Since in this example the time period between the transaction date and the statement date is 10 days, therefore the finance charges are calculated for 10 days. The total finance charges in this case amounting to Rs. 66/- for 10 days will be reflected on the credit card statement.

| Transaction Date | Statement Date | APR | Calculation | Finance Charges | Total Payable Amount |
| :---: | :---: | :---: | :---: | :---: | :---: |
| $30-$ Apr-24 | 10-May-24 | $24 \%$ | $10.000 \times 24 / 365 \times 10$ | Rs. 66.00 | Rs. 10,066/- |

## 18. Usage:

When you get your card in the mail, the first thing you should do is sign the signature panel at the back of your card. This ensures that no one else can use your card if asked for identification. You then should proceed to call the activation phone number on the sticker, which is normally located on the top and front of the card; the call should be made from your registered contact number. Once you activate your card, you are bound by these Terms and Conditions.
To use your new card inside a store, you must present it at the time of your purchase. The merchant, after charging your credit card, will give you two receipts (Merchant's Copy \& Customer's Copy) and you will have to sign and return Merchant's Copy. When you sign this, it means you agree to pay the charges that you were just presented with and you are getting these goods in good faith of that promise. Keep Customer's Copy of the receipt with you, as this is the only way you have proof of purchase until it is recorded on your credit card statement.
Using your Allied Visa Credit Card at an ATM is very simple. Insert your Credit Card in the machine, as you do with any debit card and specify your preferred language of instructions. You will be then asked to enter your card PIN. Your PIN is not the number displayed at the back of your card. It is the four digit number given to you by Allied Bank Limited, printed inside a PIN Mailer. After entering your PIN, press enter. You will be asked if you would like to withdraw cash; simply enter the amount you require and wait for your money to come out from the cash disbursement slot of the machine. Then take your card, which will come out from the card slot of the machine. When you are finished, you will be notified that your transaction has been completed.
