8, 2018, the Honorable court was pleased to order that the Appellate Board shall not finally decide the appeals. Subsequently, the earlier CP was disposed of vide order dated January 15, 2019 with a direction to the Appellate Board to first decide the stay application of the Bank and till then, the Foreign Exchange Regulation Department has been restrained from taking any coercive action against the Bank. Based on merits of the appeals, the management is confident that these appeals shall be decided in favor of the Bank and therefore no provision has been made against the impugned penalty.
